New Job Gives Lindy A Chance, Rogers Believes

(Special To The News)

BEVERLY, HILLS, Cal., May 24.—Several weeks ago I told you that "a certain well-known aviator would be connected with this rail - air-line. Well, yesterday the papers were just full of "Lindy's" acceptance. The whole country seems tickled to death that that boy is going to settle down and go to work and quit gadding about and finally see if he can't amount to something.

In his new job all he has to do is to pick out the planes, the pilots, the route, the fields. It's about the same type of job that took Gould and Hill a lifetime to work out.

Wonder who give Lindy a letter of recommendation for this job?

Yours for opportunities for young men.

WILL ROGERS.

PA NEWC OBSERVES

National balloon races are scheduled to start from Pittsburgh on Memorial Day. Chances are that the balloons may come in this direction, as they usually go northward from the scene of the start. New Castleites may get a view of some of the participating balloons next Wednesday. Pa Newc, however, is no authority on balloon racing and does not guarantee that the gas bags will float in this direction. It is only a guess.

Road supervisors of the county districts are certainly getting in a lot of work these spring days. Most all of the dirt roads are being given attention, and on many of them the drag is being used. The past winter was one of the worst in many years for damaging the dirt roads, because of the frequent thawing and freezing spells, and there is hardly a road in the county that was not permanently improved that was not in need of attention this spring.

Work can now proceed on the Plaingrove high school building, temporarily delayed because of the fact that the bond issue providing funds had not been approved by the state. Approval was announced from Harrisburg yesterday.

Many New Castle and Lawrence county residents played safe last night and took no chances on the frost. Small plants and flowers were covered over with newspapers to protect them from damage.

Workmen are making quite rapid progress on the construction of the new centralized school in the Princeton district. The building is now well above the ground, the bricklayers working on the first story walls. It is expected that the school will be ready for sessions in the fall.

Next Wednesday is Memorial Day. It is well to pause for a few moments in making plans for observance, and recall the significance of the day. It is not one that is designated for wholesale amusement purposes.

And this reminds Pa Newc. The curb flag system on North Mercer street will probably be missing on Wednesday. When the street was widened recently, the holes in the sidewalk for the flag poles were all eliminated and no new ones have been provided.

Over on Jefferson street there was an unusual traffic hazard last night. Parked near one of the corners was an immense auto, with two spare tires fastened to the tire carrier in the rear. Perfectly legal, perhaps, but these two tires protruded much further out into the line of traffic than any other car on the street.

Dodwood is in bloom in the woods, now, and what a beautiful sight it is to see the green of the forests dotted with these bright white blossoms. But yesterday we saw an automobile coming into the city with branches of these beautiful flowers tied onto the running boards and rear of the car. Not so much to blame, perhaps, if they were to be used to make a bower for some blushing bride's wedding, but

Huge Dirigible Encounters Strong Headwinds; Due At King's Bay Tonight

(International News Service)

LONDON, May 24.—Heading southward for King's Bay, Spitzbergen, after cruising about the North Pole for nearly two hours, the dirigible Italia encountered strong headwinds north of Greenland, advices from King's Bay stated today.

When the huge airship reached the pole shortly after midnight, General Umberto Nobile, commander of the craft, found that weather conditions were unfavorable for a landing.

The commander of the ship had intended to land at the pole and plant a huge wooden cross and an Italian flag there. Two meteorological experts were to have accompanied him in the landing to make scientific observations.

Meet Bad Weather

The Italia covered about 750 miles in about 20 hours in its flight to the pole. If all goes well the ship should be back at its base by eight o'clock

Two Mystery Calls In Hunt For Missing Youngstown Girl

FIND NO TRACE OF GIRL AS YET

(International News Service)

YOUNGSTOWN, May 24.—Two mysterious telephone calls, one of which purported to tell where 10-year-old Beatrice Rosenbaum who disappeared eleven days ago, might be found, today attracted the attention of police and detectives searching for the missing girl.

The other telephone call was received by a woman neighbor who said a male voice demanded to know what she had done with Beatrice.

No Knowledge of Case

The first call was received by Mrs. Max Rosenbaum, mother of the girl. The voice at the other end of the wire said that Beatrice would be found at the home of Abraham Nadler, 19 Willis avenue, a friend of the Rosenbaum family.

Nadler, when told of the call, said he had no knowledge of the call or why his name should be involved.

Police traced the calls to a downtown pay station. They are of the opinion that both were made by the same person.

Beauty Winner Held For Court

(BULLETIN)
(International News Service)

MEDIA, Pa., May 24.—Mrs. Vivian McDowell Page, "Miss Mobile, 1926," and her companion, Frank Morganthal, of New York, were held without bail for court today by Magistrate F. T. Cooper on charges of arson in connection with the $100,000 fire at the Norma apartments some time ago.

Miss Mobile then was taken to the court of Magistrate A. C. W. Matheus and arraigned on a new charge of passing worthless checks. The identity of her prosecutor was not learned and no one was permitted at the second hearing.

Suggests Use Of Huge Stack As Airship Mooring Mast; Or City Observation Tower

Into the News office today comes a live wire suggestion from a New Castle citizen. It is the suggestion that the immense concrete stack standing on the site of the Rosena furnace on South Mill street, and not now in use, be made use of as a civic enterprise.

The suggestions are that the stack be used as a mooring mast for airships, as an observation tower for visitors to the city, and as a location for a revolving sign to advertise New Castle. All of these are worthy of immediate consideration by New Castle civic bodies.

The request is made by the writer that the matter be given open discussion, and there may even be some better uses that can be suggested, or it may develop that none is feasible. What do you think?

Here is the letter, making the suggestions:

First, Is it not only possible but probable, that New Castle will need a mooring mast for airships in the near future and could not this stock be made available.

Second, Could there not an elevator be built inside and a beautiful circular staircase be built encircling it. Then a glass enclosed room be built on top, similar, to those on the Fire Watch Towers throughout the mountains of Pennsylvania.

Just imagine the view from the top of that tall stack and do you not think that every stranger visiting New Castle, would be delighted to make the trip to the top if time permitted.

The registry books at Fire Watch Towers show thousands of names per season of those who climb them for the view.

Third, Could there not be a fine revolving Electric Sign, placed on top of the watch tower. Reading New Castle, Pa.

This would be visible from all Railways and Highways entering the City, also to aviators and airship navigators during the night.

Fourth, Having witnessed the construction of one of these stacks am convinced that if it is possible to pre-

Rescue Teams Temporarily Abandon Work At Mather Mine

OFFICIAL PROBE ABOUT TO START

(International News Service)

MATHER, Pa., May 24. — Mather was alone with its dead today. With a toll of 197 dead in the Mather Colliery blast, and with 160 bodies removed from the wrecked mine, rescue teams which had braved gas and flame since Saturday returned to their homes.

Company officials, again in charge of the mine, ordered the workings flushed with pure air, and workmen began the task of clearing away the debris, preparatory to an official state investigation.

It was thought that the 37 bodies still in the mine will be located and removed within a few days.

Meantime, the curious hundreds who had crowded the green hillsides surrounding the mines have gone—Mather is alone with its grief. More than a score of funerals were being held today. Revised figures show that there were 274 men in the mine rescued within a few hours.

One man was found alive in the workings sixty hours later, and one of the fourteen died.

Report Factions In China Seeking Peace Agreement

Peking And Nanking Governments Send Peace Envoys To Conference

GENERAL CHIEN UNDER ARREST

Sharp Fighting Reported 100 Miles South Of City Of Peking

(International News Service)

SHANGHAI, May 24.—Despite a new outbreak of fighting between Chinese Nationalists and Northerners 100 miles south of Peking there was an under current of rumor here today that the Peking and Nanking governments might come to an agreement.

It is reported that a peace envoy has left Peking for Nanking where he will confer with members of the Kuomintang administration.

Southern Army Retires.

While the Southern army advance guard was recently reported only seven miles from the Peking suburbs, latest advices indicate that they have retired. Fighting is reported in the region of Hoklen, which is approximately 100 miles south of Peking.

A tremendous sensation has been caused by the arrest of Gen. Chen Chien, who was in command of the troops in Nanking during the anti-foreign outbreak last year. The formal accusation against Chen was that he treated the natives of Hunan Province in a brutal manner. It is understood, however, that the real reason was his alleged conspiracy with another prominent Southern general to seize Hankow. Hankow was formerly the seat of one of the two South China governments during the factional fight last year between the Communist and anti-Communist wings of the South China organization.

Pittsburgh Prepares For Balloon Races

(International News Service)

PITTSBURGH, May 24.—Preparations for the national balloon races at Bettis Field Memorial Day were under way today with the arrival of four huge gas bags from the Goodyear plant at Akron, O.

Of the four balloons which are being shipped under special guard, one is the Pittsburgher entered by Sergeant William Bennett of the Wright Field, Dayton, Ohio. Another is the City of Cleveland which is to be piloted by Carl Wollam. Of the other two one is an entry of the American Business Club of Akron piloted by Clarence Palmer and the other is a Goodyear entry with Ward Van Orman as pilot.

Dirigible May Come

PITTSBURGH, May 24.—The huge navy dirigible, Los Angeles, will fly to Bettis Field here the morning of Memorial Day, if weather permits, to attend the national elimination balloon contest, it was announced here today by J. F. Cooper, engineering expert of the Goodyear Aircraft company, Akron, O.

Cooper said he had received assurance of the presence of the Los Angeles when he talked with the ship's commander, L. E. Rosendahl, in Lakehurst yesterday. If the weather is unfavorable Rosendahl will come here in an airplane instead.

Cooper will act as co-pilot and aide to Pilot Carl J. Wollam of the "City of Cleveland." The two are the first of the balloonists to arrive for the race.

Four Goodyear balloons arrived at Bettis field today in trucks from Akron, O., they are Goodyear No. 5; American business club of Akron; City of Cleveland, and Sun-Tele of Pittsburgh.

Herbert Maxson, general manager of the Goodyear concern, arrived here today to confer with city officials relative to construction in Schenley Park of a mooring mast for the Goodyear dirigible. Pilgrim, said to be the smallest airship of the type in the United States. The Pilgrim has a cabin with facilities for four passengers and a pilot, and is propelled by a 60-horse power motor.

ASKS RELIEF FROM COURT

Mrs. Ethel Cromwell of Bridgeport, Conn., with three of her four children, believes there must be a loophole somewhere in the law which will let her obtain a divorce from her husband. She is the mother of thirteen children of which only four are living. The other have died through her being unable to provide for them out of her husband's meager salary. Her husband wants her to have more children but the doctors say no. Prosecutor James Shannon (inset) of Bridgeport has taken an active interest in her case and will seek to find a way out for the distracted woman.

Wife Who Occasioned Her Husband's Arrest Reconciled; Asks Release

(BULLETIN)
(International News Service)

BRIDGEPORT, Conn., May 24.—Mrs. Edward Cromwell, who early this week had her husband arrested because "he wanted too many children," expressed a change of heart in city court today, and pleaded for her husband's release.

She agreed to take her husband back again and resume married life where she broke it off, and as a result Judge William J. Buckley of city court continued Cromwell's case to June 12 and released him in custody of the probation officer.

Cromwell had been lodged in jail under a breach of peace charge following his wife's complaint. That charge the prosecuting attorney found was the only one that possibly could cover Cromwell's case. Meanwhile Probation Officer J. A. MacConnell was turned loose on the matter and

Philadelphia Man Kills Daughter And Wife And Suicides

Crazed Father Kills Daughter And Wife And Self In Tragic Affair

(International News Service)

PHILADELPHIA, May 24. — Miss Jennie Olsock, 25, was slain and her mother fatally wounded by the latter's husband as the women slept in their home here early today. Olsock then committed suicide by drinking poison and shooting himself, police reported.

Jennie was in bed with her sister, Lora, 18, on the second floor of her mother's home when their jealousy-crazed father entered. The father shot the eldest girl but did not harm Lora.

A neighbor called police who found Mrs. Olsock unconscious and bleeding from wounds in the abdomen and shoulder.

In a rear room on the second floor they found Olsock slumped in a corner motionless.

Lora told police her father had been living apart from the family for some time but gained entrance to the house in some manner last night.

Great Manhunt For Bandit Gang On In Colorado

USE AIRPLANES IN SEARCH FOR GANG

All Southern Colorado Is Aiding In Effort To Capture Desperadoes

(International News Service)

DENVER, May 24.—All southern Colorado was engaged today in an extensive manhunt for the bandits, believed to be five in number, who held up the First National Bank of Lamar, Colo., killed A. N. Parrish, 75, president, and his son, John F. Parrish, 35, cashier, and made away with approximately $7,000 in cash and between $100,000 and $200,000 in liberty bonds and other securities.

Three national guard airplanes, 200 automobile loads of armed men and police officers of all towns in the southern part of the state were searching frantically for the bandits. According to reports, the bandit car was seen in Trinidad, Colo., where the robbers held up a drug store and demanded Mrs. J. B. Hughes Brown, owner, to dress the wounds of one of the robbers. Mrs. Brown said the man was shot in two places and she believed him to be dying.

E. A. Lundgren, teller of the robbed bank, who was kidnaped by the thugs, was released two miles from Lamar because, Lundgren said, the bandits said he had only one arm and he was no good to them. E. A. Kesinger, the second teller, who was also kidnaped, has not escaped, it is believed.

Pete Capitolo Is Named Delegate

Will Be State Representative At K. Of C. National Convention In Cleveland

(International News Service)

YORK, Pa., May 24—Lawrence G. Dana of Bradford today was state deputy of the Pennsylvania State Council, Knights of Columbus, for the coming year, having been unanimously re-elected at the closing session of the annual convention here late yesterday.

Lancaster was chosen as the convention city for 1929, having been opposed in the bidding by Conneaut Lake. The office of state deputy is the only position that calls for an annual election.

The convention also selected the following delegates to attend the national convention in Cleveland in August: Peter Capitolo, New Castle; Edward J. Quinn, Wilkes-Barre; William A. Tyan, Pittsburgh; Dr. F. W. Bowen, Philadelphia; Gus Rogers, Reading; John B. Green, Philadelphia; J. P. Simmons, York; and J. F. O'Neill, Philadelphia.

FROST DOES NO DAMAGE

Although slight frosts were reported in various parts of the county this morning, little, if any, damage was done, states County Agent H. R. McCulloch. Mr. McCulloch reports that the frost of Wednesday morning was heavier than that of this morning.

"The frost of last evening did not do any damage. Of course, in the low spots of the county where the air drainage is poor, some of the plants might be slightly frosted," states Mr. McCulloch.

There's a racket of horns and of student yells, a clatter of feet and a lot of noise, a flash of color, of purple and white, and laughing girls and boisterous boys. Its Senior Day and a day of fun, when books are passed for the great outdoors, when work is forgotten except the work of repaying the teachers, some year old scores. Its Senior Day and a day of sport, when nothing serious will be done, when working hours are set aside, for nothing more heavy than wholesome fun. And its many years since the most of us, observed such a carnival of play, the weatherman seems to be cool towards it, its hardly to fifty-seven today.

New Fire House Near Completion

East Street Fire Apparatus To Be Moved In Near Future

PLACING LIGHTS IN FRONT OF BUILDING

J. A. Altschuler, architect, today informed Councilman D. O. Davies that the South Jefferson street fire station is practically finished.

As soon as the driveway is graded and paved and the intersection of South Jefferson and South Mercer streets paved the East street fire apparatus will be transferred to the new building.

Four large lamps are being erected in front of the new building and it will not be long until furniture, including beds at East street, are transferred.

The new combination pump, hook and ladder truck bought by the city recently for $11,200, and which will be received here in about two months will be housed in the new station.

Councilman Davies stated today that councilmen have not yet decided on disposition of the East street building.

The ladies have not been overlooked in the making of the program. Monday afternoon a visit will be made to the Bell Telephone plant where tea will be served and on Tuesday morning a visit will be made to the Shenango Pottery company. Tuesday afternoon a bridge tea will be held at the New Castle Field club.

The program for the convention is an ambitious one and will keep the delegates busy all the time they are here.

May Attempt To Pass Farm Relief Over Veto Action

(International News Service)

WASHINGTON, May 24.—A decision on the question of attempting to enact the McNary-Haugen farm relief bill over the president's veto was postponed until tomorrow by the senate agriculture committee today, due to the absence of farm bloc leaders.

The committee met this morning and a few senators attended but no action was taken. There were indications the committee would recommend that no effort be made to enact the bill into law over the president's objections, as the feeling persisted that it cannot command the necessary two third majorities in both branches.

PA NEWC OBSERVES

(Continued From Page One)

it is pure wantonness to slay nature for a few moments selfish enjoyment and then allow the blooms to wilt and die and find a place in the rubbish heap.

Quite a frost this morning. In certain parts of the country districts exposed surfaces had a blanket of white frost early this morning. But we hope that it was not heavy enough to kill what fruit remains of the heavy freeze we had nearly two weeks ago. We have noticed that quite a number of apple and peach and cherry blossoms fell off, stem and all, a few days after the last freeze.

The East Side, to one who is just wandering about, is beautiful these days. Everyone has their lawn in what seems to be the best of condition: tulips are blooming about the houses, and some housewives are already getting their porch boxes fixed up for the summer.

On Butler avenue, just by the cement plant, wild strawberries are in bloom. The plants are being carefully nurtured by the children who live in the neighborhood, for they visualize what is to come, late in June.

And up East Washington street, the big parade goes, 20 cars being driven in from a factory. Most every day it is like this. And still there are some who claim that the country is in business depression.

Harry Conner at the Castle Foundry disclaims all this. The United States, he says, is coming into a new era of prosperity. Things are settling down, he says, into a steady channel of good production.

And the dome of the court house has gotten a new coat of red paint.

Negro Bishop Is Presiding Today At Conference

First Time In History Of Methodist Conference That Negro Has Presided

(International News Service)

KANSAS CITY, Mo., May 24.—For the first time in the history of the Methodist Episcopal church, a negro bishop today is presiding over the session of the quadrennial general conference. Bishop Robert E. Jones, negro of New Orleans, was wielding the gavel as the delegates balloted on the selection of a third bishop of the church.

Two bishops were chosen yesterday —Dr. Raymond J. Wade, secretary of the general conference, and Dr. J. C. Baker, a pastor of Champaign, Ill., being elevated.

Dr. Louis O. Hartman of Boston retained his lead on the seventh ballot, but was considerably short of the needed majority.

Others remaining in the running were Dr. Ralph S. Cushman, 25 votes; Dr. Ralph B. Umry, 24 votes, and Dr. L. M. Edwards, 9 votes.

During the early part of the journey the Italia encountered some extremely bad weather, dispatches from King's Bay indicated. At one time the going was so bad that the helmsmen of the ship found difficulty in steering, wireless dispatches from the Italia indicated.

Nobile achieved the feat of reaching the pole for the second time when the Italia crossed the "top o the world" this morning. More than two years ago, on May 22, 1926, the Italian-built dirigible Norge, bearing Nobile, Captain Roald Amundsen, Lincoln Ellsworth and a crew of 13, also reached the pole.

Nobile dropped the flags of Italy and the city of Milan and the huge cross which had been blessed by the Pope at the pole at 1:30 a. m. (Central European time), before starting on the return journey.

The Italian airman also sent a message telling of his achievement to Premier Mussolini and his wife.

Drops Cross On Pole.

ROME, May 24.—Gen. Umberto Nobile, leader of the Polar expedition in the Dirgible Italia, sent a radiogram from the North Pole to Pope Pius XI this morning announcing that he had dropped the Pope's cross upon the ice cap at the very top of the world.

The Rev. Father Gianfranceschi at King's Bay, Spitzbergen, sent another wireless conveying the same information.

"It is to be wished," said the Rev. Father Gianfranceschi, "that the planting of this papal cross at the earth's pole may symbolize Christ's domination of the upper world."

Blame Congress For "Dummy" Leases On Salt Creek Field

(International News Service)

WASHINGTON, May 24.—Congress was blamed today for the existence of leases on the Salt Creek, Wyoming, oil field obtained through "Dummy" locations, by E. C. Finney, assistant secretary of interior, in testifying before the senate public lands committee.

Congress had full knowledge of the "Dummy" leases in Salt Creek when it passed the 1920 general leasing law and designed its relief sections to protect innocent purchasers of the "Dummy" patents, Finney said.

The committee is investigating both the leases and the royalty oil contracts, one of which is held by Harry F. Sinclair.

serve same for some such purpose as herein suggested, that it will still be in use, when every reader of the present issue of the good old New Castle News, has passed to the Great Beyond.

Fifth. Would like very much to see this matter discussed in the columns of your valuabel paper and perhaps some reader may be able to offer suggestions, that would induce the Carnegie Steel Co., City Council, Chamber of Commerce and other civic bodies to take the matter up before it is too late.

Sixth. My own opinions may not have a great weight, but really believe something of this kind could be put over and might, possibly be a step forward, in putting New Castle Pa., before the world as one of Pennsylvania's most progressive cities.

'Flying Squadron' May Be Reorganized Soon

Although the bathing season is distant, owing to cool weather, it may not be amiss to issue a warning to young boys to stay clear of water until "swimmin' weather" arrives.

With Memorial day near it is anticipated that pulmotors at the city police station and gappling hooks will be inspected.

It is possible that the "Flying Squadron", composed of young men expert in the water will be organized again to help save lives.

Inspect City Mail Routes

Semi-Annual Inspection Being Made By Foreman Of Carriers

Semi-annual inspection of the mail routes of the city are being made by Peter F. Stevenson, superintendent of mail carriers. Already most of the routes of the city have been covered.

The chief idea of the inspection is to make a tabulation of the patrons of the routes, the length and time to cover and the amount of mail handled. Thus it can be told when a route gets too large and when necessary a new route is made.

Inspection of all rural mail routes was finished last week, and the condition of boxes, etc., reported to the postmaster and certain patrons have been notified to put their equipment in shape.

COOLIDGE'S VETO OF FARM AID BILL

PRESIDENT CALVIN COOLIDGE, expressing the conviction that the McNary-Haugen Farm Aid Bill is unconstitutional, also that the features that he had objected to a year ago, when he first vetoed the bill, had not been removed, again refused approval of the bill yesterday, as it passed the present session of congress.

This second veto was not unexpected.

The equalization fee, to which the president strenuously objected, was embodied in the bill, and there were other objectionable features that had been added to this year's measure, the president announced in his message that accompanied the veto.

Whether or not congress will attempt to pass the measure over the president's veto is uncertain, but it is likely that such an effort will not be made.

Action of President Coolidge, in the face of a "presidential year" and on what some are inclined to believe was a question traught with much significance to the party, indicates that the chief executive is remaining steadfast in his desire to carry out the duties of his office regardless of any threatened political effect.

We are not so certain that there will be any great national political reaction as a result of the president's veto. While in this industrial state of Pennsylvania the farm aid problem of the middle-west is not so much a matter of thorough knowledge, yet it seems that in principle the president's attitude is right. It appears to many in this area that government farm aid projects are somewhat akin to the idea: that if Pennsylvania experienced a slack time industrially, the problem would be taken to congress and the government would provide some plan whereby the wages of workmen would continue up to normal anyhow. This is overdrawn, but it's the nearest to a simile that comes to mind. Wouldn't such a proposition get great support in congress?

Legislation will never solve the problem of the middle-west farmers!

THE INQUISITORIAL SENATE

THOMAS N. McCARTER, president of the Public Service Corporation of New Jersey and a director of the United Gas Improvement Company, sees a prophecy made by him several years ago being verified by the United States senate, a body in which he frankly admits he has lost confidence.

It seems he opposed the direct primary and the selection of senators by popular vote, but not for the usual reasons. He saw in the changes the opening of the upper house of congress to "self-seeking theorists and demagogues."

A deep-seated conviction of Mr. McCarter is that the old senate, millionaires' club as it was, was the lesser of two evils. He points out that millionaires were never charged with leaving their sound and conservative principles of government behind when they entered the senate nor countenanced inquisitorial interference with orderly business by the government.

As a public utility man Mr. McCarter naturally is prejudiced, probably with justification, against the senate, which has done so much since the war to earn the displeasure of big business and is doing its best now to annoy and hamper the utilities. But the public will agree with him in much that he has said. On the part of the average citizen, there is a growing conviction that when the senate was "reformed" it was not improved. The taxpayer sees little difference between a senate that served only big business and a senate that is serving only the political ambitions of its own radical members and a motley crew of selfish minority interests. Here is another case where the happy medium is the desired but elusive thing.

OLYMPIC PROSPECTS BRIGHT

THE OLYMPIC prospects of the United States, judged in the light of the winter and spring events, are even brighter than they have been in those former years when the American teams successfully resisted the track and field advances of other nations. In solid development of domestic talent few other years have shown greater results.

The encouraging sign, from the standpoint, of American enthusiasts, is that American candidates have been developed to a high degree in events in which the challenge of other nations has been strongest in the past. There seems to have been a studied effort on the part of the team wearing the red, white and blue to capture events lost in past Olympics.

The consistent success of the United States in the Olympics has been due largely to its attention to the training of young athletes upon whom can be thrown the mantles of retiring stars. The phenomenon in athletics is not an accident here.

While every American takes pride in a winning American Olympic team and would be depressed by defeat, it would be the best thing for the future of the Olympics and for international relations if the "laurel" were to be passed from nation to nation. Nations, being collections of individuals, are hard losers, a fact that defeats the very purpose of the famous sports tournament of nations.

A man is never too old to learn. But he gets too old to be humble enough to learn.

Judging by the way things are going America will soon be a nation of traffic officers.

It's fair enough. The bride gets the showers beforehand, but the groom gets thunder later on.

Hints and Dints

Sun sets tonight 7:18. Sun rises tomorrow 4:35.

In Shanghai officials struck off the heads of a number of obstreperous strikers. The Chinese idea of arbitration is peculiar.

An Underworld character in New York was lured from his home by a telephone call and when he reached the spot he was given two minutes to pray before he was shot. Can it be that those gangsters had religious inclinations?

Henry Ford says prosperity will increase. Undoubtedly it will for Henry.

The state convention of the Pennsylvania G. A. R. might be secured for New Castle next year if it were gone after. Thousands of people attend that convention each year and it would be worth getting to New Castle.

WE AGREE TO THIS HEARTILY

New Castle, Pa.,
May 19, 1928.

Dear Hints and Dints:

Here I am again, this time with a poem which I have composed just to help "rout" for the women.

Yours,
J. H. K.

Women, yes "only women" are we,
And do as only women do and know.
The little things have been our cares, you see,
But large oaks from little acorns grow.

Woman's vision is so very keen.
"The weaker sex," men call them;
They know not how hard on us they lean.
The world sure needs the women.

We love as only women do,
And life is not too much to give
Where love is worthy, 'tis true.
We give, and serve, and love, and live.

Out tho'ts and visions materialize,
And man by women's tho'ts is oft' made great.
But few are the men who realize
The good or value of his "help-mate."

We might be inclined to observe Better Speech Week, but no amount of cajolery will induce us to support any movement looking to a Better-half Speech Week.

We are glad to note that many of the nurserymen and green house owners advertise that they will not transact any business at their place on Sunday. The great American Sunday should be kept by all means. People can buy stuff like that on week days.

Generally speaking, in these days the fatted calf is usually corn-fed.

An article for women on "How to Win Men" rather amuses us. Just as if they needed any instruction.

For some reason or other one of those mine disasters makes us stop and think as nothing else does and they come so frequently that we hardly get over one until there is another. When we place ourselves in the position of an entombed miner it is terror to us. Once we were in a coal mine and that was the first and last time.

A Pennsylvania man left his wife a fully equipped still as a legacy. Wonder how much inheritance tax the state will get out of that?

"The clinging type of women is passing" we hear from a scientist. Today they cling only in the clinches.

That cut of $205,000,000 in income taxes will help some. High taxes are keeping a lot of things from moving as they should move. Everybody helps pay the tax in one way or another, even if most people do not realize that fact.

Perhaps the reason some men rust is because the iron has entered their soul.

A great millionaire chain store owner says he is glad his wife got a divorce. Those rich babies sure do love to get divorces and they pay some scandalous sums just to hock onto some other one who also gets dissatisfied sooner or later. Money isn't everything it seems after all.

This is the time of the year when a green onion that has been tenderly raised is all that a green onion could possibly be.

A lot of the old flivvers do not choose to run in 1928 either.

Blinders to prevent drivers of automobiles from seeing the persons sitting on the seat next to them would prevent many accidents, it is stated. There's a driver who is evidently a good wife hater.

So much effort is entirely futile. When a worm turns it merely gets sunburned on the other side.

The man who made 26 additions to his will at various times appears to have been codicilly.

What gets our goat is why so many gossipers get so busy in things which really are none of their business and which costs them nothing. What do you think about it? Maybe they want something they can't get.

Man wants but little here below and he gets more than enough of it in stewed rhubarb.

It cost Senator David A. Reed $5,869.92 to be nominated United States senator from Pennsylvania. That was money well spent. He is a real representative of the great Keystone state.

The new tax law reduces the taxes on wine $930,000. So they do still have wine.

There are a lot of people who are against a president serving a third term who were not in favor of some president even serving one term.

Generally speaking the man who acquired a second-hand flivver drives a hard bargain.

However, when and if the meek inherit the earth, they will probably squabble over the division.

Every day some outfit goes after Mr. Hoover for one thing or another. They blame him for things he did during the war. If all the fool things the Democrats done during the war were brought up no one would even claim to be a Democrat. We will suffer forever from Democratic inefficiency during the World War and Hoover kept it from being even worse if it could be. Hoover is a doer and naturally gets the knocks.

On next Saturday the local post of the Veterans of Foreign Wars will sell poppies on the streets of New Castle. It costs five cents to make these poppies to start with so when you only give a nickle for one you are buying it at wholesale. The money secured will be used to ASSIST THE SICK AND DISABLED VETERANS in the hospitals and help the sick and needy in your community. What more argument do you want? Give all you can for a poppy on Saturday. We owe the soldier man a lot which we can never repay.

Evidently Sandino learned strategy from oil witnesses.

So many people have an idea that a newspaper is a public institution, just like a drinking fountain, and all they have to do is just to use it as they see fit for their own personal interests and advantage. That is a mistake. A newspaper is a private enterprise conducted for more or less profit—generally less—as the history of newspapers will show in New Castle. Anything that is conducted for profit by its promoters has to pay for the publicity it gets, unless the publisher sees fit to donate it. No one has a right to demand anything from a newspaper, any more than from a grocery store or any other kind of a store. Newspaper space costs so much an inch to produce and it has to be sold at a profit in order for a newspaper to live.

An unbeliever in New York was fined $100 for annoying a Baptist preacher with letters and in other ways. He chose paying the 100 berries rather than spend 30 days in the workhouse. It don't pay to get too gay even in religious matters.

Imitation may be the sincerest form of flattery, but it's bad form all the same.

A Chicago woman is trying to divorce her 300-pound husband because he is too heavy for light work and not weighty enough for a circus. In addition to those objections, there is, we presume, the general indictment that nobody loves a fat man.

There are some terrible strawberry shortcakes constructed in civilization. And on the other hand there are some wonderful ones made also, so it's not such a bad world after all. We do not have to eat the bum ones.

One of the most colorful parades ever seen in New Castle will take place on June 14th about four p. m. It will be the Shriners. A great ceremonial will be held at the Scottish Rite Cathedral on that day and thousands of Shriners will be there. A class will be initiated by the Members of Syria Temple of Pittsburgh, New Castle being in its jurisdiction and the ceremony is being held here to accommodate those in this vicinity who wish to join. A meeting of all Shriners will take place on next Monday evening at the Scottish Rite Cathedral at 7:30 p. m. Any one wanting to submit petitions or wanting a petition can get same from Fred L. Rentz, president Lawrence Shrine No. 5 or Walter C. DeArment, Secretary, at Pennsylvania Railroad office.

Noguchi, Brave Fighter.
Buy It, Keep It, Get Rich.
John D.'s Apt Question.
Midnight Candidates.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

The death of Dr. Noguchi, a courageous Japanese scientist, is a great loss to the world.

Backed by the Rockefeller Institute, Noguchi was a leader in the war against disease, and poverty and misery born of disease.

Yellow fever killed him at last, as he sought for more knowledge in the African yellow fever regions.

Some bronze bandit on horseback should give his high place to Noguchi, whose memory really deserves honor.

When the steamer Columbus landed at Bremerhafen on Monday, eight passengers got into a flying machine and landed in Berlin seven hours ahead of the fast train. And all those passengers in a hurry were American business man. Americans will fly if you give them the opportunity.

Buy the right thing in America, keep it and you grow rich.

For instance, $6,000 invested in National City Bank stock 20 years ago is worth $27,000 now. And that is a comparatively small increase.

Fifty dollars invested in General Motors during the war, when Otto H. Kahn advised friends to buy it, is worth $5,000 now.

All depends on management, that is to say, on men. Investment in a good man and a good organization is the safest.

Increasing prosperity increases the number of American investors. In 15 years they have grown more than 3,000 per cent. Fifteen million Americans bought securities in 1927. Fifteen years ago only 500,000 Americans bought securities.

Are you investing money in "investment trusts?" If so, do you know the people that invest your money?

John D. Rockefeller, long ago, was advised to buy stock in a certain company because "the So and So railroad is going to guarantee dividends for 99 years."

"Did he happen to tell you," asked Mr. Rockefeller, "who was going to guarantee that railroad?"

Mr. Wickersham warns the Republican politicians against nominating a "midnight candidate", saying "the country is not in any mood to accept another Harding".

Among Republican managers that have "midnight" ideas, even the tamest that ever ate from a Wall Street hand, there is vague perception of the fact that a real candidate will be needed with Al Smith running.

Wall Street, unhappy Tuesday, decides that the four-hour day, ending at two p. m., is a mistake.

That "two p. m." in New York is 11 a. m. on the Pacific coast, too early for business to get well started.

Dr. Max Mason, leaving the Chicago University presidency to join the Rockefeller Foundation, foresees in years to come "a world free of hunger, poverty and illness, peopled by men understanding the workings of their own minds." Dr. Mason says: "We may even colonize other planets some day."

These planets are "colonized" now, undoubtedly many of them, let us hope, looking in pity upon this poor, sick planet with its plagues, wars and cheating.

Six hundred million dollars in the Rockefeller Foundation will help Dr. Mason to answer the questions:

"What makes men unhappy? Why should men go hungry, etc?"

An answer that doesn't cost anything is this:

Men are unhappy and hungry because they are ignorant, and because powerful men use their brains to collect wealth that they don't need instead of helping those that need help.

Two hundred more may die in Hamburg, killed by deadly phosgene war gas accidentally released.

Americans should realize that a country not protected against airplanes that would drop such gas on cities is a foolish country.

It is particularly foolish when, as in our case, it is the richest nation in the world, doubly and trebly foolish when it buys useless battleships, spending on one battleship enough money to build a complete air fleet.

Business men in Europe are outraged by high interest rates paid on American loans and the big "rake-off" of American financiers handling the loans.

The worst is that, when the time comes to repudiate some of those foreign bonds, they will be in the hands of little American investors far from the vaults of the "rake-off" gentlemen.

REAL TEACHING

Food is no good unless there is a hunger for it. Water is not relished unless you are thirsty.

And the correlative of these facts is that teaching does not do much good unless there is first a desire to be taught.

That is a successful teacher, therefore, who arouses in his pupils a desire for learning. The teacher is not some one in charge of the knowledge supply whose sole business it is to ladle out information to inquiring minds. His business is to create an appetite. When a boy or girl wants to learn he can be said to have the rudiments of culture. Not until then.

The Metropolitan High School of Los Angeles probably is doing real teaching. It finds the boys and girls who have not the opportunity for regular schooling and supplies them with that training they need.

There is a law in the state of California that every child of a certain age must attend school at least four hours a week. This is not much, but it is some. It provides that the young shall not be left wholly without training. The board of education of Los Angeles complies with this law by using the Metropolitan High School on Venice boulevard, whose business it is to take care of these part-time students.

How well it does this is shown by the figures that it has an average of 5,800 students morning and afternoon.

In many instances the children are taken out of school because their parents are financially unable to dispense with their services. By means of this school children are enabled to work in some gainful occupation and, at the same time, pursue their education, learning to be more efficient in their calling as well as acquiring useful knowledge.

Think of what it means to a community to have an organized band of interested men and women to whom a youth can turn should he desire employment, instead of being forced to hawk his abilities from door to door in the long and gruelling process of finding something to do!

The education of youth is so important a matter that every one should take part in it. It should not be confined entirely to the school room, but employers should co-operate with the school teachers.

More and more the idea is growing that the first essential of a good education is to enable a person to stand squarely upon his own feet and to be beholden to nobody. The first requisite of an American citizen is work, not any form of charity, and this school teaches the youth how to find work.

It is engaged in the tremendous business of putting round pegs in round holes and not in square holes.

Tomorrow—Too Old.

ANOTHER CANAL COMING

It will not be long now and the Panama Canal will not be able to accommodate the ships presenting themselves at Colon and Panama. The day is coming when there will be a "Waiting List" at either end of the waterway and what will be done then?

Thirty commercial vessels passed through the Canal April 10, establishing a new high record for tolls, according to reports by the Governor of the Panama Canal Zone to the War Department. The tolls collected for this day were $137,053.98, compared with $136,861.31, the previous high record collected on October 1, 1927.

These thirty vessels aggregated 144,689 net tonnage. Sixteen vessels moved from the Atlantic to the Pacific and fourteen from the Pacific to the Atlantic. In addition to these thirty vessels, one tankship of the United States Navy, four non-seagoing tugs and one launch used the canal the same day.

The United States Marines are now in Nicaragua and the thoughtless are asking, "why?" The United States must build another canal. It has a right-of-way across Nicaragua. The next Canal will have to be there. The Government of the Central American State must at all times be friendly to the United States and that's "why".

It is, however, about time that the marines live up to their reputation and "get" Sandino.

LIFE OR DEATH

The public has been somewhat interested — not enough — in the problems that were discussed at the recent Congress of American Physicians and Surgeons in Washington. From physicians who keep in the lead of their profession the layman learns many things that ought to interest him intensely. He learns or tries to learn something of the relation of an ulcer in the stomach to a cancer and he finds out something about the manner of diagnosis. The big lesson, above all others, that the layman should get is the advisability of not neglecting his body when the first, slightest symptoms appear. Give

Just Folks

FORTY-EIGHT

Time was I thought of forty-eight
As being serious and sedate
And stern and dignified.
When one's that old, it seemed to me
He should with books contented be
And put the world aside.
When round the temples glistens gray
He never ought to think of play.

Time was I rushed to hold the coat
Or wrap a muffler round the throat
Of one of forty-eight.
It seemed to be my duty then
To ease the cares of all old men
And soothe their bitter fate.
At such an age, thought I, I'll be
Much pleased if youth pays heed to me.

Now looking back I chuckle low
At all those thoughts of long ago
And wonder, since they've fled,
How came such notions strange to me,
When I was young how could I be
As silly as I've said.
It makes my blood run icy cold
To think of forty-eight as old!

I need no muffler round my throat!
I want no boy to hold my coat!
My hair's a trifle gray,
But at a pretty girl I'll wink
And spite of what the kids may think
I'm still a youth today!
Let age grow serious and sedate,
Not I. I'm only forty-eight!

CHARLES B. DRISCOLL

IN NEW YORK

A sun-bath institution has just opened up on the roof of a building across the street from my office. I am on the 22nd floor and the roof on which the sun-bathers are going to bathe is five or six stories lower. There is a regular bath tub, with a wooden seat across it, and there are sunning couches made of wooden slats and covered with soft blankets. The roof is entirely surrounded by a high coping, so that it is open to inspection from above only.

Up to the hour of writing this I have seen no sun-bathers on the roof. Only plumbers, carpenters and other artisans, putting the finishing touches on the equipment. But there is great excitement hereabout. I am not sure that I will be able to do any more writing in my office if the word gets generally circulated about the offices on this floor. I will report developments, if any, to my readers.

* * *

Westerners in New York like to get together occasionally. State associations have their annual dinners, and the alumni associations of various western colleges and universities have annual dances or dinners. But some of the men from western schools long have wanted a more frequent and closer association with their own kind of folk. So the Western Universities club has been formed. It is composed of alumni of colleges and universities west of Pennsylvania.

I am not a joiner but I have joined this club. I had the pleasure of making a talk to its membership at the Roosevelt hotel today. I found an interesting group. The University of Wisconsin is away in the lead as to numbers, with the University of Michigan next. University of Illinois, University of Chicago, Notre Dame, University of Iowa, Ohio State, University of Indiana, University of Minnesota and Oberlin follow in the order named.

I found myself the only member representing Friends university, Wichita, Kansas, but I was mighty proud to tell them all that there isn't a better college anywhere. You know a fellow owes something to an alma mater that didn't collect the last year's tuition until he had been given a year in which to earn it, after graduation.

* * *

There is something very interesting about college loyalties that live long after college days. And I think there is no college lavalty stronger or more genuine than that of the alumnus of a struggling western college, where scholarship counts more than social status, and where instructors work for the love of a cause. I may never be much of a credit to my alma mater, and I certainly will never leave her a great fortune, but I never miss an opportunity to tell my friends that the Quakers are among the most lovable of God's people, and that there is an obscure college out in Kansas where noble Quakers labor to train valuable citizens for two worlds.

Indict Erie County Men In Pittsburgh For "Rum Running"

(International News Service)

PITTSBURGH, May 24. — Eight Erie county men were under two federal indictments today as a result of alleged liquor law violations. One indictment charged them with illegally transporting 136 cases of Canadian ale and a large cargo of whisky into the United States from Canada. The other charged the Erie men with evasion of the tariff act.

The men indicted are Miles D. Keyner, Clifford E. Brooks, Harold Zimmerman, Raymond Gehrline, H. E. Finney, William Muller, Leon Federof and John Bodie.

Prohibition officials here said the liquor was seized on the Old Dutch road, near Erie, May 3, a prohibition officer shot and wounded Bodie when he latter driving a truck, tried to run down the agent at the time of the capture, authorities here said.

Police Place Murder Charge Against Husband Of Dead Woman After Grilling

CLAIMS OFFICERS FORCED CONFESSION

(International News Service)

NUTLEY, N. J., May 24.—Julius Kossman, 45, driver of a milk wagon, will be formally charged today with the murder of his wife, police announced after Kossman had been subjected to a seven hour grilling.

Mrs. Kossman's body was found in the street here. The medical examiner said she had been struck by an automobile or by a heavy weapon. She died from a fractured skull.

Police said they found a combination jack handle and tire iron and a bloodstained rag back of the garage at the Kossman's home. Kossman explained that a bloodstained towel, found in an ash can in the garage, was used when he cut his hand several days ago.

Kossman told his son, a college student, this morning that police kicked him, pulled his hair and forced him to sign a confession. He declared he was innocent.

RUNNING THE SCHOOLS

Parent-Teacher clubs have been having a big get-to-gether in Cleveland. Delegates hear some good advice from Professor Butterworth, of Cornell. He tells them to keep up their interest but not to try and run the little school house of long ago to the modern city system of today. Few understand the new methods and many do not approve. But it is a wise man who is willing to trust those who are trained for special jobs. Give them a chance. Don't try to run their business. Remember that most of us are out of date.

NO STRINGS

When the late Chauncey M. Depew left a million dollars to Yale he set a good example to other givers—in two ways. In the first place he gave a large amount. In the second place he handed out the gift without any strings tied to it. Mr. Depew rightly assumed that the president and trustees of that great educational institution know better than anybody else how to use a million dollars for the good of the university. He didn't try to tell them what to buy or what to build. There is so much vanity in most of us that we seek to rule—even after we are dead.

TAUNTED

A Detroit boy, only eleven years old, taunted because his physical weakness prevented him from joining in games with other boys, tried to commit suicide. One of the relics of barbarism that remains with us is our rude inability to sense the sensitiveness of others. Not to know that the human being is a delicate instrument and not to act in accordance with that understanding is the saddest sort of ignorance of which we can be guilty.

THOUGHT CASE WAS HOPELESS; NOW WELL MAN

Motorman Uses Ten Herbs With Remarkable Results; Feels Like New Person.

"I had begun to think my case was hopeless, as I had tried about every kind of medicine that I thought might help me, but nothing gave me any relief," was the statement of Mr. Charles Sweeney, 7109 Monticello Street, Pittsburgh, Pa., according to

MR. CHARLES SWEENEY

the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily demonstrating the great natural medicine, Ten Herbs, to crowds of people. "Then I tried Ten Herbs, and it has given me such splendid results that I just cannot say enough for it," continued Mr. Sweeney, who has been a motorman for the Pittsburgh Street Railway Co. for four years.

"I had shooting pains all over my body—from head to foot. For several years, I had been afflicted with stomach, liver, kidneys and bowel trouble. I was so nervous and exhausted that I did not know what a good night's sleep was. I had not eaten with any real desire for a long time. When I did eat, I would feel miserable because of sour stomach, gas and stabbing pains. These pains would center in my right side and shoot around my shoulder blades. My bowels would not move without using a physic; and my liver was sluggish, causing headaches and dizzy spells. I was so badly run-down that I had no ambition to do anything.

"The statements, in the daily papers, of local people who had been helped by Ten Herbs, induced me to try your medicine. Now I can honestly say that five bottles have made a new man of me. I can eat with pleasure, and do not suffer with that awful indigestion. There are no more pains or gas. My nerves are getting in good condition, and I sleep soundly. My bowels have become regular, and my liver and kidneys are working normally. Headaches and dizzy spells have disappeared. I have more pep, vigor and energy; and my work seems light and my spirits brighter. Ten Herbs has been such a boon for me, and will be for others, that I am glad to endorse it."

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily meeting the public and explaining the merits of this medicine.

Senate Passes Postal Pay Bill Over Coolidge Veto

House Enacted Measure Over Veto At Session On Wednesday

(International News Service)

WASHINGTON, May 24.—President Coolidge suffered a defeat today when the senate passed the postal pay increase bill over his veto by a vote of 70 to 9.

The bill became a law by the senate's action, as the house yesterday enacted it over the veto by a vote of 319 to 42. The bill will increase the pay of night workers in the postal service.

The senators voting to sustain the president were Bingham, Curtis, Gillett, Greene, Metcalf, Phipps, Smoot, Steiwer and Warren, all Republicans. The vote was the largest ever cast in the senate to override a presidential veto, according to senate attaches.

A few minutes later, the senate also passed the bill granting extra allowances to fourth class postmasters over the president's veto by a vote of 63 to 17. This bill was enacted by the house, 319 to 45, so the senate's action made it a law.

The bill would cost the government $2,865,000 in furnishing heat, light and rentals to the fourth class postmasters. In addition to the senators voting to sustain the president on the first veto Borah, Fess, Reed of Pennsylvania, Sackett and Waterman, Republicans, and Fletcher, King and verman, Democrats, joined in supporting the president on the second vote.

Janitor Reveals On Witness Stand That Papers Were Burned

Janitor At Syracuse University Is Witness Against Mrs. Florence Knapp

(International News Service)

COURTROOM, ALBANY, N. Y., May 24.—From the lips of Hugh Hawthorne, a janitor at Syracuse University, the jury at the second trial of former Secretary of State Florence E. S. Knapp, today heard how Mrs. Knapp herself burned papers which the prosecution alleges were official census records.

Hawthorne related how Mrs. Knapp received several boxes of papers from the secretary of state's office after she left office early last year and put them in the fire.

Thousand Men Attend Ceremonial Of Caliphs

Something like 1000 men, including over 200 candidates, were in the Scottish Rite cathedral Wednesday evening, May 23, when the Caliphs of Bagdad presented their summer ceremonial. And what a party that turned out to be.

From 8:30 until 12:30 there was something to be done, and the Caliphs busied themselves doing it. The class numbered 203 and of that number exactly 203 got their money's worth, and the visitors always get their money's worth.

Some preliminary work had to be done before the class was ready for the Caliph degree, and this was done. Following the conferring of the Caliph degree, which was done according to the old Arabic ritual, a program of entertainment was presented by the Musical Magpies, seven entertainers who pleased.

A lunch followed in the dining room of the cathedral and shortly after midnight the party was over.

Bond Is Approved For Bridge Contract

Bond of E. F. Scanlon, who has been awarded the contract for repairing a bridge across the Mahoning river in Mahoning township, was approved by court this morning. The contract price is $1977. New floor is to be laid, the bridge painted and other repairs made.

JUST TO KNOW

How to talk in theological terms does not make a man religious.

What to do in an emergency is not enough—you must remember it.

Some famous person does not establish your own claim to fame.

What is right is not enough—we must also do it.

Something scandalous does not require that you tell it.

The joy of work is to know life at its best.

A thing is true is not always to be able to prove it.

Scoutleaders Meet At New Wilmington

Club Is Guest Of Scoutmaster Jack Hulme At Monthly Meeting

The monthly meeting of the Scoutleaders club was held at New Wilmington as the guests of Jack Hulme, scoutmaster of New Wilmington troop 1.

President Ralph Davis presided over the meeting and as a starter introduced his new assistant, Louis Jenkins, who with Leroi Norton put on a stunt demonstration of the fireman's carry.

The next speaker on the program was J. Lee Calahan, scout executive, who emphasized the necessary registration of boys for the camping period this summer. All boys registering before May 31 will be admitted for $5 per week while all registering after that time must pay $6.

All scoutleaders are requested to be at Camp John M. Phillips on June 15 and 16 to observe the jamboree. To the two patrols from Lawrence county scoring the highest number of points, a special prize of two fine sleds will be awarded at our camporee.

Mr. Calahan then introduced Major R. F. Seymour, scout executive of region 3 to the men. Major Seymour expressed the greetings from the national council to the scoutleaders of Lawrence county, saying that if it were not for the men on the firing line, meaning the scoutmasters, there would not be any executives.

Must Keep Water In Its Natural Course

In an opinion handed down by Judge Hildebrand in court this morning in the case of Richael Raney against William Llewellyn, an order is made permanently restraining the defendant from deflecting water on the property of the plaintiff on English avenue. It is claimed that the water has been deflected from a natural water course over the land of Raney. Llewellyn must also remove obstructions which have been placed to divert the water from its natural course.

ACCIDENT REPORTED.

Claude Heasley, 717 Brooklyn avenue, reported to the police today that he was driving a milk wagon of the Chapman Dairy company off East street at Neshannock avenue, when his wagon collided with a car bearing Pennsylvania license 658-834 which was parked at the curb doing some damage to the fender of the automobile.

This Local Man Offering Praise For New Konjola

Says That This Medicine Relieved Him Of Kidney And Stomach Suffering.

MR. NEWTON A. GREEN
Seavy Photo

Konjola has already been a blessing to hundreds of people in New Castle and nearby towns. It has made men and women, in all walks of life, happy with the knowledge that life for them will no longer be one gloomy day after the other, suffering terrible miseries, but has given them the joy of living, by banishing the common ailments of the stomach, liver, kidneys and bowels.

One report after the other is being received by the Konjola Man at the Love and Megown drug store, 204 East Washington street, this city, from sufferers who have already been relieved of their health troubles. For instance Mr. Newton A. Green, 365 Fern street, New Castle, made the following statement:

"I am entirely relieved of the terrible miseries of stomach and kidney trouble since I have completed a treatment of Konjola," said Mr. Green. "It was the first medicine to help me and I feel that such a remedy should be indorsed to the public.

"For a long time I have been in a completely rundown condition and although I tried all kinds of medicine I never could find one that would give me any relief. I suffered almost all the day from lumbago and it was almost impossible for me to do my work because of the severe pains. But the worst trouble was with my stomach which caused me misery after every meal. Large quantities of gas formed after I ate the least bit of food. I was told this was brought on by constipation and even the strongest laxatives failed to help me. During the night I would have to rise several times because of weak kidneys and all day I had awful headaches that were due to a sluggish liver. I was steadily losing in weight and felt bad all the time.

"I noticed in the papers that Konjola was recommended by many local people for such disorders as mine and I finally made up my mind to give the medicine a trial. The first two bottles gave me more relief than all the medicine I had taken. The new feelings of health that came over me surprised me and I didn't know what to make of it. The pains in my back from lumbago disappeared and I could do my work without suffering the least bit. As I continued with the treatment my stomach got better until finally I was able to eat anything that I wanted without the least bad result afterward. Konjola regulated my bowels and gave me free movement every day. My kidneys are stronger and I never have to get up during the night, and all the liver trouble is gone. Konjola has helped me in every way and I am feeling better than I have in many years.

"My wife also has been helped by this medicine and we both think it is a blessing to our home. We recommend it every chance we get."

The Konjola Man is at the Love and Megown drug store, 204 East Washington street, New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy.

TROUBLED WITH HARD PIMPLES

Festered and Scaled Over. Nose Very Itchy. Cuticura Healed.

"I was troubled with pimples on my nose for some time. They were hard and red, and some were large and some small. The pimples festered and scaled over, and my nose was very red and itchy all the time.

"I used other remedies but not with success. Then I sent for the Cuticura samples and there was an improvement after using them. I purchased a cake of Cuticura Soap and a box of Cuticura Ointment and in three weeks I was completely healed." (Signed) Miss C. Andrews, 2446 East St., N. S. Pittsburgh, Pa., July 20, 1927

Coolidge Veto Is Discussed

Various Attitudes Are Reflected In Consideration By Senators

TRY TO ANALYZE POLITICAL EFFECT

By GEORGE R. HOLMES
International News Service Staff Correspondent

WASHINGTON, May 24.—President Coolidge's stinging veto-rebuke of the McNary-Haugen farm relief bill and the political effect thereof was hotly debated in Washington today.

"It turns the Middle West to Al Smith if Herbert Hoover is the Republican nominee at Kansas City," asserted the more radical Republican spokesmen for the mid-west grain belt.

"It does nothing of the kind," retorted their more conservative eastern brethren. "The middle west is traditionally Republican and will remain so. And if any losses are sustained there they will be made up by gains in other sections where the president's action is understood and appreciated."

In between these two extreme the discussion waxed hot and heavy wherever two or more politicians met. There were, however, some broad conclusions upon which there was general agreement, to wit:

1—President Coolidge has enhanced the possibility of his being drafted at Kansas City.

2—Herbert Hoover's path to the nomination has been rendered infinitely more difficult, and his election, if nominated, has been made correspondingly more difficult.

3—The anti-Hoover allies have been given a new toe-hold from which to direct their assault on Hoover in particular and upon the agrarian policy of the administration in general.

4—Irrespective of who is nominated at Kansas City, there will be a slam-bang Republican fight over the farm issue comparable in intensity and feeling to the expected prohibition fight at the Democratic convention.

That the leaders of the Republican Agrarians are sore and that they are going to Kansas City primed for a red-hot fight there is no doubt. Gov. Adam McMullen (R) of Nebraska, for example, already is urging that a Coxey's arm of 100,000 mid-west farmers "March on the Kansas City convention and as American free men demand economic justice".

The McNary-Haugen bill has distinguished sponsors in the party, not the least of whom are Vice President Charles G. Dawes, and Frank O. Lowden, to say nothing of the Republican Stalwarts in the Senate who voted for it like Senator James E. Watson, of Indiana, Senator Charles Curtis of Kansas, and a host of others. It is not contemplated that they will take lying down such a verbal lacing as was handed them in the Coolidge veto message. They do not particularly relish being accused of "cruelly deceiving" and "fantastically promising" and "economically hoaxing" the farmers.

Oddly enough, a large part of the Republican mid-west resentment, also voiced here, is directed against Hoover rather than Coolidge. The political explanation is that he is more vulnerable and offers a better target. The mid-westerners blame him for largely influencing the president to take such a positive stand against the McNary-Haugen bill last year, and they also continually kept alive the charge that he fixed the price of wheat during the war to the detriment of the American farmer and the benefit of the European consumer.

It is in line with this theory that a good many of the practical politicians of Washington believe President Coolidge enhanced the possibilities of his being drafted at Kansas City by his message yesterday. Hoover's admitted weakness in the farm belt, as shown by his having only a score of delegates between the Ohio-Indiana line and the Rockies, coupled with Al Smith's admitted strength in the populous East, is worrying not a few party leaders who are more concerned about winning in November than they are about the nominee. Consequently, realizing the Republican revolt in the Middle West, they argue that the Kansas City convention must put up some one strong enough to challenge Smith's popularity in the East, and who can still be assured of getting by in the West. That man, they figure, is Calvin Coolidge.

Reports Accident At Arlington Ave.

Small Girl Runs Into Auto; Taken To Office Of Physician

William M. Buxton of 716 Wilmington avenue reported to the police on Wednesday that he was driving east on East Washington street at Arlington avenue, when a small girl, apparently five years of age, crossed the street from the west side to the east side, running into a rear fender of the Buxton car. The little child was knocked to the pavement. She got up herself and was taken to the nearby office of a physician. When it was found that she apparently had not sustained any serious injuries, she was taken toward her home in the Buxton car. After riding a distance the little child asked to be let out and continued on her way home. Mr. Buxton did not succeed in getting the name or address of the little child.

Commissioners Have Pleasant Visit To Butler Co. Officials

County Commissioners Elder, Boyd and McCullough report a very pleasant visit with the county commissioners of Butler county yesterday. The visit was made for the purpose of ascertaining the methods used by Butler county commissioners in the transaction of business connected with their office. The Lawrence county commissioners were particularly interested in the methods of conducting the county home. Butler county has a large tract of land in connection with the county home, but it has been found that it cannot be worked profitably by the inmates, as there are not enough of them physically fit for hard labor.

Andromeda Applewood—agent for "A Daughter of the Gods"—S. Elizabeth Dean.

Mandy Murch—a scrub woman; late the detective—Wilbur G. Shibler.

The scenes are all in the parlor of "The Drummer's Rest," a small village hotel, during a period of thirty days. There are five acts, in each of which up-roariously ridiculous situations are presented.

Marble-Like Beauty

By Edna Wallace Hopper

To lend to your face the even-toned really smooth skin you must have a perfect powder base.

I have spent years looking for a cream to enhance the loveliness of my own skin, which has always had the best care. In France, where I have always found my hopes realized, I found what I wished. Now you can have it, too.

Simply ask for Edna Wallace Hopper's Youth Cream.

To take care of the many women whose skin has an abundance of natural oil, I have it made in the Vanishing type. For my own use, and for skins like mine, I recommend the Cold type.

Both types are available on any toilet counter—several sizes.

Earthquake Feared By Party Specialists

By CHARLES P. STEWART
Washington Correspondent for Central Press and New Castle News.

WASHINGTON, May 24.—Geological changes are alterations we think of as very gradual.

So they are—up to a certain point. A continent, for instance, tilts only microscopically—for ages.

It takes an expert, with lots of fancy instruments, to satisfy himself that North America's southern coast has slumped a quarter of an inch into the Gulf of Mexico in a generation; that the Arctic ocean littoral has hiked itself up correspondingly in the same period.

But when the limit's finally reached, and Ma Nature actually decides to "let go" for fair, they do say there are times when she does it "muy pronto."

* * *

The alleged disappearance of the rumored continent Atlantis is the semi-historic example of this sort of stunt.

True, it's none too well authenticated an incident. Yet first-class authorities admit that maybe it happened. Kerplunk!—way down to four or five miles below sea level that whole continent is supposed to have gone, without a minute's warning—that is, in reality, probably there were plenty of warnings, but they weren't recognized.

As a matter of cold fact, right along, now, and in various places, we have 50 or 75-foot terrestrial changes in next to no time. These are attested on sound scientific authority.

Stars blow up—astronomers see 'em doing it.

Such forces accumulate slowly—but the ultimate explosion!—blooey!!!!

* * *

Is our continent threatened by some such sort of a violent political readjustment?

The party specialists are worried, anyway.

Quite a few of the slickest of them are wondering if they don't sense a decided instability in the mid-west's rock-ribbed Republicanism. Others are watching their seismographs overtime for signs of weakness in the southern states' Democratic solidity.

It's a startling tendency—hints of a large-scale change in the national balance.

On-and-off years are different. They're a mere matter of political weather—superficial. This appears to be more deeply seated—more like a shifting of the whole foundation.

* * *

The truth is, for a number of years politicians have been looking for a radical party realignment.

They spoke about it in rather plainer terms four years ago than they've been doing lately; at that time they thought the LaFollette movement actually was the beginning of it.

This year's developments haven't been so suggestive of a three-way political split as of a scrambling of the two original main groups, and then of a de-scrambling process wtih a real meaning to the voters—a chance to express their preferences at the polls in connection with some honest-to-goodness issues.

* * *

The next election to be sure, if anything, will be only Ma Nature's big experiment.

Still, possibly it will correspond to the geological cataclysm we've already compared it with. The November shake-up having taken place—provided it really alters the landscape sufficiently—we can look over the new scenery and decide how best to improve on it, according to taste.

If a few political geologists go down in the swash, to everlasting oblivion, whadda we care!

Finds A Way To Stop Attacks Of Fits

Reports are received of an amazing teratment that epileptics state has proved successful in stopping their attacks. R. Lepso, Apt. 102, 895 Island Ave., Milwaukee, Wis., has been supplying sufferers with this treatment. He now wishes to reach all those who have not been helped and to do so is making the startling offer of a generous treatment free to all sufferers. Anyone afflicted should write to R. Lepso and this free treatment will be sent them at once.—Adv.

About 35,000 Attend School In Mercer

Never Before Has Such Interest In Education Been Shown, Says Educator

MERCER, Pa., May 24.—Never in the history of Mercer county so far as records of the county superintendent of schools office show has there been the interest taken in educational affairs as at the present time, is the statement of Prof. H. E. McConnel, county superintendent of schools.

For 15 years the efficient head of the county schools the educator states that he has seen interest in educational affairs increase year by year.

For the school year of 1927-1928 just closing, all records are broken in the number of children in school, estimated at 35,000 in the county, in the number of graduates from the 15 county high schools numbering 746 in four-year courses this year and most important of all, the attendance record of children to whom certificates of perfect attendance have been issued numbering 2,000.

It is reported that this number of certificates is 500 more than were issued previously. They are given to children who were not absent nor late during the school year.

Two certificates are issued, one given by the state superintendent and the other by the county.

Raises Your Table.

If your kitchen table is a little too low it can be raised several inches very quickly and neatly. Get four wooden door bumpers and drive one into the bottom of each table leg. Paint or stain them to match the table and you will be pleased with the result.

DANGEROUS ADVENTURES, Chapter No. 5

¶ This is the first time Neiman's ever issued an advertisement like this! But then, it's the first time Neiman's ever staged a Birthday Sale as unusual as the one that's now going on! We are certainly giving Bargains---and HOW! And the crowds! Well, you'd think the whole population suddenly decided to come to our Birthday Party!

¶ But the Advertising Department went up in the air. What kind of an ad to put out for the second day? To list all the Birthday Bargains would take many pages of a newspaper. Besides, practically all the items for yesterday's selling are continued on sale today. So what's the answer?

¶ We decided to use a Broadside like this. Even the busiest person can read while they run. And catch some of the spirit of this tremendous Retailing Event. Just to give you an idea of the standard of value-giving adopted, we mention a handful of the hundreds of offerings from Our Various Departments.

¶ Women's Pure Silk Full-Fashioned Hose for $1.13 is a bargain---and the mere announcement is enough---but Women's Coats for $12.13 is just as sensational as the hosiery item. You have to see the garments to realize that they are worth $25 to $30. And when we tell ladies they can buy a Daytime Dress for 93c, they know it's a big bargain---but Women's Silk Dresses at $14.13 and Women's Coats at $22.13 are equally as outstanding values!

¶ Imported hand made and Belgium Aplique Gowns at 93c; Regular $5.00 Silk Blouses for only $2.93; All Silk Chiffon Hose, Silk from top to toe for 73c and Hats at $2.13; are just picked at random. Summer Sport Suits for only $2.13; Women's $15.00 Coats for $7.13; $3.50 Summer Dresses for only $1.93; Women's Silk Dresses at $12.13! If you could see the Coats, Suits and Dresses on our Apparel Floor and Stock Rooms, you would enthuse over the values as we do!

¶ And just as likely as not we skipped the very best offerings. That's why you must come and see the bargains and the crowds for yourself.

¶ We hope to goodness we have enough help---with the many extras we've added, but if you don't get quick service, the wonderful Bargains you're getting will more than make up for any slight inconvenience.

¶ Give your purse a run for it's money---bring it around today!

a tonic should build, not merely stimulate

Take a Spring Tonic
for a very GOOD REASON

You feel sluggish—lack pep—appetite gone, you do not care to eat when you should enjoy your meals—pimples and boils may appear. You need an alterative tonic.

Why it should be S.S.S.

Because S.S.S. is the one remedy tested by time and perfected by science, which has been demonstrated by the experience of literally millions of satisfied users and by scientific tests in clinical laboratories to increase the appetite and build up to normal the count of red cells in the blood. This is the true basis of health and strength—the bright eyes, the clear unblemished skin, the glow and joy of bodily vigor, and resistance to disease.

POISON-OAK
(Poison Ivy—Thunderwood)
We believe that S.S.S. will cure acute cases of poison-oak poisoning and will build up an immunity against further attacks. This belief is based on scientific reasons and is confirmed by such experience in actual cases as we have been able to collect. But we wish to be sure of success in all cases before beginning to advertise it as a specific for this ailment. Try it and write us your experience.

—purely vegetable

When your system is filled with rich, red blood, you don't have that tired, languid feeling when you awake in the morning. Instead, you feel refreshed, ready to meet the world.

Your appetite is keen—you enjoy work or play—your skin is clear, cheeks naturally rosy.

All this because rich, red blood builds and sustains the body.

All drug stores sell S.S.S. in two sizes. The double size is more economical.

Name Medal Winners At St. Mary's School

The annual election or selection of candidates for the American Legion medal award was held in St. Mary's Parochiel school Tuesday afternoon. The election was conducted by District Commander Pat J. Dempsey who is a member of the Americanization committee of the local post which is also in charge of this activity.

Successful candidates are Margaret Denny of English avenue, daughter of Clarence Denny, manager of the P. H. Butler store. East Washington street and Kenneth McKay, 838 Harrison street, son of James McKay.

The medals will be presented at the closing exercises of the school to be held June 22.

CRASH KILLS WOMAN; ANOTHER IS INJURED

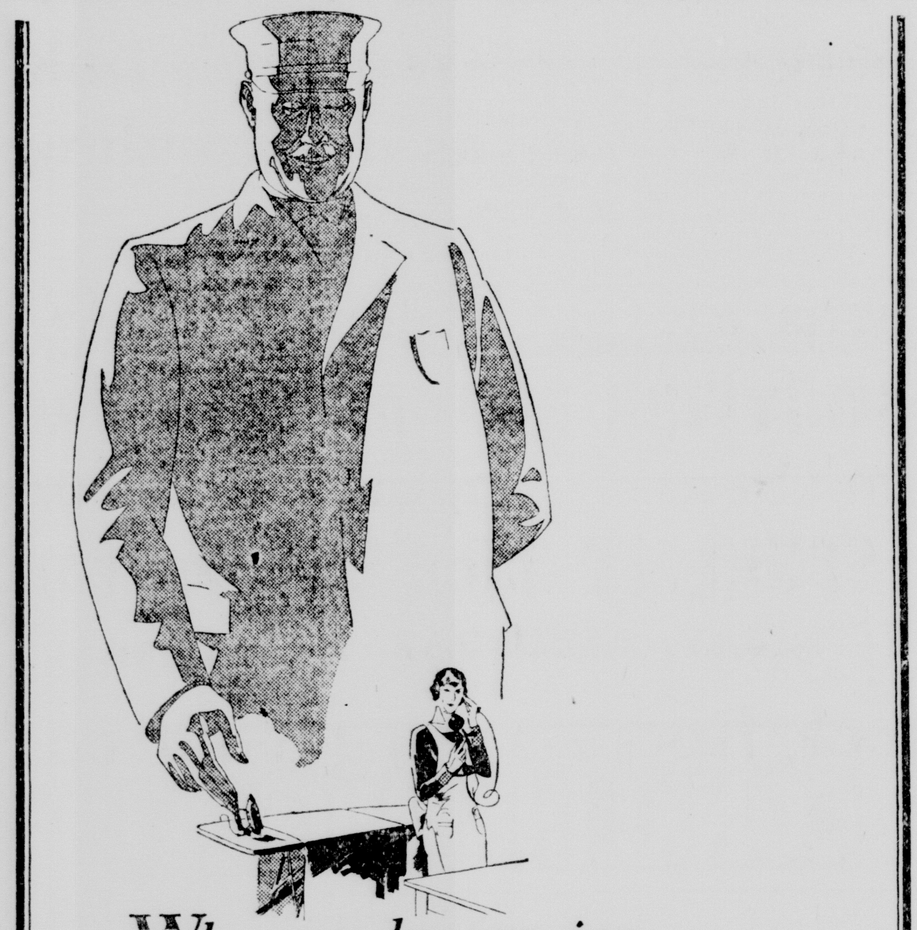

GALLIPOLIS, O., May 24. — Mrs. George A. Lowe was killed and Mrs. Susan Watts of Huntington and Mrs. A. R. Board of Parkersburg, W. Va., were seriously injured when their automobile collided with another car, 15 miles west of here, last night, on Atlantic and Pacific highway.

REPORT VARE IS SOMEWHAT BETTER

(International News Service)

PHILADELPHIA, May 24.—Senator-elect William S. Vare's condition was reported as improved today.

The Philadelphia political leader, who is confined to his home in Atlantic City as a result of an attack of indigestion and pleurisy, spent the best day yesterday and last night since he was taken ill a week ago.

Eight French Fliers Planning Attempts To Cross Atlantic Ocean

Speculate On Which Frenchman Will Complete Paris-To-New York Flight

Dieudonne Costes And Joseph Lebrix Favored In Aviation Circles As Winners

By FREDERICK K. ABBOTT
International News Service Staff Correspondent

PARIS, May 24.—Who, among the Frenchmen, will win the trans-Atlantic flight? There are eight aspirants to date.

Dieudonne Costes and Joseph Lebrix seem to be the favorites by reason of their flight over the South Atlantic. Both are at present on a long air journey over Continental Europe.

International News Service questioned ten well known aces and all agreed that Costes and Lebrix had the best chance. Many experts however, believe that Capt. Marcel Couduret has an excellent chance for success in his Bernard monoplane. Couduret is an army pilot on leave of absence. His plane is of the same type as the "Tango Bird," which Tarascon hoped to fly over the Atlantic last year.

Other trans-Atlantic aspirants are: Lucien Bossoutrot, Michael Detroyat, Maurice Toto, Lieutenant Leon Challes, Naval Lieutenant Paulin Paris and Naval Captain Guilbaud.

The "ship" which has been prepared for the Costes-Lebrix flight is fitted with a 600 horsepower Hispano-Suiza motor of the same type they used on their round the world flight. It has a flying radius of about 6,250 miles.

Count Louis De Mailly will be Couduret's navigator. He is an army reserve lieutenant and was in the French aviation service during the war. His plane makes 119 miles an hour and has a radius of 5,625 miles.

Bossoutrot has a "thick winged" Bleriot monoplane powered by four 250 horsepower motors. Bossoutrot is considered one of the best pilots in France. He is the son-in-law of Henry Farman, the airplane builder. He will have two other members of his crew.

Detroyat until recently was a sergeant in the French army. It was when the famous American Flying Colonel gave newspaper reporters the slip at 4 o'clock in the morning and flew over Paris accompanied by Detroyat. High over Le Bourget field the two expert airmen engaged in a mock battle, which thrilled the spectators down below.

Naval Lieutenant Paris has the backing of the French Ministry of Marine.

Parish Council To Have Social

This evening the Young People's Parish Council of the Italian M. E. church, will give as its monthly activity a social to all the members of the congregation.

A fine program has been arranged and refreshments will be enjoyed. Rev. F. S. Neigh, the superintendent of New Castle District will address the gathering. Reports of the work among the children and young people will be heard. Mr. Nobile Di Lorenzo will be chairman of the evening, and Misses Elizabeth Pearl and Elvira Gillest in charge of social program.

Ben Franklin Program Tuesday

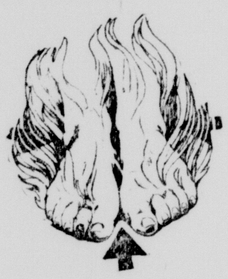

Memorial services announced for next Tuesday at 2:30 p. m. at the Benjamin Franklin Junior High school, have been changed to 10:30 o'clock that same morning. The change is made to suit the convenience of the students and their instructors.

Men's suits haven't changed much since last year except that some of them look a year older.

Joint-Ease for Burning Feet

Now that we know that aching, burning, inflamed feet are caused by troubles in the small bones in the arches of the feet—

And that such troubles can only be reached by Joint-Ease, an active emolient that gets right in direct to the joints and ligaments.

Isn't it about time to discard powders and medicated baths that only reach the outside of the skin—and rub on Joint-Ease, that in two minutes starts to soothe and heal the inside troubles that cause soreness and burning?

Rub it on tonight and if there is any burning left in the morning, it won't be enough to bother.

Always remember when Joint-Ease gets in foot agony and burning get out—quick—60 cents a tube.

Every druggist in America sells Joint-Ease.

Nearly 400 Entries In Local Dog Show

Kennel Club Exhibition At Cathedral Will Open On Friday

Nearly 400 dogs have already been entered in the first anual dog show of the Lawrence County Kennel club which will be open for exhibition on Friday and Saturday, May 25 and 26 at the Scottish Rite Cathedral according to E. W. Leach superintendent of the show.

Mr. Leach says that although there have been other dog shows in New Castle under the direction of the Lawrence County Kennel club, that this show will be the first which has ben licensed by the American Kennel club and thus tied up with the national circuit.

There are 32 different breeds of dogs entered in the New Castle show including all kinds and sizes of dogs. The smallest is the Chihuahua or Mexican Terrier which will weigh less than two pounds to the gigantic Great Dane which will tip the scales at nearly 160 pounds.

The largest entry at the present time is the shepherds or what is better known as the Police Dog. Next to them is the Beagles. In connection with the show will be an exhibition of the training of the police dogs to be shown by Michael L. Kiser of New Castle.

Two hundred special prizes are to be awaarded, trophies and merchandise being donated for the prizes. Four ribbons will be given in each class and also the best of breed and best in the show.

Judging will start at 1:30 o'clock Friday afternoon and will be carried on throughout the show. The judges are J. E. Niggel, Butler, Pa., J. L. Johnson of Akron O., and Louis Walther of Pittsburgh, Pa.

Officers of the Lawrence County Kenel club are: President, George A. Jones; vice president, J. C. Hoover; secretary, A. H. Gilmore and terasurer R. M. George. These with W. R. Lyon, Thomas O'Brien and Daniel Baker form the club directors.

The bench show committee is Chauncey Davis, Wm. Lanigan, R. M. George, Michael Kaiser, C. M. Jordan, H. H. Cohen, Chas. E. Snyder and the officers of the club.

The Beginning of An Annual Sale

Unquestionably this is the biggest boys clothing sale Fisher Brothers has ever put over for you. And we're going to make it an annual event. A great once a year clearance of all boys suits. This sale was originated with these thoughts in mind: First, to reduce our clothing stocks so only the latest style and fabrics are represented, and second to hold a clothing event which would instantly and unmistakably impress all buyers of boys suits. Obey that impulse—Be here TODAY.

Important Note

This sale does not include the Students Suits in sizes from 16 to 42. These are the only suits reserved, every other suit in the store is included. Another important note—Don't fail to be here EARLY.

DISAPPEARANCE OF FAMILY IS SOLVED

SANDY LAKE, Pa., May 24.—The disappearance of Mr. and Mrs. J. E. Martin and son of near here was solved late yesterday when they returned to their home, unaware that a search had been made for them. They had left home early Sunday and had driven to Ashtabula, remaining until late yesterday. Mr. Martin's mother, Mrs. Agnes Martin, 85, became concerned over their absence and is critically ill at her home.

I've Come Back to Buy

. . . I couldn't find anything that stacks up with today's Chandler

THAT'S the way it goes. The more that people look around, the more they recognize, appreciate and *want* the exclusive features and qualities of today's Chandler.

New Sixes and new Royal Eights of magnificent smartness—and chock-full of mighty Pikes Peak power.

More Power than Ever

Power that's absolutely remarkable. High-velocity power. Performance that has everything within hundreds of the price tagging behind in traffic and on the hills.

And with its new Westinghouse Vacuum Brakes, today's Chandler has them all stopped for stopping!

Real Safety Brakes

In modern driving, especially in traffic, there's a crying need for these quick-acting engine-power brakes.

Just a light tiptoe touch on the pedal brings today's Chandler to a quick, even, "cushioned" stop—*three times easier and safer than is possible* with mechanical or hydraulic brakes that depend entirely upon a driver's physical strength.

And another wonderful thing about Chandler is its "One Shot" centralized lubricating system. Push a plunger with your foot—and quicker than saying it, the chassis lubricates itself from end to end, automatically.

Last Word in Lubrication

No uncertainty. No fuss. No bother. No time out. No expense.

It's some automobile—in set-up, in get-up—in beauty, in behavior—in quality, features, everything.

A new Special Six Sedan, $995; a new Invincible Six Sedan, $1085; a new Big Six Metropolitan Sedan, $1525; a new Royal Eight Sedan, $1995—all prices f. o. b. factory. A total of thirty fashionable models. Come see, come drive, compare.

CHAPEL

Literature, drama, public speaking and athletics featured in the chapel program last Thursday.

Miss Smith had prepared as part of the entertainment a modern program made up of poetry and music. The lives of Masefield and Walter De La Mare were reviewed and some of their poems read. The girls' glee club pleased everyone with its interpretation of "The Volga Boatman."

"Marriage Bells, a pantomime presented by several junior high students, kept everyone in a roar of laughter.

Mr. Buchanon, a professor from the Youngstown Y. M. C. A. college, was present to give a short address on the subject of "Vocations and Their Connection With Education."

During the last part of the program a short review was given of the county track meet and rewards and medals were given out.

MEDALS AWARDED

Every class was well represented in the amount of medals won but the juniors and seniors seemed to excel.

Henry Mack, the star on the track team, won three first places and was also in the relay team which won second. Rudolph Brncick, another junior, won two first places and was also in on relay. Blas Serjak won one first, two seconds and was in on relay. Audley Snyder, a senior, won one first, two seconds and a third place. Wilbur Stanley and Paul Macklin both won a third place.

The class B group was made up of ninth and tenth graders. Kuzmo Bryan, Charles Grist, Taito Puromaki and Sterling McKee won the honors for this group.

The seventh and eighth graders in class C won a number of second and third places, but not any firsts. The ribbons for this group were received by William Yardas, John Fabyancich, Louis Hill, Tony Mehocich, Eugene Valentine and Joe Percic.

STYLE SHOW

This evening every one in Bessemer will be interested in the style show which is being given at the high school auditorium. The Tumbling club and the manual training department will add interest to the program prepared by the girls of the domestic art classes.

BE-HI RECORD

The eighth and final number of the Be-Hi Record will go to press Saturday. The senior class has charge of this paper and has made it a senior number. The paper will be on sale June 4.

PLAY DRAWS CROWD

"Kicked Out of College," the senior play, was given last Friday evening and was attended by a large audience.

The play was interesting from beginning to end. Several times it was almost a miracle that the roof wasn't raised by the hearty response of the audience to the "shouting scene". Fully as great was the effect that the "dressing scene" had.

GIRL SCOUTS

The Girl Scout club is one which is both active and interesting. At the present time the girls are making a special study of birds. Arrangements are being made whereby the club will be able to continue throughout the summer.

MEDAL AWARDED

For several years the American Legion has offered a medal to the most representative eighth grade boy in various schools. When the offer was made this year to the eighth graders they immediately held an election and stated their choice of the most representative boy.

In deciding who was the most deserving, the following qualities were considered: Scholarship, courage, honor, courtesy and leadership.

After the students had cast their vote the teachers stated their preference.

As a result of this election it was discovered that Glenn Stanley stood first and James Kanengeiser and Eugene Valentine tied for second place.

MOVIE

Without doubt the movie, "Sorrel and Son," shown Saturday evening in the Bessemer high school, was one of the best of the season.

The show was given as a benefit to the Boy Scouts of Bessemer. It was attended by a large majority of the townspeople. Perhaps the large attendance was due to the fact that tickets were sold beforehand by members of the troop.

HISTORY CLUB

Next week the History club plans to celebrate Memorial Day. At the present time a program is being made by Mary Seitl.

This club is one of the largest in the school. It makes a special study each week of the current events.

MEMORIAL DAY

Memorial Day will mean a vacation day to students of B. H. S. this year.

BASEBALL

Tuesday evening the Bessemer boys won from the Hillsville Juniors by a 5-3 score.

Wednesday Bessemer met Shenango at Shenango.

Thursday Union will come to Bessemer field to play.

After two years of wandering 196 miles over rivers, through half a state, Dirty Nose is home again to stay. Two years ago, her owner, Mrs. C. A. Grossman, of East St. Louis, Mo., took her to some relatives near California, Mo., who needed a cat to rid their farm of mice and rats. Dirty Nose didn't like the other felines on the farm, so she started out for home. Once before she returned home after her owners had given her to friends some distance away. Now Dirty Nose is recuperating on her mistress' porch with only a few broken teeth to remind her of her journey. Above, the cat, and the route she traveled.

Fifteen Thousand Buddy Poppies Are Ready For Sale

Plans Complete For Poppy Sales For Benefit Of Disabled Soldiers

Fifteen thousand Buddy Poppies made by sick and disabled veterans of the World War and all wearing the official Buddy Poppy label, on Saturday will have done something for the poor, unfortunate member of the World War who is compelled to spend his time in a hospital by reason of the injuries or sickness developed while in the World War.

It is hoped that this number will help every resident of the city to obtain one and in that way show their appreciation of the efforts of the boys of the world war.

The more money that the local post has over and above the cost of the Buddy Poppies, the more money that it will have for the purpose of helping take care of World War veterans and their families in the immediate vicinity.

The High school and Benjamin Franklin Junior High school will furnish the saleladies on this occasion and there will be the keenest of competition between these young ladies in the effort to be the one to secure the greatest amount of money for the cause.

Grove City High Will Graduate 120

Annual Commencement Exercises Will Be Held Tuesday, June 5

GROVE CITY, Pa., May 24.—Grove City high school will graduate a class of 120 students, one of the largest in the history of the school, at the annual commencement exercises to be held in the high school auditorium Tuesday, June 5, at 8 o'clock.

The class has 11 members who will be graduated with honors, having maintained honor grades throughout their four years. They are Theodore George, Jr., Aileen L. Raysor, Rose Walters, Esther E. Snyder, Janet E. Robinson, Jay Stanley Coulter, Lucille Dickson, Lillian Lenore Buchanon, Anna Belle Hamilton, Charlotte Graham and Paul W. Stone.

Baccalaureate services will be held Sunday evening, June 3, in the United Presbyterian church. Dr. C. H. Williamson, pastor of the First Presbyterian church, will preach the baccalaureate sermon to the graduating class. The commencement program on June 5 will include presentation of medals and diplomas by R. E. English, president of the board of education, as well as orations, essays, readings and musical numbers to be given by various members of the graduating class.

Plans are now being completed for the commencement week program, and the public will be cordially invited to attend the exercises.

Americanism: Thinking good times a result of good business management; blaming the government for bad times.

STRICKEN SUDDENLY

Almost daily we hear of it—the story of some man, probably a friend, suddenly cut off in the midst of his usefulness, in the very prime of life. That's what high blood pressure and heart trouble will do—snap off life without warning. All due to our abnormal living habits which put too great a strain upon the vital organs, especially the liver.

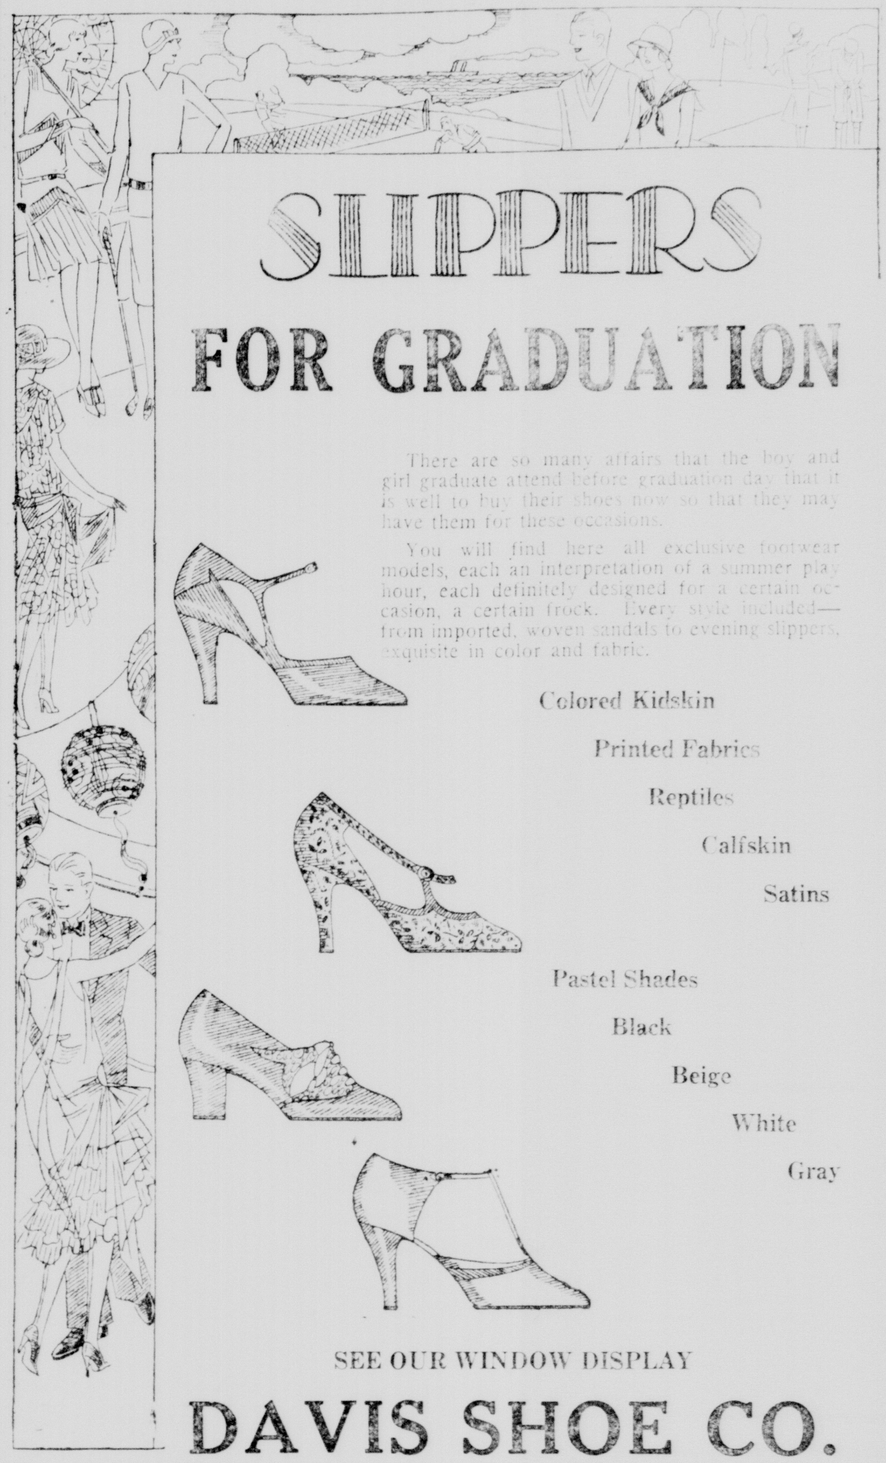

The liver becoming weak and sluggish fails to cleanse the blood of the poisons formed in food waste. The whole system then becomes toxic, with stomach, kidneys, heart and blood vessels affected.

The liver, especially at middle life, needs a little help, and there's nothing better for this, as physicians today know, than a little ox gall. Ox gall is a great natural stimulant for the human liver, promoting its normal active functioning, so essential to health and vitality. Dioxol tablets are genuine ox gall in dainty and tasteless form, each tablet representing ten drops of pure ox gall. They cost less than 2c each at good druggists, and one or two days' use will prove a revelation. To be sure of getting the genuine ox gall, ask for Dioxol.

Free Test Take this ad to the druggist named below and he will give you a free sample of Dioxol tablets. Try them yourself. See the splendid, quick results. One trial of Dioxol and you will want a full package!

MINER INDICTED IN HOUSE DYNAMITING

WHEELING, W. Va., May 24—Frank Brobb, 41 was indicted by the Ohio county grand jury today in connection with the dynamiting of two dwellings of the Elm Grove Mining company. The indictments charged him with violating the Redman act while a third charged him with assaulting state troopers who arrested him following the dynamiting.

"PLAYING HOOKEY" GOING OUT OF STYLE

PHILADELPHIA, Pa., May 24.—"Hookey," once popular pastime of the younger generation, is fading out of style. At the close of the present term of school this June, the percentage of school attendance will be higher for the year than ever before, figures of attendance from last September to the present showed today.

From the first grade to the senior year of high school a decided increase in attendance was shown each month, as compared with the same month of last year.

By the means of checking up system known as the school census, a record is made of all the "educable children" with their attendance.

One Day Institute At Central Church

Dr. W. S. Lockhart Of Indianapolis To Deliver Address; Local Ministers To Take Part

Dr. W. S. Lockhart of Indianapolis, Ind., director of the Church Life Foundation, will conduct a one-day institute in Central Christian church of this city on Monday, June 4.

Wallace Tuttle, music editor of the Christian Board of Publication of St. Louis, will assist in the institute. Many ministers and laymen from surrounding areas are expected to be present for this meeting, which will open at 10 a. m. There will also be afternoon and evening meetings, at which time Dr. Lockhart will deliver addresses on "The Need of Worship". Local ministers will also have a part on the program and will discuss topics related to subject of worship.

The Church Life Foundation, which is a movement for the spiritual enrichment and efficiency of the Christian church, has experienced the most phenomenal growth of any organization of the Disciple Brotherhood.

Dr. Lockhart is especially fitted for this work, as he comes from a family of preachers. For a number of years he was pastor of the Central Christian church of Houston, Tex. His most recent pastorate was at Huntington, Kas., where he resigned to take up this work.

PETER'S ADVENTURES in ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

THE VAGABONDS.

Mrs. Bobolink looked at her husband and smiled.

"You always call this place home" twittered she. "Yet it is only one of the many places where we live during the year. We are here such a short time you know."

"To be sure, dear; but it is right here that we build our house and raise our babies and after all that is really living and that is what makes it home.

"Of course we have to stop for a while at this place and that and I must say we enjoy ourselves wherever we are but all the months we spend away from this spot we are on a vacation. It is right in this old clover meadow that we do our duty as good Bobolinks should."

Bobolink smiled affectionately at his little wife. Then he turned to Peter.

"I don't suppose that you would believe me if I told you that we have sailed 700 miles without stopping to rest" said he. "Well we have! The Bobolink route is famous. Have you never heard of it?"

"Never" said the boy. "What is it?"

"Where is it, you mean?" Bobolink setled himself upon the edge of his nest. "We Bobolinks are called the dauntless voyagers you know. And I guess we are. No sooner are we settled in one place than something inside of us urges us to get out and go on and on and on. So as soon as we have been in a country a short time we weary of it and set out for new flying grounds. What fun we have in the Carolina rice fields. We eat and eat."

"Oh Mr. Lincoln tell me about it please." At this moment Gray Rabbit came bounding up and sat down in front of the little group and her naughty son was close to her side. "I

"WHEN WE LIVE IN MARSHES FOLKS CALL US REED BIRDS AND SHOOT US"

overheard you say something about eating. What do you eat?'

"Rice of course," declared Bobolink. "I don't believe that even you rabbits can eat mort cabbage than we Bobolinks can rice. We are known there as Rice Birds and how we are hated!

"The planters shoot us every chance they find—mad at us because they say we destroy their crops. When they make it too hot for us we leave the country.

"Down in the West Indies we stuff on grubs and insects and grow so fat that there they call us Butter Birds. In the marshes along the shores folks call us Reed Birds and because there is nothing that we like better than to eat the barley and young wheat they shoot us—when they can—and sell us at market."

Sweeps the Boards!

.. holds *all* speed and stamina records for fully equipped stock cars

Every Car a Champion!

The President
$1985 to $2485
F. O. B. FACTORY
100 horsepower 80 miles an hour
131-inch wheelbase
Holds all official records for stock closed cars, regardless of power or price, from 5 to 2000 miles and from 1 to 24 hours.

The Commander
$1435 to $1625
F. O. B. FACTORY
85 horsepower 72 miles per hour
World's Champion car—25,000 miles in less than 23,000 consecutive minutes. Nothing else on earth ever traveled so far so fast.

The Dictator
$1195 to $1395
F. O. B. FACTORY
70 horsepower 65 miles per hour
5000 miles in less then 4800 consecutive minutes—a record for stock cars priced below $1400.

The Erskine Six
$795 to $965
F. O. B. FACTORY
43 horsepower 62 miles per hour
A thousand miles in less than a thousand consecutive minutes—a record for stock cars priced below $1000.

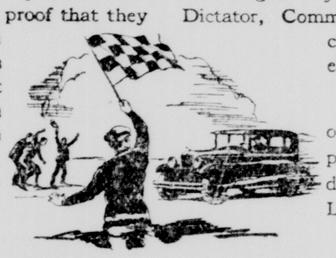

ERSKINE Six, Dictator, Commander or New President Straight Eight—they're champions all!

Read their separate, sweeping records—officially certified by the American Automobile Association. Champions in performance! Champions in stamina! Champions in durability! Studebaker has taken these three vital tests of value in a motor car and proved them beyond dispute—proved them in the only way they can be proved—by heroic tests of strictly stock cars under official sanction.

Think what this means to you in terms of everyday service—in terms of getting the most for every dollar you invest in a motor car!

Studebaker stands supreme and alone

These marvelous records made by Studebaker and Erskine cars are positive proof that they stand *supreme* and *alone* in their ability to travel thousands of miles at high speeds without mechanical trouble. Only a Studebaker Commander has ever traveled 25,000 miles in less than 23,000 minutes—no other car in the world ever came within 10,000 miles of this remarkable feat. Nothing else has ever traveled so far so fast on land, sea or in the air!

When championship performance and championship stamina can be bought in Studebaker-built cars at One-Profit prices (that in themselves set records of value), why be content with less than a champion?

40-mile-an-hour speed even when NEW!

These sensational proofs of inbuilt speed and endurance are direct results of Studebaker engineering genius, quality materials, precision manufacture and rigid inspections. For these reasons Studebaker and Erskine cars may safely be driven forty miles an hour the minute they leave the assembly line. Engine oil need be changed only at 2500-mile intervals. The Dictator, Commander and President need chassis lubrication only after each 2500 miles of travel.

Today Studebaker alone can offer you a champion in every price class. Come in today—drive a Studebaker champion! Let the car speak for itself.

PORTERSVILLE EAGLE PLACED IN ZOO

HARRISBURG, May 24.—Another living golden eagle has been added to the permanent collection of the state game commission, it was announced today. It will be placed on exhibition at the various fairs thruout the commonwealth this summer. The bird was caught in a steel trap by Howard Lisey of Portersville, Butler county. Lisey said that several other eagles had been seen in that vicinity. The bird is now being held at the Hershey zoo, Dauphin county.

At the morning service of the First United Presbyterian church next Sunday, J. Clyde Gilfulan, who just recently returned from a trip through the Mediterranean country, and who recently related an interesting account of his visit in Egypt, will give another address of his observations while in the Holy Land.

Mr. Gilfillan's recent talk was thoroughly enjoyed by the congregation which meets at the Y. W. C. A.

The violet-ray lamp may be a good substitute for sunshine, but it's going to take up a lot of room in the sedan.

Radium Workers Are Asking Huge Amount, Suit To Open Soon

Five Doomed Women Radium Workers Seek Over Million From Corporation

Fourteen Deaths In New Jersey Traced To Radium Poisoning

(International News Service)

ORANGE, N. J., May 24.—With the approach of the opening of the suit of five doomed young women against the United States Radium Corporation for $1,250,000, it became known today that the death of Miss Elizabeth Dunne at a hospital in New York more than a year ago has been traced to the same plant.

Five Orange girls who were employed at the Radium plant are victims of radium poisoning and doctors have pronounced their cases incurable.

Miss Dunne, who had formally lived at Waterbury, Conn., was employed by a watch and clock company that used radium supplied by the Radium Corporation. At the time of her death the cause was given as radium poisoning but the case was considered of minor importance then.

However, as a result of the connection with the present situation here, an investigation has been started in Connecticut to determine whether there are any radium poisoning cases among the watch and clock manufacturing centers there.

Meanwhile with the almost certain death of Miss Grace Fryer, Mrs. Quinta McDonald, Miss Katherine Schaub, Miss Albina Larice and Mrs. Edna Hussman, and the possible poisoning of at least 100 others there is reported a growing demand for state action. There have been 14 deaths in Newark and the Oranges, due to radium poisoning, the five girls who are suing declared. Many other cases are now being treated at a local hospital.

The hearing in the action brought by the radium victims is scheduled for tomorrow or Saturday.

Horrors Of War Brought Home To German Citizens

Germany Thoroughly Frightened Since Recent Gas Fumes Killing At Hamburg

GOVERNMENT IS NOT TO BLAME

(International News Service)

BERLIN, May 24 — Following a cabinet discussion of the poison gas explosion at Hamburg, when the whole population was menaced, it was officially stated today that neither the German government nor the Reichswehr was involved in the storage of the phosgene gas.

A statement in the German press, which was said to have been officially inspired, demands an international agreement prohibiting the use of poison gas in warfare.

Germany is thoroughly frightened over the possibilities of chemical warfare as its horrors have been brought home by the tragedy at Hamburg. The investigators at Hamburg were told by experts that, had the gas wave spread over the city, the whole populace would have been menaced.

The explosion gave a graphic picture of what might be expected in the "next war" if a fleet of airplanes bearing gas bombs set out to annihilate the population of a city.

English, French and American criticism, damanding an investigation by the League of Nations, is criticized by the German press as superfluous and hypocritical.

NEW INDEXES FOR COMMON PLEAS BOOKS

Court of common pleas indexes are poor and should be replaced with a modern system, according to a report made by a committee consisting of A. Martin Graham, Norman A. Martin and J. Clyde Gilfillan, to court this morning. Judge Hildebrand made an order empowering Prothonotary R. M. Campbell to purchase books and have the new system installed.

Crew Of Stranded Fishing Vessel Is Reported As Safe

Crew Of 320 Aboard Grounded Fishing Boat Off Alaska Coast Not In Danger

(International News Service)

SAN FRANCISCO, May 24—That the 320 men aboard the full-rigged sailing vessel Star of Falkland are out of danger, despite the hopelessness of the ship itself, was the belief general in maritime circles here today.

Scant reports reaching the Alaska Packers association of San Francisco, owners of the cannery boat, which grounded on the rocky shore lining Unimak Pass in the Bering sea, stated three rescue boats are standing close by the stricken ship. These are the United States coast guard Haida, the lighthouse tender Cedar and the Alaska Packers' steamship Arctic.

While the lives of the 40 members of the crew and the 280 Chinese cannery laborers are not believed in danger, the heavy pounding of the surf on the grounded sailing vessel has done so much damage as to render the ship almost a certain loss, according to advices reaching here.

Memorial Service At Mt. Jackson

Memorial Address To Be Given By Rev. Robert Hamill; Baccalaureat Exercises In The Evening

Complete arrangements have been made for the annual Memorial services of the combined congregations of Bethel United Presbyterian, Westfield Presbyterian and Mt. Jackson United Presbyterian churches which will take place Sunday, May 27 in the auditorium of the Mt. Jackson high school.

The memorial address will be delivered by Rev. Robert Hamill pastor of the Mt. Jackson U. P. church. Rev. Hamill will have for his subject, "The Battle Is the Lord's." Bible school will convene at 10 a. m.

In the evening at 8:15 the baccalaureate sermon to the graduating class of the Mt. Jackson high school will be given by Rev. George M. Neill, pastor of the Bethel U. P. church.

There will be special music at both services.

Wife Wants Husband To Pay More Money

Now Only Paying $3 Per Week For Support Of Spouse And Three Children

In the case of the commonwealth against Mike Haddad, a petition was presented to court this morning, asking that he be directed to increase the amount which he is to pay his wife, Mary Haddad, for the support of herself and three minor children.

Mrs. Haddad caused the arrest of her husband in October, 1926, for desertion and non-support. After a hearing he was directed to pay $7.50 per week. He paid this for some time. In November, 1927, he was out of work and asked to have the amount reduced. The order was modified to $3 per week.

It is claimed in the petition now presented by Mrs. Haddad that he now has steady work, and she asks that the amount he is to pay be increased to the extent of the original order. A hearing will be held on June 8th to determine the facts.

Want Lien Stricken From Their Property

Petition to strike off a mechanic's lien was presented to Judge Hildebrand in court this morning in the case of Aaron Brindus against Joseph Soos and Anastasia Soos. It is claimed that defendants made a contract with Brindus for the erection of a house on a lot in Ellwood City. Later a lien was filed by Brindus. It is now claimed that Anastasia Soos did not sign the contract for the erection of the house; also that the lien filed is defective. A rule was granted.

Motion for judgment for want of a sufficient affidavit of defense was presented in the case of The Higbee Company against Frank H. Foulke and Maude A. Foulke.

To Improve Cemetery At Mt. Jackson

Committee for the improvement of the Mt. Jackson U. P. cemetery announces that all those having relatives buried in the cemetery to report, if possible, for work on Saturday and Monday, May 26-28.

The cemetery is being leveled and re-sodded. Much work has been done but there is still much more to do. A number of people who have relatives buried in this cemetery have not yet reported for work.

Those planning to work on Saturday or Monday are asked to take mattocks and garden rakes.

Still, if anybody tried to stop the Japanese invasion of China, the hateful things might mention Nicaragua.

Mrs. Stone Winner Of Y.W.C.A. Indoor Tennis Tournament

Wins Championship Of Tennis Tournament For Third Time

MRS. EILEEN STONE.

Mrs. Eileen Stone, (Stoney) is again champion of the big Y. W. C. A. tennis tournament. This is the third successive year that Mrs. Stone has battled through the tourney and won her well earned title.

The indoor tennis tourney this year has been bigger and better in every way than any preceding tournament. Twenty-four contestants entered the struggle and many of them were first class tennis players like, Misses Mary Tewell, Ruth Brown and Myrtle Burnett. As Stoney said, "she had never played as hard to win a game as when she played opposite Miss Tewell." Mrs. Stone has a nice serve but she probably excels in her ability to return and place balls.

To win, Mrs. Stone has played a total of 94 games with 36 games scored against her. She is to be congratulated upon her fine playing, and keeping her title of champion of the Y. W. Indoor Tennis Tournament for another year.

Tennis fans are anticipating the outdoor tennis tournament to be played off in September under the auspices of the Y. W. C. A.

Special Agents Probe Alleged Smuggling Ring

(International News Service)

WASHINGTON, May 24.—Special agents have been sent to the Buffalo area to obtain evidence against a ring which has been smuggling liquor into the United States and cigarettes into Canada, the prohibition bureau announced today.

Charges against a number of prohibition, immigration and customs agents, and railroad employes have been laid before the Buffalo grand jury. The tip on the gigantic smuggling operations, said to have been carried on by use of automobiles, came from Canadian officials, with whom American secret operatives are co-operating.

Seymour Lowman, assistant secretary of treasury, said some of the American agents already have testified before the grand jury.

He was unable to estimate the extent of the smuggling operations, but said the total may run into millions of dollars.

No special drive is being conducted against smugglers over the border at Detroit, Lowman said, although the situation there is being closely watched.

Sharon Fire Chief Visitor In City

Fred Vanderholt, fire chief of Sharon, was in the city today, visiting Fire Chief Charles H. Lynn, for the purpose of obtaining a number of hose connections, which would make it possible for firemen and apparatus from this city to be used in Sharon in case of need.

The object of standardizing the hose connections of the cities in this section, is so that it may be possible for a department from one city to work in another city, because of the common or standard hose connections.

APOLLO MEN ARE APPREHENDED HERE

W. H. Hollis and Carl E. Gamble, who gave their home address as Apollo, Pa., were apprehended last night by Officers Thompson and Dukes after complaints had been received as to the manner in which they were acting. They put up forfeits of $25 and $10 respectively, for their appearance here Sunday morning. They will face charges of disorderly conduct.

SCHOOL INSPECTIONS BEING MADE TODAY

High School Prom Friday Evening

New Wilmington Students To Banquet At The Castleton —News Of Town

(Special To The News)

NEW WILMINGTON, May 24.—Tomorrow evening The Castleton in New Castle will be the scene of one of the biggest annual social events staged by the students of New Wilmington high school. This Junior Prom will follow a banquet which is also being tendered to the graduating class by the third year students.

E. C. Wiggins, member of the faculty and coach of the high school teams, will be toastmaster at the banquet and talks will be given by Thomas Hutchison, president of the junior class; Louise Adams, president of the senior class; Professor G. E. Nord, principal of the school, and Miss Mae McKelvey, vice principal of the school.

Following the banquet the members of the two classes and the faculty guests will attend the "Prom" held in the ballroom of the same hotel. The two committees appointed by the president of the junior class to arrange the details of the "Prom" and banquet are:

The arrangement committee composed of Calvin Rose, Jane Downy, Victor Smith and Catherine McClure, and the entertainment committee composed of Nelson Greer, Jane Wallace, Gerald Newton and Harriet Hartwell.

Six athletes of the college town high school were awarded track letters here yesterday morning. These men were Thomas Hutchison, Howard Eagleson, John Klump, Wilbur Patterson, Calvin Rose and Richard Hamilton.

Following the letter awarding ceremony, the six men met to elect next year's captain and accorded that position to Thomas Hutchison. With these track awards the local high school track season officially ended.

A recognition of the local high school faculty was evidenced here Monday evening when Mrs. Downy entertained with a chicken dinner served at the Sunnycrest Inn south of town.

The guests of Mrs. Downy included Principal and Mrs. G. E. Nord, Miss Mae McKelvey, Mr. and Mrs. E. C. Wiggins, Miss L. Stevenson, Miss Lucille Beerbower, Miss Mary Thorpe, Miss Lucille Clark and Mr. and Mrs. Beerbower.

Word has been received here by W. P. James that his daughter Hazel, who is scheduled to graduate this spring from the nurses school at Washington, D. C., has been taken ill with diphtheria. Her condition, however, is not serious.

Having completed his third year of work at the Jefferson Medical school in Philadelphia, Robert Houston returned here to spend the summer vacation with his family in New Wilmington.

Several of the high school girls are to be entertained tonight at the residence of Mrs. W. J. Conway. Among these girls will be Miss Marian Fervor, Miss Pauline Robinson and Miss Mary Clark.

As a token of their esteem, the members of the championship New Wilmington high school girls' basketball team presented the coach, Miss Virginia Stevenson, a valuable gift.

The Diary of a New Yorker

by CLARK KINNAIRD

Exclusive Central Press Dispatch to New Castle News

NEW YORK, May 24.—Variegated notes of a reporter covering the biggest beat in the world:

A phonograph record Alma Gluck made in 1914, "Carry Me Back to Ol' Virginny," has earned her more than $130,000 in royalties. Sales have dropped off as radio's popularity has increased.

Thornton Wilder author of the prize novel "The Bridge of San Luis Rey," has contracts for everything he will write in the next five years, but hasn't any idea what his next novel will be about. He writes very slowly. He was at work on "The Bridge" three years.

Florenz Ziegfeld complains about the cost of silk tights, but gives scrubwomen $50 goldpieces. He eats lunch in a cafeteria, but insists on taking his own poultry when sailing to Europe. He likes perfumes and prize fights.

George M. Cohan's ambition is to write a full-length play in one act. He doesn't like intermissions in shows.

William F. Kenny, friend of Al Smith, and financial backer of the governor's presidential campaign, was one of 17 children. Seven are alive, and five of them work for him.

Paul, son of Harold Bell Wright, novelist, is a Broadway actor.

The "Sash Weight Club," composed of newspapermen and women who reported the Snyder-Gray murder trial, holds periodical social meetings in a restaurant near the courthouse where the trial took place.

"A fireman is of more value to the world than a policeman," says Edward O'Neil, who resigned as a New York cop to become a fire fighter.

The way to get Captain Harold A. Cunningham, master of the S. S. Leviathan, interested in a conversation, is to inject locomotives as a subject. They're his enthusiasm. When he's in port he goes out where he can see them, and if possible, take a ride. One of his closest friends is John Draney, engineer on the Lackawanna, out of Hoboken, N. J., and he obtains official permission and dons overalls to ride with Draney in the cab.

I have found that my knowledge and love of locomotives, which is extensive because I am the son of an engineer, is shared by many notables. Gigli, the Metropolitan tenor, haunts railroad yards. Edward N. Hurley, the former chairman of the shipping board, is a locomotive enthusiast. Daniel Willard, president of the B. and O. likes to try out all the new monsters built for that road. Mayor Jimmy Walker, of New York, realized a lifelong ambition not long ago when he was allowed to handle the throttle of a locomotive for a short distance. Carl Sandberg, the poet, is a locomotive lover. So is H. L. Mencken, the critic.

Mrs. Mary Witherspoon, 447 Neshamock Ave., New Castle, says:

I always get a *whiter* wash

with this hard-water soap...no scrubbing!

"I CAN'T see why women stick to old-fashioned soaps, when here's a soap that ends all the hard work of washday.

"I've used Rinso for years now and never fail to get a whiter, brighter wash.

"There's nothing like it, especially for the water we have here! First, I soak the clothes in the nice, thick Rinso suds. That loosens the dirt so that the clothes need but a little rubbing if any at all. As for boiling, it's really unnecessary. And since the Rinso way is so gentle, I can trust my finest linens to it.

"I also find Rinso splendid for dishes, floors, bathtubs and sinks. It saves money, too—a little does so much—and you don't need water softeners."

Thousands write us letters like this in one month. (Lots of them are from readers of this very newspaper.)

In washer or tub—*amazing suds!*

Even in the hardest water, Rinso's suds are thick, creamy and lasting.

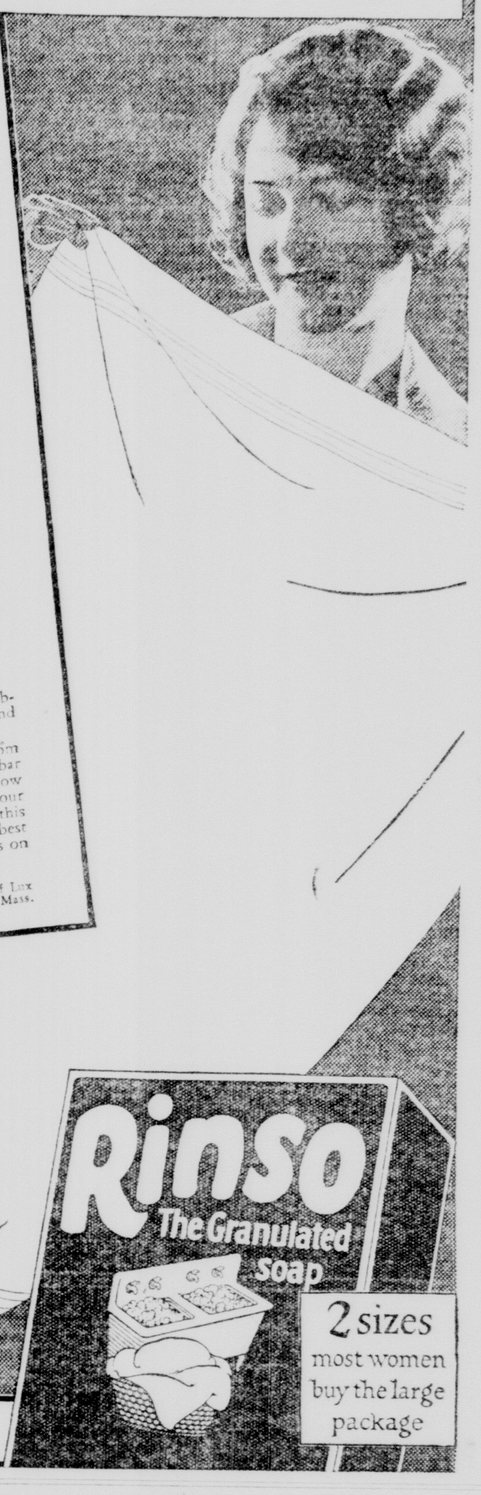

In machine or tub, these marvelous suds wash clothes whiter. For dirt and stains are magically loosened...*released!*

More than 32,000 demonstrators of washing machines use this granulated hard-water soap for *whiter* results. And the *makers* of 32 leading washers recommend it for safety.

Fine for tub washing. Saves scrubbing—and so saves the clothes, and the hands, too.

Get the BIG package of Rinso from your grocer. It's all you need—no bar soaps, chips or powders. Just feel how weighty the package is! You get your full money's worth when you buy this compact granulated soap. For best results, follow the easy directions on the box.

Mobile Citizens Promise Support To Girl Beauty

Beautiful Southern Girl Held In Media, Pa., Jail On Charge Of Arson

(International News Service)

MEDIA, Pa., May 24.—Mobile, Ala., citizens have come to the aid of Mrs. Vivian McDowell Page, "Miss Mobile of 1926", who is lodged in the local jail charged with arson.

Chief of Police James R. Doak received a telegram from Mobile in which the citizens of the southern metropolis intend to "support her to the very end" and "back her financially in her court fight".

Mrs. Page will be arraigned tomorrow on the arson charge growing out of a fire which destroyed the Norma apartment here. Mrs. Page had previously been evicted from the building for non-payment of rent, police said.

Rubber Institute Has Been Formed

(International News Service)

NEW YORK, May 24.—A group of leading rubber manufacturers formed a new organization known as "The Rubber Institute" to put the rubber industry on a stronger basis and have engaged General Lincoln C. Andrews former assistant secretary of the treasury, to head the institute as its director-general. This announcement was made by General Andrews at the Hotel Plaza Wednesday.

The institute will be similar in plan and purpose to the Cotton Textile Institute and to the organizations of the wool, sugar and alcohol industries.

TREASURY BALANCE HIGHEST ON RECORD IN PENNSYLVANIA

(International News Service)

HARRISBURG, May 24.—Pennsylvania's treasury balance at the beginning of business today totalled $74,023,461, the highest on record. Of that amount $35,038,718 was in the general fund from which all current bills are paid.

State Treasurer Samuel S. Lewis attributed the large balances in all funds to the prosperity of the country during the period on which taxes were levied.

"It is the first time in the last ten years that the executive branch of the state government has caught up with the legislative," Lewis said.

YOUNG PROFESSOR IS FOUND DEAD

(International News Service)

NEW YORK, May 24.—The body of David Halfant, young Columbia University professor, was found in his one-room apartment at No. 44A Morton street, a bullet through the head. On the floor lay a revolver of .44 calibre, apparently the death weapon. Near it was a pipe, half filled with ashes and tobacco, a few feet away was a hat, a hole through the back

To Protect Animals In Zoo From Jokers

Promise Jail Sentence To Those Playing Practical Jokes On Animals

(International News Service)

WILLIAMSPORT, Pa., May 24.—Persons who play practical jokes on the animals at the zoo here in the future may find themselves in jail.

Such was the order recently issued after a polar bear, the gift of the John Robinson Circus to the zoo, had almost choked to death on a bunch of grass. Attendants worked with the animal for more than an hour before the grass was dislodged from the bear's throat.

Zoo attendants said that such alleged practical jokes included such tricks as throwing lighted cigarets to the monkeys, and feeding spurious food to other animals.

FIND FATHER GUILTY OF KILLING DAUGHTER

(International News Service)

SUNBURY, Pa., May 24.—Joseph Parole, of Kulpmont, was found guilty of voluntary manslaughter in connection with the shooting to death of his nine-year-old daughter about two months ago. The jury was out about two hours.

Testimony at the trial brought out that Parole shot the little girl when she attempted to prevent him from taking his own life.

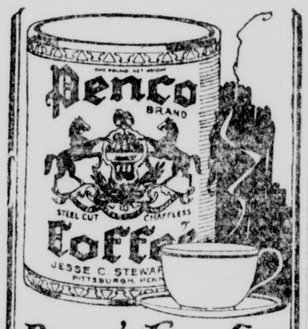

PRUGH IS NAMED PROHIBITION HEAD

(International News Service)

HARRISBURG, May 24.—B. E. P. Prugh, Harrisburg, was renamed chairman of the Prohibition Party at a meeting of the state committee here Wednesday. T. H. Hamilton, Harrisburg, was reelected treasurer and H. W. Mead, Williamsport, was elected secretary.

Less than a score attended the meeting. The sessions were closed to newspapermen.

New Flying Device Very Speedy Shown By German Racer

(International News Service)

BERLIN, May 24.—A fire-spitting "rocket automobile" with wings was successfully tried out on a nearby race course today by Fritz Von Opel of the Opel Automobile Works.

After the trial Von Opel and Prof. Schuecce, an airship builder, predicted a flight from Berlin to New York in five hours and a flight around the world in a day in the near future.

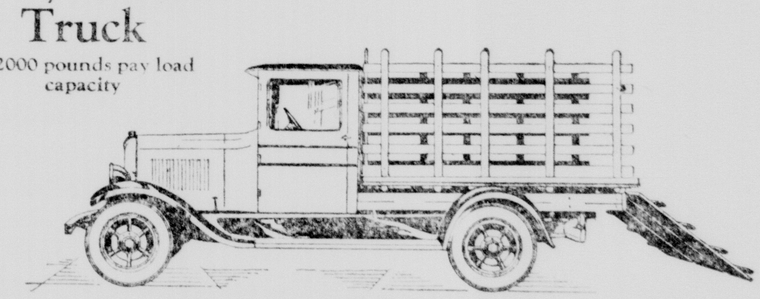

Conflicting reports after the experiment said the "rocket automobile" attained speeds ranging between 117 and 170 miles an hour.

DIRECTORS PICK GIRL'S CHIEF ALLURE

Screen tests reveal smooth skin most important

LOS ANGELES, CALIF.—Dark or fair, piquant or classic, whatever her style, there is one thing every girl must possess if she hopes to become a star. This all important requisite is smooth skin. "The close-up is the final test of a screen star's popularity—and surest proof of her beauty," declares James Cruze, Pathé DeMille director. For this reason directors consider smooth skin—"studio skin"—even more necessary for success than gorgeous eyes or a fascinating mouth.

Nine out of ten movie stars in Hollywood are using Lux Toilet Soap for their priceless skin. This new soap is made by the celebrated method perfected by the French for the manufacture of their world famous toilet soaps. Jacqueline Logan, Pathé DeMille star, says: "The satin smoothness of my skin after Lux Toilet Soap is delightful."

All the big film studios have selected it as the official soap for their dressing rooms—an interesting comment on the value which they place on smooth skin. Lux Toilet Soap is manufactured by Lever Bros. Co., Cambridge, Mass.

Facts About Optometry

By

ARTHUR B. FOSTER
OPTOMETRIST,
449 East Washington Street

The word Optometrist has replaced the better known word Optician. Strictly speaking, the words have different meanings.

An Optometrist is a person who has complied with the provisions of the optometrical law, and has been issued a certificate permitting him to practice. The work of the Optician is mechanical. He prepares lenses, adjusts frames, etc. An Optometrist usually qualifies in both the professional and mechanical branches. So the average practitioner is both an Optometrist and an Optician.

Team Workers Will Assemble

Meeting Tonight For Men And Women In Music Campaign

MORE MEMBERSHIPS BEING REPORTED

Further to develop plans for the membership campaign of New Castle's Civic Music Association, and to receive reports from the officers, directors, vice chairmen, team captains and workers, a mass meeting of all those who are interested in the civic music project will take place this evening at 7:30 in campaign headquarters at 114 North Mercer street. Every citizen of New Castle and the surrounding communities who is a lover of good music and interested in establishing a worthy civic project in a big way, is urged to attend the meeting.

Pass 225 Mark

Already the total memberships in the association are well past the 225 mark, states William S. Wright of the Civic Concert Service, Chicago, who is directing the campaign in New Castle. Memberships are continuing to pour into the headquarters through the workers and the citizens who stop there to enroll. One lady signed up for six memberships in the association and a man has taken out four. Mary Clark, captain, reported over 50 memberships from her team workers Wednesday evening.

Those who are directing the organization feel that New Castle must not or cannot afford to fail in putting this civic music plan over in a way that will leave no doubt in the minds of skeptics who say it cannot be done. In every city that the campaign has been started, say the officials, it has proven singularly successful, and immediately it became a member of the national organization of more than 130 cities throughout the United States.

These civic music association cities, declare officials, are delighted with the worthwhile artists and musical organizations that they have been able to secure under this co-operative, economical and successful civic music plan to bring good music to the people at a most nominal cost.

No Single Admissions

"Join the Civic Music Association today!" and "We must win, for music and for New Castle", will be the slogans of both workers and citizens during the remaining four days of the campaign. There are no single admissions sold before or at a concert in any civic music association city. Only a membership card will gain one admittance. The membership card is transferable, and will admit the owner to any civic music concert in any city without additional cost. East Liverpool, O., now in its fifth season with the Civic Concert Service, is the nearest city to New Castle at the present time.

William S. Wright, from National headquarters, has made many talks since Monday, which includes the Rotary, Lions, Kiwanis, Senior High school, North Street Junior High school, Ben Franklin Junior High school, Eastern Star order, a group of citizens from Slippery Rock at the Fountain Inn, the 1927 Bridge Club, E. O. T. Club, New Castle Hospital Guild, Iona kensington club, C. S. kensington club, the Berean Bible class and the North Hill kensington club.

Headquarters at 114 North Mercer street are open every day from nine in the morning until 5:30, and are in charge of Mrs. C. D. Minick.

PULASKI NEWS

Mrs. L. L. Rodgers, secretary of the Pulaski District Sabbath School association, attended the executive meeting held in the Methodist church in New Bedford on Tuesday evening. Plans were arranged to hold the district Sunday school convention the last of June in the Pulaski Presbyterian church, date to be announced later.

The Missionary society of the Presbyterian church met on Wednesday at the home of Mrs. Robert Garrett. An all day meeting was held and at noon a fine tureen dinner was enjoyed, after which a business meeting was held. In the absence of the president, Mrs. William Cover, Mrs. Charles Garrett presided. The delegates, Miss Helen Rodgers and Mrs. Charles Garrett, to the convention held in Sharon gave splendid reports. The day was spent in sewing for the society. The next meeting will be held at the home of Mrs. J. C. Barrett in June.

Memorial services will be held on Sunday morning at 11 o'clock in the Presbyterian church with the pastor, Dr. J. N. Strain, in charge and who will give the memorial address. Special music under the direction of Mrs. J. F. Myers will be a feature of the service. All lodges are requested to meet and attend in a body, also all Spanish-American, World war soldiers and Sons fo Veterans.

Mrs. Alice Davidson has received announcement of the birth of a son to Mr. and Mrs. Ralph Davidson of Memphis, Tenn., who has been named Ralph, Jr.

Mr. and Mrs. Lawrence Mitcheltree attended a party at the home of Mr. and Mrs. A. J. Mehler of Lowellville on Tuesday evening. The affair was in honor of Mr. Mehler's birthday anniversary.

Miss Gertrude Fair of Warren, O., is the guest of her sister, Mrs. Etta Urey.

Mrs. Lloyd E. Rodgers, mother of Mrs. Frederick Shepherd, who underwent an operation in a Columbus hospital last week, is improving.

Mrs. Chas. Mitcheltree and daughter, Mrs. Fred Shields, spent the day recently as guests of the former's sister, Mrs. Daniel Garrett of West Middlesex.

Mrs. Charles Wallace, Mrs. A. W. Graham and Mrs. Ossie Headings were guests of Sharon friends recently.

Mrs. Samuel Tomer, Miss Jane George and Dean Tomer were recent guests of Grove City friends.

Driver Of Auto Killed In Crash Near Koppel, Pa.

(Special To The News)

BEAVER FALLS Pa., May 24.—Elijah Grant, aged 35, negro, a resident of Beaver Falls was killed last night when the automibile which he was driving and that of Mrs. Edward Monegal of Youngstown, O., side swiped as they passed each other near Hornes Service station on the New Castle road in Big Beaver township, Beaver county.

Grant was driving the car of his cousin Theodore Grant toward Beaver Falls at the time of the accident. The Monegal car was being driven to New Castle at the time. In the latter car was Lillian Monegal, a daughter of the owner and driver and Jacquis Van Ipe of Youngstown. Theodore Grant was riding with Elijah Grant.

After the two cars sideswiped the Grant car went about 75 feet, then upset, pinning Elijah Grant under it. His chest was crushed and death was almost instantaneous. Theodore Grant sustained slight injuries of one shoulder.

None of the occupants of the Monegal car were injured but their machine was somewhat damaged.

Glen Stanley Given Award At Bessemer

District Commander Pat J. Dempsey Makes Presentation This Morning

District Commander Pat. Dempsey who has charge of the Medal Award program for the local American Legion Post was the speaker at chapel exercises held at Bessemer High school auditorium this morning.

He explained the object of the award in the schools as being part of the Americanization program of the American Legion and designed to encourage better citizenship. He stated that while this is a national activity of the American Legion, to date is has largely been confirmed to the city and town schools where the posts are located. Perry S. Gaston post however, has been interested in the county schools as well, feeling that they are entitled to recognition equalling that accorded city schools.

Glen Stanley, son of Robert Stanley, steam shovel engineer with the Bessemer Limestone company was the boy selected to receive the award, presentation of which was made by Commander Dempsey. Burgess Eales was the other member of the committee. James Kannengeiser and Eugene Valentine were also considered, they having also been nominated for the honor.

At the request of Burgess Eales, Mr. Dempsey gave a short talk on Newfoundland which was interesting to the pupils on account of the publicity given that part of the world recently due to the landing of the Bremen fliers there.

Lindbergh Has Hopes Of United States As Air Transport Leader

United States At Present Far Behind In Development Of Passenger Planes

New Company Headed By Famous Flying Colonel Is First Move For Supremacy

By JAMES L. KILGALLEN
International News Service Staff Correspondent

NEW YORK, May 24.—"I would like to see the United States take the lead in all branches of aviation—including passenger carrying."

Colonel Charles A. Lindbergh talking. The famous young flyer who has accepted the position of chairman of the technical committee of the newly organized Trans-Continental Air Transport, Inc., this $5,000,000 corporation will within a few months begin operating a railroad-and-airplane passenger service from New York to California.

"The possibilities for development of passenger carrying by air are great in this country," said Lindbergh. "I'm going to assist the new organization in every way possible.

Big Possibilities.

Not only Lindbergh, but other prominent leaders in aviation, see tremendous possibilities in the rail-plane method of travel, viewing it as a big, practical step toward inducing the general public to use airplanes. Significance is attached, too, to the fact that two big railroads—the Pennsylvania and the Atchison, Topeka & Santa Fe—and two well-known airplane companies are behind the project.

Investigation today revealed that while it is probably true that the United States leads the world in commercial aviation, this country in the one department of passenger carrying is far behind Europe. There are a number of reasons for this, according to "The Index," a publication issued by the New York Trust company.

Aviation is not subsidized in this country as in Europe; the American railroad service between important points, such as Chicago and New York, is so efficient that the airplane could not save any large amount of time except by night-flying, for which it is not yet completely adapted; and on the American continent a transcontinental train is not halted by the exigencies of traffic barriers and customs duties.

In Europe, however, transportation by airplane is now a regular system of travel, operating according to time tables and in all kinds of weather. Fares have been reduced to a point where they are now about equal to that of a first class railroad. The standard of safety is high.

Germany Leads.

Germany appears to be carrying on the biggest air transportation business abroad. Figures obtained from the Daniel Guggenheim fund for the promotion of aeronautics show the following comparative air traffic volume in Europe for 1926:

	Passengers carried	Freight carried
Germany	56,268	1,034 tons
Great Britain	20,367	679 tons
France	18,800	377 tons
Holland	6,276	158 tons
Italy		46 tons

Each of these countries showed a very considerable increase in 1927, although final figures are not available. In Italy the number of passengers nearly tripled and in Holland the number of passengers doubled.

Lindbergh's new company, its backers believe, will start the United States off on the right track toward the development of the passenger carrying business. The method of travel in America may be revolutionized, some say.

Best Mail Service.

The United States as yet does very little passenger carrying by airplane, but no country in Europe has achieved as efficient and as extensive a system of mail transportation as exists in this country. The use of the airplane for mail and freight carrying has advanced to such an extent that there are more commercial and civil airplanes in this country than any other.

Figures published by "The Index" show that the total number of commercial and civil airplanes in Germany, France, England and Italy is 1,877 for the four countries combined. In the United States the total number of commercial and civil airplanes is 3,230. There are 78 airplane factories in the four countries mentioned. In the United States there are 103.

Winged Automobile May Be Means For Reaching Planets

New Opel Motor Car In Germany Attains Speed Of 117 Miles An Hour Minus Gas

(International News Service)

BERLIN, May 24.—Communication with other planets may be possible after experiments, now under way by the Opel Motor works, are completed.

Fritz Von Opel, head of the concern, who attained a speed of 117 miles an hour yesterday in a winged automobile driven by a rocket motor, was authority for this statement today. He said that experiments are not only being made with the motor but also to ascertain how men could breathe and live in the rarified atmosphere of the cosmic spaces.

Cylindrical columns of red hot flames shot from the rear of the torpedo car as the 27 rocket tubes in the motor exploded. Each tube exploded in turn releasing gas which propelled the machine forward. A thick white cloud of smoke enveloped the track as the car shot forward on its journey. It was never out of control.

There are no brakes upon the car. The rockets are contained in 27 cylinders in the rear, arranged like the holes of a honey-comb. As each rocket explodes and the gas is released the repercussion drives the machine forward just as a shot causes a gun to "kick" backward.

It is believed that a plane equipped with thousands of rockets might be able to travel from planet to planet with the swiftness of the sun.

Smith Headquarters Sent $5000 To This State For Election

(International News Service)

HARRISBURG May 24.—The Democratic state committee today filed its expense account with the state bureau of elections, showing expenditures slightly in excess of $12,000 during the campaign.

Contributions listed totaled $11,625 while approximately $600 in bills is outstanding. The contributions included $5,000 from the New York headquarters of Governor Alfred Smith; Sedgwick Kistler, Lock Haven, the new national committeeman, $1,000; John H. Biglow, Hazleton, $500; Judge Samuel E. Shull, Stroudsburg, $500 and Joseph F. Guffey Pittsburgh $500.

The largest expenditure, $4,134.73, went to E. B. Zimerman, Philadelphia for his work as secretary and for traveling expenses. John J. O'Donnell received $2,000 for the Philadelphia city committee and David Lawrence Pittsburgh, $400.

Asks Permission To Plead Guilty Of Slaying Wife

New Jersey Man Changed Mind And Enters Plea Of Guilty To Killing Of Wife

(International News Service)

NUTLEY, N. J., May 24.—Julius Kossman, 50 year old milkman, today asked permission to plead guilty before Recorder William A. Smith to a charge of murdering his wife, Anna, despite the fact that he repudiated one alleged confession last night.

In the office of Police Chief Brown last night Kossman told his son, Walter, a medical student at New York University, that he did not commit the murder and that the written confession, bearing his signature, was obtained under Duress. When arraigned before Recorder Smith today he said he wished to plead guilty. He was held without bail to await action by the grand jury.

Coke Production Displays Slump

(International News Service)

CONNELLSVILLE Pa., May 24.—The downward trend in coke production continues, particularly at furnace plants, the weekly survey by International News Service showed today. The output in this region was 53,780 tons, a reduction of 4,300 tons from the previous week.

The slump in the coke industry began during the first week of April and has decreased from 72,500 tons, the record of that week.

The H. C. Frick Coke company was almost wholly responsible for the past week's reduction. Six hundred and seventy ovens were blown out and of these 500 were at Frick plants.

The market remains practically unchanged. Spot furnace coke is quoted at $2.60 to $2.75; spot foundry at $3.75 to $4.25 the range of several months.

School Attendance Establishes Record

HARRISBURG, May 24.—Pennsylvania, this year, has had the highest record in school attendance in the history of the state, according to a report just compiled by the Department of Public Instruction.

The percentage of attendance for the current school year ranges from 95 in September to 93 for last month. The average attendance for the year, including May figures, 93 per cent, registered a high water mark.

Mellon Opposes Publicity Plan On Tax Returns

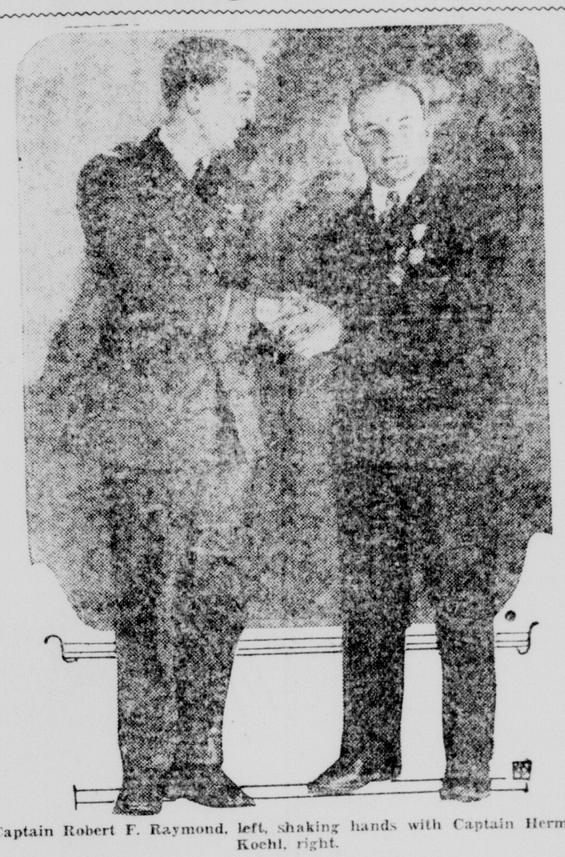

(International News Service)

WASHINGTON, May 24.—Secretary of Treasury Mellon reiterated his opposition today to the senate provision of the tax bill which requires publicity of income tax returns.

It would be expensive and would constitute an unwarranted invasion of private financial affairs, he said.

A move is on foot to eliminate the provision in conference.

Koehl Meets Enemy Of Ten Years Ago And They're Friends!

Captain Robert F. Raymond, left, shaking hands with Captain Hermann Koehl, right.

By JOSEPH S. WARD, JR.
Staff Writer for Central Press and New Castle News.

BOSTON, May 24.—It has remained for Boston to furnish one of the most dramatic incidents in the entire triumphal tour of the crew of the trans-Atlantic airplane Bremen—the meeting of two men whose first acquaintance was made over the sights of machine guns, above the trenches in France.

Captain Hermann Koehl, co-pilot of the Bremen, again has greeted Captain Robert F. Raymond of the air service, Officers' Reserve corps, United States army, but how differently than before!

Almost exactly ten years ago the men met in a bitter air battle, which resulted in defeat and imprisonment for both. But at their Boston meeting they grinned, shook hands, and Captain Raymond pinned an American Legion medal on his late adversary.

How It All Occurred.

In the fighting around Chateau Thierry and the Toul sector, Captain Raymond was a member of an American pursuit group, while Captain Koehl was on the other side of the lines, attached to a bombing squadron. The flying circus to which Koehl was attached regularly, flew over the American lines, dropping death-dealing bombs.

Captain Raymond's outfit was instructed to destroy the German bombers. Accordingly, the American flyers lay in wait till the bombing convoy was seen heading for the American lines. Then the United States flyers took off with a rush. In a few minutes the battle was on.

The ground troops forgot their troubles watching the bitter struggle overhead, which resolved itself into a regular "dog fight". Raymond and Koehl were in the thick of it, and both met disaster. Koehl crashed down behind the American lines, and Raymond went down out of control behind the German lines.

Similar Experiences.

The flyers were picked out of their machines, and after being patched up, were sent to prison camps. Neither remained imprisoned long. Each escaped and made his way to Switzerland, and not long after that they were back in the thick of the fighting.

The two men had a long chat after their first meeting, reminiscing about the war and the changes brought by peace. Koehl observed that Raymond wore the Distinguished Service Cross, and congratulated him.

"Well," said Captain Koehl, when they were about to separate, "I don't know whether I'm a better aviator than you are, but I do know one thing. I'm a better escaper. I stayed in prison six days, and you stayed seven, so I have you by one day."

And Raymond had to admit defeat at last, after ten long years.

Seven Millions Aid For State

Pennsylvania To Be Allotted $7,000,000 Road Aid In 1930-31

FEDERAL PROGRAM WILL BE CONTINUED

By GEORGE H. MANNING
(Washington Correspondent of the News.)

WASHINGTON, D. C., May 24.—Approximately $7,000,000 will be allotted to Pennsylvania by the United States government for extending federal aid highway construction during 1930 and 1931 under a bill just passed by congress authorizing an appropriation of $150,000,000 for continuing the federal aid highway program.

The system of federal-state cooperative highway construction was originated in 1917 and has been extended from time to time by various acts of congress until more than $733,000,000 has been disbursed by the federal government to the states for road-building under the plan. The present law expires on June 30, 1929, and the bill just passed by congress would continue the program for two more years.

The department of agriculture is charged with administration of road funds and the secretary has just apportioned $3,333,786 to be taken up by the state of Pennsylvania during the fiscal year ending June 30, 1929.

Federal participation with states cannot exceed 50 per cent of the total cost of the road built and the cost is limited to $15,000 per mile. Distribution is made on the basis of one-third according to the ratio which the area of the state bears to the total of all states; one-third of the ratio which the population of the state bears to the total population of all states, and one-third of the ratio which the mileage of the rural delivery and star routes bear to the total rural route delivery and star routes in all states.

Within the last 11 months 153.1 miles of federal aid highway were built in Pennsylvania at a total cost of $7,360,151.05, of which sum the federal government contributed $2,253,430.31. There are 276.2 miles of highway under construction in the state which will cost $14,791,021.97 to complete. The federal government's share of this cost is $4,526,930.97.

The bureau of public roads has recently approved for construction 133.5 miles of highway in Pennsylvania which will cost $7,036,164.38. The secretary of agriculture has already allotted $2,096,799.98 toward this work and the balance will be appropriated by the state.

On March 31, 1928, there remained to the credit of Pennsylvania a sum of $2,813,520.42 which is available for new road-building projects. This balance will remain to the state's credit until it is utilized for highway construction by the state or reallocated in accordance with the provision of the law.

Under the terms of the bill just passed by congress only one-half, or $75,000,000 may be expended during one year. Based upon previous apportionments, therefore, Pennsylvania will be allotted about $3,500,000 each year, or $7,000,000 for the two years.

Able Speakers For County Convention

Rev. F. B. McAllister Is Reported As In Best Trim Of His Entire Career

At the 90th convention of the Lawrence County Sabbath School Association which is to be held at the Scottish Rite Cathedral Thursday, June 7, there will be two rallies, a rally of the women's adult classes in the afternoon and a rally of the men's adult classes in the evening. The women's adult classes are asked to sit together at the afternoon session and the class having the best percentage of attendance present, based on enrollment, will receive the award of a Christian flag to display in the class room. The same award will be made for the men—the men's class having the largest percentage of attendance at the evening session will also receive a Christian flag. If possible the adult classes are urged to meet in a body at their own church and come to the Cathedral and sit together.

Rev. F. B. McAllister will address both the afternoon and evening sessions, and those who have heard him recently say that he is in finer physical shape and that his messages are more forceful and inspiring than when he held pastorates in this city. He has a large number of friends in this city, and when he was requested to come on for the convention he stated that he certainly could not refuse the good people of New Castle anything after the way they had stuck by him.

At the afternoon session Dr. M. Hadwim Fischer, head of the religious education and English Bible department of Gettysburg Seminary, has a very interesting address on the subject, "Today's Need", which is a humorous study of the boy that will especially appeal to mothers. In the afternoon E. H. Bonsall Jr., state young people's superintendent, will give a timely address on "The Challenge of Youth".

At the morning session the convention sermon will be delivered by Rev. S. E. Irvine, pastor of the First United Presbyterian church of this city. The theme of the convention will be "The Way, the Truth and the Life", and a specially written song with the same words for a title, will be used throughout the convention by the chorus choir and the assembled convention, under the leadership of John W. Owens. The songs to be used at the convention will be printed in the program that will be given out upon registration.

Sabbath school superintendents are requested to send Mrs. William J. Marshall, county secretary, phone 3660M, the money for the reservations to the Christian fellowship banquet so that tickets can be forwarded to the superintendent for distribution, and also that the ladies preparing the banquet will know just how many to make preparation for.

Steals Sheep-Skin Coat For Summer

(International News Service)

CHAMBERSBURG, Pa., May 24.—A "hard" summer is in prospect for at least one person if one can judge from a case that came up here recently in court.

With spring well advanced with continued warm weather, Bruce Beaver, Jr., reported that his arctics and sheep-skin-lined coat were missing and charged Bish Dulabohn with stealing them. Dulabohn denied the charge, and asked why anyone would want to steal those articles during such warm weather. He was placed in jail for a hearing.

Outselling All "Sixes"

World's greatest value
by the verdict of the world . . . .

The most important thing ever said of Essex is said by buyers in the largest 6-cylinder sales, and the most overwhelming competitive preference of automobile history.

The only prestige back of this enormous success is the public knowledge that Essex has always stood for value—and this time such pre-eminent value that there is no second.

In many territories Essex sales exceed those of any other "Six" by more than 2 to 1. And, with slight variations, this preference is the nation's and the world's.

How To Achieve Beauty

By MME. HELEN F. RUBINSTEIN
Noted Beauty Expert

For Your Beauty's Sake—Smile!

The greatest determining factor of mouth beauty is your smile. A very wise and very kind man once said, "that when the first baby smiled for the first time—it broke into a million pieces—and that was the beginning of fairies."

I can think of nothing more charming and nothing more logical; for the sweetness, the gentleness, the sheer beauty of a smile could not help but be the basis of all lovely things.

To be very scientific about the importance of those mouth muscles of yours let me tell you that science claims, with solid proofs to substantiate the statement, that the expression of your eyes is actually determined by your mouth.

The eyes themselves, so they say, are not more than reflectors—"the expression," as we call it, being caused by the muscles of eyelids and eye area, which in turn depend upon the mouth muscles for their cue. In fact, so important are these unheeded mouth muscles of yours, that they set in motion muscles as far removed as the skull above, and the collar bone below!

We, judging only from exteriors, know that the mouth is the key to all facial expression.

We know from our study of beauty lore that the good looking woman guards her mouth against the ageing droop which disfigures not her mouth alone, but her whole face, as well. We know from countless authorities and from wide observation that there is no face lifter so potent as a smile, and still we don't smile—not half enough!

Do you remember the song that carried many a long grim line of lonely, weary, heartsick soldiers, triumphantly to victory? It invigorated them, restored their hope and bolstered their courage. Do you remember? "Pack up your troubles in your old kit bag, and Smile! Smile! Smile!" They could do it—why can't you?

To be truly lovely, the spirit within must be beautiful, too, but even apart from that, let me tell you about the exterior effect smiles have on your face. A smile tones tired muscles. It catches them when they are drooping downward, and turns them about again, neutralizing bad effects, encouraging and cultivating good ones. It stimulates those same muscles, forces them into action and through this alone, preserves the beauty and youth of healthy, animated tissues.

Of course, if your muscles have lost their vitality, if the tissues are undernourished, wrinkled, permanently drooping, you need scientific corrective treatment. You need massage movements to lightly coax the muscles upward again and you need a rich, nourishing anti-wrinkle cream to be patted in gently, night and morning, and left on overnight if the condition is advanced. And more than ever, for your beauty's sake, you need to smile!

Whether you feel like it or not! If you are tired, your face shows it. Pull those sagging muscles "Right About Face," with a smile!

A desire to get something for nothing doesn't prove you a sucker. You may be a politician.

Civilized state: One in which many inert, indifferent people profit by the intelligence of a few.

Hornsby Named New Manager Of Boston Braves

Jack Slattery Resigns And Hornsby Is Elevated To Managerial Role

WILL START TO STRENGTHEN CLUB

International News Service.

BOSTON, May 24.—Rogers Hornsby was at the helm of the Boston Braves today.

The naming of the Rajah to succeed Jack Slattery, who suddenly resigned, had the whole baseball world by the ears.

At the same time it was pretty definite that "Slats" will continue with the tribe as chief of scouts.

Trades and transfers were expected to follow in the wake of the appointment of Hornsby as player-manager.

Under the guiding hand of one of baseball's most dynamic and aggressive personalities, the local tribe was understood to be ready for a general shaking up.

Arthur Devlin, former third base star, has been Slattery's assistant. Hornsby, it was assumed, would name his own assistant. That would be transfer No. 1.

Slattery's salary or contract will not be disturbed, neither will Hornsby's $40,000 a year salary be increased.

Judge Emil E. Fuchs, in making the announcement, said the appointment of the new manager was for the best interests in making "a fighting and winning team."

Emphasis was made in all announcements today that Hornsby took over the managerial job with reluctance. The Rajah himself declared there had been too much talk in the past about his "undermining" various baseball men and that he much prefer to be traded or sold to another National league club than to be placed in the manager's saddle.

Personalities IN SPORT

GEORGE GRANTHAM

George Farley Grantham, Pittsburgh Pirate first baseman, was born at Galena, Kas., May 20, 1900. He broke into baseball with Tacoma in 1920 and played there, alternating between the infield and outfield until the middle of the 1921 season, when he went to Portland to play short. He saw service at third base with Omaha, of the Western League, in 1922 until late in the season he was picked up by the Chicago Cubs. He has been with the Pirates since 1925, being traded by the Cubs in November, 1924, with Aldridge and Niehaus, for Maranville, Grimm and Cooper.

Grantham bats left-handed and throws from the right side. He stands five feet 10 inches high and weighs about 155 pounds.

EARLY DELIVERY OF ROLLER ANTICIPATED

Councilmen anticipate that the roller, purchased by the city from the Galion Iron Works and Manufacturing company, Galion, O., will be delivered in the near future. Officials of the company which won the $2,875 award informed councilmen, it is reported that the city could expect early delivery.

NEWELL TO HEAD PARK POLICE FORCE

Thomas Newell has been reappointed chief of police at Cascade Park by Manager Carl Shaner and the uniformed force consists of John Rentz, J. F. Schaefer and Constable Calderwood of Shenango township. Practically all of the concession proprietors at the park are sheriff's deputies.

USE 1,500 CUPS EACH WARM DAY AT CASCADE

"On a hot day 1,500 cups are used" said Police Chief Tom Newell of Cascade Park in speaking of the volume of drinking cups used during a day of recreation. The cups are placed at the various springs about the huge acreage.

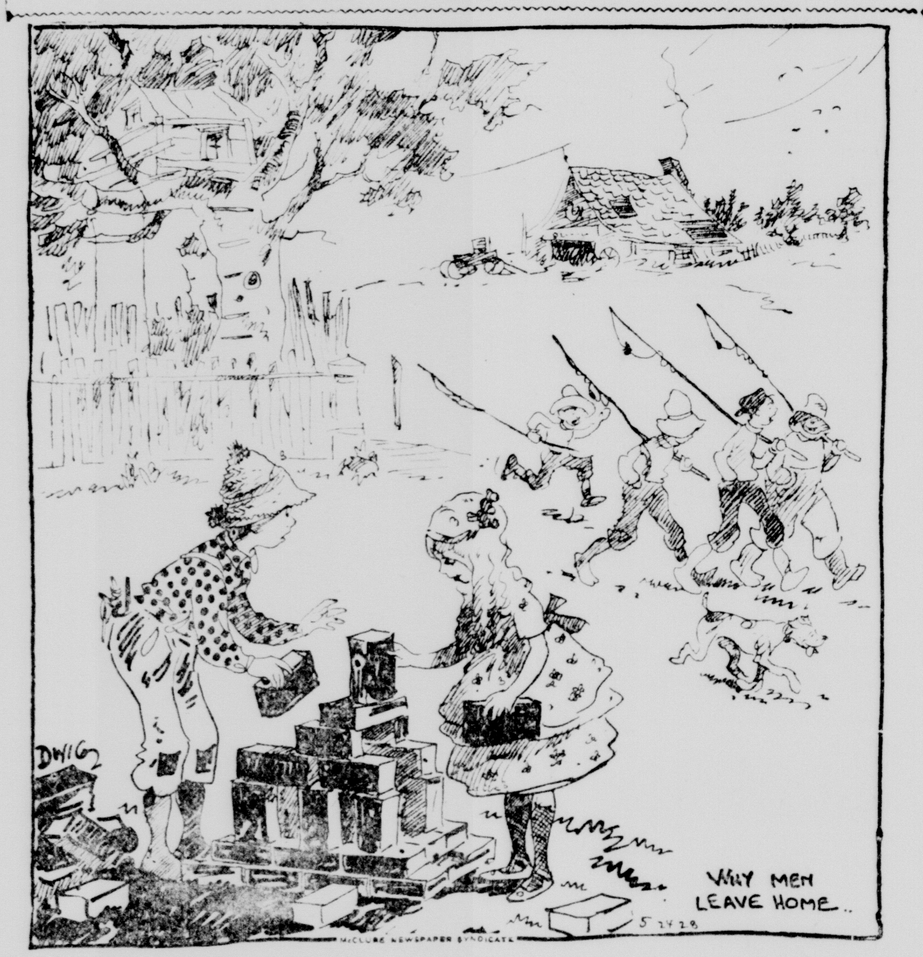

SETS ENDURANCE SWIM RECORD

Mrs. Myrtle Huddleston, of Mattoon, Ill., mother of a 12-year-old boy, has broken the world's endurance swimming record by finishing 50 hours 10 minutes and 15 seconds of continuous swimming in a Chicago pool. Her record beats the previous mark, held by Otto Kemerich, of Germany, by 40 hours and 10 minutes. Photo shows Mrs. Huddleston being fed during the forty-eighth hour of her swim.

SORDS POINTS—By Jack Sords

Poland's Contribution To American Baseball

Baseball may mean little or nothing at all to the people of Poland, but a glance at some of the names that have found their way into our big league box scores shows that that country has contributed not a little to the great American game.

Connie Mack seems to have a monopoly on the Poles. He is raising his pennant hopes on them. Jack Quinn (John Quinn Picus), Joe Boley (John Bolinski) and Al Simmons (Al Simonski) are the boys. Quinn, one of the oldest players in the game, is still capable of pitching shutout ball. Boley has been starring at short since his purchase from Baltimore in 1926, while Outfielder Simmons has always been among the league's leading hitters since he joined the A's in 1924.

Poland is represented on the Yankees by the veteran pitcher, Stanley Coveleski, and Catcher John Grabowski.

Pete Jablonowski, right-handed pitcher of the Cincinnati Reds, came up from Hartford last season. Adam Comoroskey is still in the Pirate outfield. Ed. Strelecki was a promising right-handed pitcher with the Dodgers last spring, and William Urbanski and John Mokan are more proof that players of Polish descent have had quite a time of it in American baseball.

SPORTS DONE BROWN

By NORMAN E. BROWN
Staff Writer for Central Press and New Castle News

Baseball is about to witness the second phase of the recently organized movement toward the chain store idea in the affiliation of interests of major and minor league clubs.

Because the success or failure of the plan this season will have much effect on the future activities of the various moguls along this line, the steps in the working out of the plan will bear watching.

The first phase of the clubs-in-every-city movement was the disposition by the major league clubs so interested of the excess and green material carted to the training camps. The distribution of this material among the minor league "farms" rightfully caused considerable elation in the towns so benefited. The local scribes rightfully became enthused over their teams' chances. The interest of the local fans was aroused proportionately.

Many of these teams so bolstered started off at a good clip and have continued to profit, from a percentage and gate receipt standpoint, as a result of the affiliation.

Now, however, we reach the stage where some of the major league clubs are already face to face with the necessity of strengthening their teams pronto if they care to make the race in their leagues interesting and continue to draw more than a handful of fans. The other big time teams that have at least a chance to land in the money are going to strengthen wherever possible. Quite naturally they are going to draw on the available material they already own and control.

Just how enthusiastic are local minor league fans going to be over sudden "calls" that lift the stars of their teams out from under their noses just as the home team is swinging along at a winning pace, with a fair chance to win the pennant in its league?

Such raids of minor league clubs have been made before, but they have been voluntary acts on the part of the local manangement, and often were justified in the eyes of the fans by the price offered.

Under the chain store system it quite naturally will be the big chiefs' desire to win an American or National League title and a world's championship against the obligation they may feel toward the fans of the smaller cities.

Here is another angle:

Two or three of the weakest clubs in the majors at the writing happen to be clubs without wholesale minor league affiliations. The draft will be the only crowbar they can use to pry loose a likely looking ball player or a ready-made one from any of the minor clubs now associated directly with major league outfits. Which, on the face of it, would not point toward improving conditions in the majors—at least until these clubs have jumped into the chain store idea on an equal basis.

Here are some of the high spots of the major league baseball season to date, judging by the general comment of the fans here, there and everywhere.

The showing of the Cleveland Indians in the American League.

The coincident reversal of form of George Uhle, after a terrible season last year.

The scrappy form shown by the St. Louis Browns, a completely rebuilt and reorganized team over the winter.

The manner in which Ralph Kress, young Tulsa shortstop, has lived up to the pace expected of him, especially in hitting, as a member of the Browns.

The fielding of the Boston Red Sox, which may presage better things for Carrigan's team at last.

The work of Chalmer Cissell, high-priced coast star, with the Chicago White Sox. While his playing and batting have been spasmodic, he has given every indication of being of big league caliber.

The apparent collapse of the White Sox after a spring spent amid glowing promises. A collapse aided and abetted by the failure of Ted Lyons and Al Thomas to hit a consistent pace in the box and the failure of Johnny Mostil to return to his old form.

The showing of Tris Speaker with the Philadelphia club.

And in the National:

The mysterious disposition of Catcher Bob O'Farrell by the St. Louis Cardinals for a veteran outfielder less than two years after O'Farrell had been universally acclaimed one of the greatest catchers in the game.

The failure of Billy Kelley, home run king of the International League for years, to make the grade as a hitter or first baseman with the lowly Phils.

Del Bissonette's hitting and all-around playing with the Brooklyn Dodgers.

The failure of the Boston Braves to shake up the league as a result of the acquisition of Hornsby, the change in managers and the addition of at least one other good player—Lester Bell.

The showing of the Cinci Reds after a start that suggested another season of blasted hopes, due to failure of the pitchers to click.

The showing of the Giants under McGraw's masterful leadership and the startling playing of Andy Cohen, young second baseman, in Hornsby's shoes.

The failure of the Pittsburgh Pirates to hit a dizzy pace and hold the league lead, which they boasted last fall.

Kiki Cuyler's failure to set the world on fire as a member of the Cubs.

The showing of the Cubs despite Kiki's disappointing showing.

If confidence means anything, Miss Lillian Copeland of Pasadena, Cal., has already won the international title in the Olympic games track and field contests this summer. She already holds world's records in the shot-put, discus throw and the javelin throw, and it is said she can easily break her own records in these events.

She tossed the javelin 125 feet, 8 1-2 inches; hurled the two-and-one-half-pound discuss 115 feet, 8 1-2 inches, and the shot-put 40 feet, 4 1-2 inches.

Lillian runs the first lap of the four-woman relay team of Pasadena, which team holds the world's record, but plans on forsaking that event to concentrate her efforts on the field.

The last two persons who contracted measles are Ray Scarazzo, 3, 417 Bart- [illegible] Frank Clark, 6, 628 South Ray street.

Pirate Slump Worries Fans

National League Champs Of 1927 Fail To Display Form; Pitching Is Ineffective

NEW YORK, May 24.—Pittsburgh fans are beginning to wonder when, if ever, the champion Pirates are going to get started. The Smoky City crew was not hopelessly handicapped when left at the post in other years because the National league schedule is a somewhat longer grind than a horse race, but the merry month of May is nearly over and the Bucs are still in a coma.

The champs are hitting well but they are getting terrible pitching and are losing instead of winning in late innings. Yesterday the Reds nosed them out in the tenth, 4 to 3, Luque outpitching Hill. Cincinnati won four out of five in the series and now leads the Cubs, who were idle yesterday, by a full game.

The Giants have won five out of six from Brooklyn this season. Buzz McWeeny stopped the New Yorkers, 4 to 3, in the first game of yesterday's double bill. But Benton held the Dodgers to four hits in the nightcap and won by a 4 to 0 count when Brooklyn's seven-man infield blew up. Master Melvin Ott got his fifth homer.

Todt Hits Homer.

"Death Valley" Todt, first sacker of the Boston Red Sox, clouted three home runs in the New York series. His mates couldn't help him in the final game, however, and the Sox suffered a 2 to 1 defeat at the hands of Henry Johnson, Yankee benchwarmer.

The athletics also uncovered a promising rookie in Bill Shores of Waco, Texas. Shores beat Washington 4 to 2 with the aid of five hits by Ty Cobb and Tris Speaker. Cobb now has hit 3,001 singles during his big league career.

The White Sox nosed out Cleveland in the tenth, 4 to 3, after the Indians had pulled the first triple play of the season on them in the ninth. With the bases full Clancy flied to Jamieson, who threw Kamm out at the plate. Schalk then was caught off second.

The Browns ended their losing streak of nine games by trouncing Detroit, 8 to 3. The Tigers dropped below Chicago into seventh place.

Other teams were idle.

Two Women Held As Witnesses To Murder Released

BEAVER FALLS, Pa., May 24—After being held in the Beaver county jail since Wednesday, May 2, as a material witness to the slaying of her husband, Albert Temple, Aliquippa, who was shot and killed early Sunday morning, April 29, at a houseboat along the Ohio river between Aliquippa and South Heights, Mrs. Ella Temple was released from custody under $1,000 bail. Solomon Rubkin, Pittsburgh poolroom proprietor, who was arrested in connection with the shooting the same evening that Mrs. Temple was taken into custody, was released a few days later under $1,000 bail.

Mrs. Edrie Batzel, sister of Temple, who is also alleged to have been a witness to the shooting, and Keith Ely, also of Aliquippa, who, with Mrs. Temple, was arrested in Ellwood City after Ely and the Batzel woman are alleged to have stayed overnight as man and wife at an Ellwood hotel, plead guilty Saturday in the Lawrence county court at New Castle to a charge of adultery. They were each fined $50 and sentenced to six months in the Lawrence county jail. The costs of the prosecution were also placed upon them.

Corporal Marcus White and Private Philip Richards of the state police, through whose efforts the two women and Rubkin were arrested, have been working constantly since the shooting in an attempt to solve the murder, and, according to White, have learned the names of the two Pittsburgh gunmen, one of whom is alleged to have killed Temple.

Last Meeting Of School Year To Take Place At Oak Street School

The last meeting of the year for Oak Street Parent-Teachers association, to which fathers of school children are especially invited, will take place Friday evening, May 25, at eight o'clock in the Oak street school, states Miss Iretta Dart, principal.

A program will be presented, after which refreshments will be served in the play room. A candy booth will go towards the school library.

As a special feature, part of the High School orchestra will play. Solos will be sung by Miss Helen Allen and William D. Williams, Jr. A reading will be given by Mrs. Gussie Owens Gordon.

President of the association Mrs. Oscar Alexander will preside at the meeting. The chairman of the refreshment committee is Mrs. James Bradford.

Rodeheaver Here Monday Night

Famous Song Leader To Present Program At First M. E. Church

HOMER RODEHEAVER

Homer Rodeheaver, one of the outstanding musical men of the world, and perhaps the best known, who has been the song leader for the Billy Sunday evangelistic campaigns for years, and a publisher of gospel music, and who also conducts a school of music during the summer at Winona Lake, Ind., and who will be remembered by many in New Castle when the Billy Sunday campaign meetings were held in the city.

Mr. Rodeheaver is a fine gospel singer, as well as an expert with the trombone. He will give a sacred song recital next Monday evening, May 28, beginning at 7:45, in the First Methodist Episcopal church.

Mr. Rodeheaver is coming for the City Mission. It will be a great night of music, to which everyone is invited. The First Methodist church has very kindly given the City Mission the use of the church for this evening, in order that as many people as possible may be accommodated.

Pleasing Play At Lincoln-Garfield

Hundreds Of Children Give Fine Presentation Of Drills And Dances

Most pleasing was the annual spring production given by the scholars of the Lincoln-Garfield school on Wednesday afternoon, when the Queen of the School year called her ten months together for the fun and frolic.

Not only was the production carried out with precision and beauty but the costuming was especially appropriate, the children being decked out in various colors which were well adapted to the parts they took.

The fitting climax to the day was the wedding scene in which the bride and groom marched through an arch of swords before which marched Bernard Rudzis as ring bearer followed by the flower girls.

The production was given under the direction of Miss Edith Lockhart and Miss Cynthia Blaine. Misses Ida Plant, Annabelle Randal and Mary Laughlin were in charge of the physical education work. And Miss Margaret Sankey directed a trained chorus of 60 voices.

One of the most interesting acts was that of the Ghosts by Joe Gergas, Jack McFarland, Thomas Arthurs, Lawrence Morelli and John Noga. They were dressed in wierd black suits with long scare-crow arms and blackened faces, the black of the suits and faces being streaked with ghostly white stripes. As they slowly brought their arms aloft and then dropped them by their sides and slowly dangled them back and forth it gave one the creeps.

Two little tots from the kindergarten gave a gayety act, being dressed in varied colored quilt like suits. They were Marian Hartland and Juanita Lewis.

Grove City High Alumni To Dine

Annual Banquet To Take Place On Evening Of June 1

GROVE CITY, Pa., May 24.—Following the fine work of the committees in charge of the Grove City High school alumni banquets of the past three years, the committee arranging for the 1928 banquet is not omitting anything needed to make the evening of June 1 the high spot of local high school activities.

From the beginning of the banquet dinner at 6:30, in the Penn-Grove Hotel, until the close of the dance at 12, the evening will be one of continual activity and entertainment. The banquet dinner, the program following, the entertainment in the solarium of the hotel, and dancing, are some of the events planned for the banquet guests.

As has been announced before, the address of the evening will be given by Dr. R. S. Boots, head of the department of political science at the University of Pittsburgh. His subject will be "Romanticists and Realists", an appealing subject indeed.

Will Requires Presence At Grave

Twenty-Six Beneficiaries Must Assemble At Grave To Collect Share Of Estate

(International News Service)

YORK, Pa., May 24.—In accordance with the terms of the will of the late William P. Herriman, of Paterson, N. J., Roland W. Loveland, of this city, must go to the grave of Herriman, at the New Jersey city if he would collect his share of the estate.

The will specified that Loveland and 26 other persons who are named as beneficiaries, must assemble on the first Memorial Day after Herriman's death. He died last August.

Loveland will receive $1,000 under the terms of the will while approximately $50,000 will be divided among the other 26 persons.

10,000 Electric Lights At Cascade

That Is A Fair Estimate Of Brightly Lighted Recreation Park

Although there is no way of determining the exact number of bulbs needed to light Cascade park with illuminating current unless one counted the bulbs and that would be a tedious and lengthy task, it is estimated there are at least 10,000 bulbs in use at the recreation center which at night is illuminated almost as bright as during the day.

The lights are strung in rows along entrances through the foliage from the East Washington street entrances to the lower park gates in the vicinity of Cascade lake. Lights are also strung around the lake and there is scarcely a nook or corner in the huge acreage which is not illuminated. All of the buildings possess row upon row of the light.

The cost of the electric light bulbs alone represents quite a sum and from time to time they must be replaced. The current is served by the Pennsylvania Power company and the electric light situation at Cascade park is sufficient to keep a force of employes looking after them all of the time.

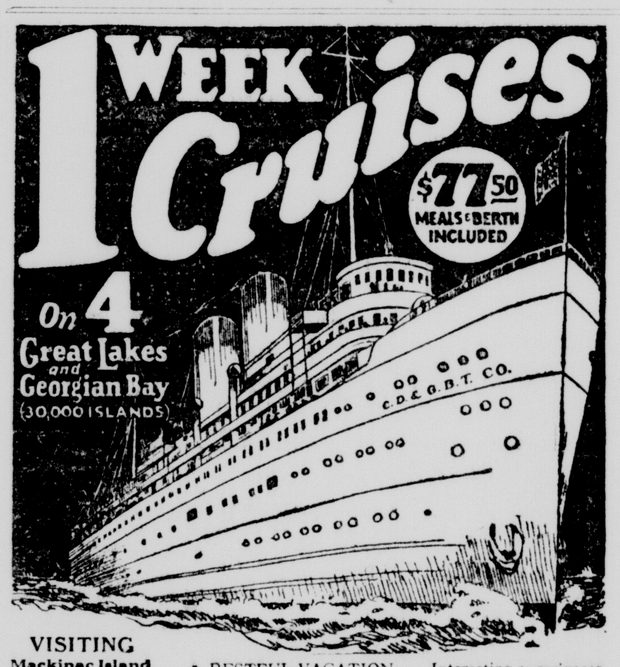

File Heavy Claims In Mine Disaster

(International News Service)

HARRISBURG, May 24.—It may be several weeks before the total of the claims filed as the result of the Mather mine explosion will be known, officials of the claims division of the State Workmen's Insurance Fund said today.

If the claims exceed $100,000 as it is believed they will, the excess loss will be borne by other insurance companies. Under an arrangement with other insurance companies $100,000 is the maximum for which the state fund is directly liable.

The REO FLYING CLOUD is *not* a racing car *but*

it's fast enough *for* Pete De Paolo

AUTOMOBILE racing has its place in the scheme of things, no doubt.

To the gruelling tests of the Speedway—at Culver City, at Indianapolis, at the Monza Grand Prix—is due a large part of present-day automobile design. But racing speed is for the Speedway—not for the public highway.

That's why the Flying Cloud is not built to do "100 miles an hour." It's why we don't even *claim* 100 miles an hour.

It will do more than 75 miles an hour—75 honest miles. And that's fast enough. It's faster than the average driver ever wants to go. And it's faster than the average driver ever has safe and lawful opportunity to drive.

But the possession of that 75-miles-per-hour capacity implies the possession of other characteristics that the average driver does want—the flashing acceleration that gets him away from the traffic-barrier ahead of the pack; the "zoom" that picks up the traffic pockets with incredible ease and with perfect safety; and the man-saving and motor-saving surplus of power for the hills and the mountains.

That's why Pete De Paolo, speed-king of America, bought a Flying Cloud for his own use—when he's not burning up the bricks at Indianapolis; that's why he joined the Reo sales-forces in Southern California and is making a great sales-record—and hosts of new friends—in that toughest of all markets.

It's why he asked—and received—permission to christen his world's champion race-car—the car that in 1927 carried him to his second world's speedway championship—"Flying Cloud Special." His racing-car is not a Reo Flying Cloud; neither is the Reo Flying Cloud a racing-car.

But they're both thoroughbreds. They're both built to stand out above the rank and file. They're both built to stand the gaff—to "go through," in other words.

The Reo Flying Cloud has received no finer tribute—and it has received many—than Pete De Paolo paid it when he gave its name to his own championship racing-car, and identified himself with the organization that builds it.

Community Chest Contributions Boost Fund Total To $18,857.40

Maurice Krause Makes Stirring Address, Appealing To Civic Pride Here

Local Orchestra Contributes Popular Tunes To Aid Drive In Success

ELLWOOD CITY, May 24.—The total of all contributions at the close of the third day of the 1928 Community Chest drive amounted to $18,857.40. This includes part of a "blanket donation from the National Tube company of $12,300, part of which was turned in on Tuesday and is reported to be incomplete.

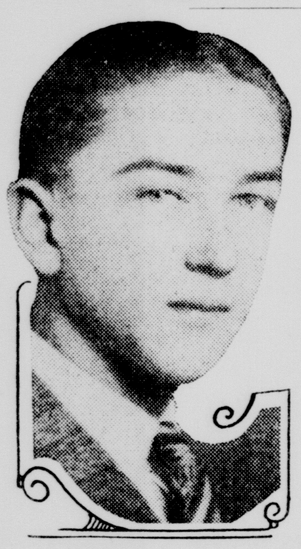

There are only three more days to go and twice the above amount and a little more will have to be raised before the chest is locked Saturday night.

The speaker last evening at the meeting in front of the Central school was Maurice J. Krause who chose as his subject "The Civic Pride of Ellwood City" and told in glowing terms, incidents during past drives when Ellwood citizens have co-operated for the ultimate betterment of the city and went over the top with a bang. His appeal made a deep impression upon his audience and he was given much applause.

A local orchestra of 12 pieces gave a repertoire of popular dance numbers and were well received. The orchestra was directed by N. J. Rearic and Mrs. Rolland Haines assisted greatly at the piano.

Tonight's program is incomplete although it has been announced that a prominent business man will give a talk and there will be a musical program.

Mercer Churches Will Not Unite

Opinion Expressed At Meeting Of Presbytery Does Not Favor Union

MERCER, Pa., May 24.—Union of the two Presbyterian churches of Mercer not ordered at this time, is the report of the committee of members of the Erie Presbytery of the church at the adjourned meeting of the presbytery held yesterday at Sugar Creek in Erie county.

A committee headed by W. McIlvaine, pastor of the Meadville Presbyterian church, was appointed at the April meeting to visit Mercer and report on the uniting of the two Presbyterian churches of the town which split on the slavery question in 1860. While the opinion of the committee does not favor union at this time they asked Presbytery to continue them in office with the hope that through their offices a union might be effected at a late date.

Dinner-Dance At Country Club On Memorial Day

ELLWOOD CITY, May 24.—At a meeting of the men's and women's entertainment committees, which took place Wednesday evening in the clubhouse, plans were completed for the dinner-dance which will be conducted at the club the evening of May 30. The attendance will be limited to club members, with the exception of out-of-town guests.

There will be dancing from nine until one o'clock and a peppy orchestra has been secured. At the meeting last night a sub-committee was formed to plan for the summer dance series. This committee comprises Mrs. Henry Schenck, Mrs. Loring Gelbach, Tom Daley, W. L. Dean and John Heberling.

TO HAVE SOCIAL.

ELLWOOD CITY, May 24.—The Intermediate department of the Wurtemburg Y. P. C. U. will hold a social in the church on Friday evening May 25.

Boy Scout Activities

TROOP 14

The Boy Scout troop 14 will give another program at the Elm street Y. W. C. A. on Thursday, May 24th. The program will begin at eight o'clock.

Following the program a lunch will be served by the ladies of the Y. W. C. A. and the friends of the scouts.

The following program will be carried out:

Opening, all standing—taps by bugler.

All salute the colors.

Instrumental solo—Virginia Wilkes.

Duet—Roy Ahmbric, E. Farrow.

Trio—H. Gray, C. Fitzhugh, E. Taylor.

Harmonica duet—T. Mooney, J. Burley.

Instrumental solo—Geo, Lawson.

Dialogue—Laura Owens, Elizabeth Bell.

Songs—Girls' quartet.

The public is invited to attend this meeting and the committee has assured a good time for all. Fred D. Wilkes scoutmaster of the troop, is in charge of the general arrangements. Mr. Wilkes and his committee are attempting to make this the best entertainment ever given by the troop.

TROOP 10

The Epworth M. E. church troop 10 held a meeting on Tuesday evening at the Aiken school with Guy Raney in charge.

The meeting was started at seven o'clock and a large number of scouts and visitors were present. After a short game of ball the meeting was started with the usual opening services.

Mr. Raney spoke to the boys about the camp and urged immediate registration. He also gave an instructive talk on "What a Sport Is". The scouts enjoyed Mr. Raney's address and took everything to heart. The remainder of the time was spent in electing a new Scribe and the studying and passing of various tests. The scribe elected was John Suciu.

After the election several boys passed the following tests.

Walter Marco, knife and hatchet.

Avery Rigby, knife and hatchet.

Elmer Martin, tenderfoot.

Bill Clements, compass.

Jack McFarland, compass.

The meeting was closed with the usual ceremony.

Scribe, John Suciu.

Useful Gifts for Brides and Graduates

Individual Furniture Pieces Will Surely Please Them

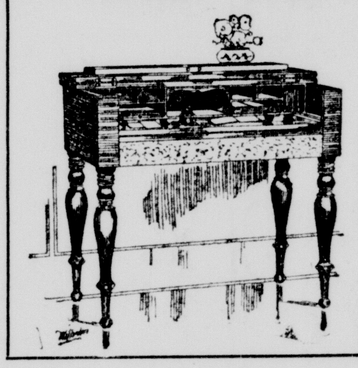

—because they are so useful and lasting

—you'll be pleased with their quality and prices

Perhaps no greater evidence of thoughtfulness could be shown the bride or graduate than the presentation to them of a piece or two of quality furniture selected at Haney's. In the bride's new home, no doubt, useful, practical pieces of furniture such as we illustrate here will help materially towards helping to build that "Dream Home," she has so thoughtfully planned. Every piece is tastefully designed, substantially built and most reasonably priced.

Seniors Make Merry; Parade City Streets; Program At School

Senior Day, with all its festivities, was observed by the members of the June graduating class of the Senior High school today.

Most of the seniors were dismissed from their classes although there were a few who were required to attend the sessions on account of their taking sophomore and junior subjects.

The participants in the affair presented a most striking appearance in their class day costumes, the girls being adorned in white dresses and purple tams and the boys in white flannel trousers and dark coats. Their appearance in the business section of the city this morning was quite impressive, as Old Sol provided the necessary sunshine to make the event a happy and memorable one.

In the school's morning assembly the seniors provided the enjoyment for the undergraduates and gave them the advice which they should heed in their upward climb to seniorship. But the sophomores and juniors took it well. The celebration was in command of Louis Hazen, president of the high and mighty seniors.

The main feature of the program was the presentation of a playlet, which portrayed a graduation from a country school house. The latter was certainly comical. Elmer Williams was in charge.

Members taking part in this were Don Switzer, Sam Fisher, Glenn Cunningham, Herbert Smith, Arthur Guy, Harold Sankey, Jim Remley, Brice McGeehan, Phyllis Cunningham, Fred Blaha, Raymond Johns, Harry Stiritz, Harriet Truby, Betty Steen and Thomas Greney.

Harriet Truby, a member of the class, read the class will at that time also. In it the ability and talent along with the craziness of other class members were bequeathed to the certain undergraduates.

Another feature of the exercises was the presentation of miniature gold footballs to the members of the class on the school's football squads. This was done by Elmer Williams.

At the conclusion of the program horns blew and tick-tacks bussed as the students went about continuing their celebration. This was in progress when press time came and probably will be until school is dismissed at 3:30 o'clock.

McKean County Hunters Not In Favor Of Rule

KANE, Pa., May 24—Sportsmen in McKean county are not at all in favor of the recent announcement by the state game commission that an open season on does will be instituted this year, while the killing of buck deer made illegal. One of the remedies suggested to nullify the proposed slaughter of does is to have property owners post their property against hunters, so that the favorite hunting grounds in this section will be barred to visiting hunters, while county hunters will refrain from deer hunting.

Local nimrods say that an open season on does would mean the killing of hundreds in McKean county alone. They say the female deer through years of protection have become much tamer than the males and that their slaughter would accordingly be much higher than the annual toll of buck deer.

The Pursuit Of Sitting Bull

WHEN NEWS OF THE ANNIHILATION OF CUSTER AND HIS MEN ON THE LITTLE BIG HORN (JUNE 25, 1876), REACHED FORT LEAVENWORTH, GENERAL NELSON MILES WAS SENT TO THE SCENE OF THE DISASTER WITH THE FIFTH INFANTRY. GEN. MILES WAS PARTICULARLY EAGER TO CATCH SITTING BULL, THE LEADING SPIRIT OF THE SIOUX, AND BELIEVED THE FAMOUS CHIEF WAS NOT FAR OFF.

FOLLOWING THE TRAIL OF A BAND OF HOSTILES DOWN THE YELLOWSTONE, MILES FOUND A NOTE FROM SITTING BULL, DEMANDING THAT THE SOLDIERS GIVE UP THE CHASE.

MILES QUICKENED HIS PACE AND OVERTOOK SITTING BULL. THE GENERAL AND THE CHIEF CONFERRED UNDER A FLAG OF TRUCE. AT THE END OF A STORMY INTERVIEW, MILES SAID: "I AM GOING TO DRIVE YOU OUT OR YOU ARE GOING TO DRIVE ME OUT!"

SITTING BULL REJOINED HIS BAND, AND MILES ATTACKED THE HOSTILES VIGOROUSLY. WHEN THE SIOUX BEAT A HASTY RETREAT, MILES PRESSED THE PURSUIT SO HARD THAT THE REDSKINS COULD ESCAPE ONLY BY ABANDONING THEIR PONIES AND DISPERSING IN THE MOUNTAINS.

MAKING PLANS FOR AIRPORT DEDICATION

Expect New Five-Passenger Plane To Arrive Some Time Next Tuesday

Air Circus Is Scheduled As Feature Of Proposed Dedicatory Program

Tuesday noon, May 29, D. Roy Bradford and Sd. Schultz, pilot for the New Castle Aircraft, inc., are expected to land at the New Castle airport on the Harlansburg road, after a two day flight from San Diego, Cal., in a Ryan monoplane, the exact duplicate of the one in which Lindbergh is making his flights, according to officials of the corporation today.

Mr. Schultz and Mr. Bradford left New Castle Tunesday evening. They expect to arrive at the factory Saturday afternoon, and Sunday morning, early, they will take off for New Castle. At each stop along the route, they will wire reports of their progress to this city.

The Ryan monoplane which was purchased Tuesday by the corporation is one of the trimest ships made in the United States. It will seat five passengers in a special heated cabin, and is powered with the standard Wright Whirlwind motor. A wheel is on the tail of the plane instead of the usual skag. The motor also has a starter attached to it.

Another plane will be purchased by the corporation and will be at the Harlansburg road field Tuesday noon to greet the aviators, it is stated. This will be a monocoupe, three passenger model, constructed on the same plan as the larger Ryan.

Formal dedication services at the New Castle Airport will take place late next week, when an air circus will fly to New Castle from Pittsburgh. Officials of the company expect as many as 30 planes to make the trip. It is also expected that an entire government aviation unit will be presented at this time, as well as several of the most noted stunt flyers. Complete plans have not yet been arranged, but will be announced at a later date.

Young People Make Plans For Conference

Gathering To Take Place On June 17 In Highland U. P. Church

At a recent meeting of the executive cabinet of the New Castle Young People's Sunday School council, plans were made for that organization's first semi-annual conference of 1928, to be held in the afternoon and evening of Sunday, June 17, at the Highland U. P. church, corner of Park and Highland avenues.

According to the plans which were discussed and accepted at that time, the afternoon session of the conference is to commence promptly at 2 o'clock. The main speakers at this session will be Mrs. David D. Sleppy of Mahoningtown and G. A. P. Bowman of Beaver, who is secretary of young people's work for the United Presbyterian church in Beaver valley. Both Mrs. Sleppy and Mr. Bowman will conduct heart-to-heart talks to the girls and boys, respectively, as well as address the general session later in the afternoon. Dr. C. J. Williamson, pastor of the conference church, will also speak at this session.

Short talks by members of the council will also feature the afternoon and evening sessions of the gathering.

About 6 o'clock in the evening a light lunch will be served the visitors.

Around 7 o'clock a model young people's meeting will be conducted by one of the council members and the program of this will consist mainly of talks by representatives of the different young people's organizations from each denomination in the city.

The evening session will open shortly after the close of the young people's session, and to this as well as the afternoon meetings, members of the congregation of the Highland U. P. church and others are cordially invited.

The conference theme, "The Abundant Life", taken from John 10:10, will be stressed by Dr. Williamson, pastor of the Highland church, in his evening address to the delegates and others. His talk will be the main address of the evening session. It is probable that other speeches will mark the closing meeting, but as yet nothing definite in this respect has been decided upon.

Committees at work on the conference details consist of the following council members:

Church arrangements—Frank Brenneman, chairman; Catherine McGrath, Claudia Boughter, George Hogue and Lyle McGrath.

Speakers—T. J. Davies, chairman; Geneva Fleming and Bruce Ewing.

Music—Al Bauman, Jr., chairman; Mary Elizabeth Sharp and Frank Brenneman.

Suffered 8 Years With Eczema

After Other Remedies Failed, Ends Skin Trouble Quickly This Simple Way.

"You may be interested to know that for about 8 years I was suffering with a skin trouble I called Eczema. It affected me in two different parts of my body. A short time ago I noticed your ad in a newspaper for Peterson's Ointment. I purchased a box. I must add that I have tried almost avery known remedy and failed. I will proudly admit that your remedy has proven the best and has not been half used up yet."—Ray O. Nesbet, Augusta, Me.

Other remedies may fail, but the success of Peterson's Ointment is so certain that druggists all over America are glad to recommend it, for eczema, pimples, acne, ulcers and all skin eruptions—35 cents a box—at your druggist.

NEW CASTLE LEADS O-P BASEBALL LOOP

Grimes' Bunt Scores Hogan From Third

Harvey Yanks Whitmore And New Castle Pinch Hitters Wield Merry Stick; Coen Relieves Gilliland In Fourth; Game Is Called On Account Of Darkness In Last Of Fifth

By ED FRITZ.

New Castle slipped into first place in the Ohio-Pennsylvania loop by defeating Beaver Falls 7 to 6 in a twilight game at Centennial field Wednesday. When Umpire Warner called the tilt on account of darkness after Hogan had romped home with the winning run in the last of the fifth inning several Beaver Falls players backed the umpire against the fence and for a few moments it looked like a free-for-all as excited fans poured upon the field in defense of Warner. The trouble was settled in a quick manner when Policemen "Dude" Moore, "Bud" Fleeger and "Jimmy" Steiner shoved the fans and players from Warner and shooed the crowd out of the field like so many flies facing an angry waitress with a counter rag.

The umpire was absolutely right in decreeing that the tilt should cease as a curtain of darkness had blanketed the field and a continuance could have resulted in a player being injured by a pitched or batted ball. As the Centennials had scored four runs, one more than Beaver Falls and enough to take the game naturally some of the visiting players were hot beneath their chin.

Lasts Until Double.

Whitmore tarried on the hill until Hogan doubled in the last of the fifth, scoring Morley and Knapis. This was too much for Manager Harvey and he caller Semler into action and that was the beginning of the end as Coen scored the deadlocking sixth run on a wild pitch and Hogan scored when he beat out Goldberg's throw home after Grimes bunted along the first base line. Whitmore was touched for seven hits.

Gilliland started for New Castle and before the first inning was over Weimer scored and was followed across the home plate shortly afterward by Jones who with McGinley worked a double steal. McGinley started for second and on the play Jones romped home. Yoxcheimer didn't get the ball in time to lay it on Jones ribs.

A base on balls to Hogan in the last of the first resulted in a score when Leonard singled. His hot drive hit Whitmore's hand, glanced off, passed Jones and rolled into center. McCullough doubled to left and scored, Leonard tying the score and in the third Hogan singled to right, scoring Yoxcheimer.

Gets in Bad Hole.

Gilliland worked himself into a bad hole in the fourth when he hit Goldberg and McGinley drove a long hit to left that sent Goldberg across the pan tying the score. Gibson grounded to Gibson, and Shannon completed the out but Yoxcheimer dropped the ball and McGinley scored the fourth run of the game.

Only four batters faced Whitmore in the last of the fourth and in the first of the fifth Grimes booted Weimer's grounder and Coen passed Kestner. There were none out and Jones sacrificed. Weimer scoring. Goldberg fanned but McGinley singled, scoring Kesnter with a blow to left giving Beaver Falls six runs.

When Gibson flew out Manager Textor sent McCoy to bat for McCormick and he drew a pass. The fans went wild when Morley went on the path to run for McCoy and Knapic hitting for Yoxcheimer singled to right. Pandemonium reigned when Coen advanced the runners and filled the bases with a single to right.

Hogan Answers Plea.

The fans yelled for Hogan to put the ball over the fence and win the game. Hogan almost did that. He doubled to center scoring Morley and Knapsic and the fans went into a frenzy. Manager Harvey yanked Whitmore and injected Semler and taking advantage of a wild pitch Coen scored from third tying the score.

Leonard a hard hitter came to bat and the fans plead with him to clean the bases but Semler issued him a pass in an effort to get Grimes who is a good hitter. In the meantime Hogan had wormed his way around the paths and stood on third ready for a dash if Grimes landed on the ball.

Grimes laid down a bunt toward first and Hogan a fast runner campered home with the seventh and winning run before Goldberg could catch him at the plate. The umpire called the game and in a moment some of the Beaver Falls players had him backed against the fence demanding the game continue.

When fans mingled with the crowd and things looked like a free-for-all three city police dispersed the crowd fearing that someone would suddenly thrust his chin against someone's fist. The box score:

Muse Pulls One On Tom Dickey

One Attorney Sallies At Another During Banquet Speech

Attorneys can rip each other up and down the back in a courtroom, converse in a most pleasant frame of mind during luncheon, then return to the courtroom and apparently be ready to fly at each other's throat only to leave the courtroom, partake of dinner and then sit down and discuss what golf club is best to use for a certain shot.

Tuesday evening Attorney George Muse, while speaking to National Radiator Corporation bowlers pulled a golf story, using the name of Attorney Tom Dickey as the party of the second part.

He claimed he was playing against Tom and the latter drove the ball over a hill. Attorney Muse didn't follow Tom, and after Tom came back, asked:

"How many strokes did you take, Tom?"

"One," replied Dickey.

"I thought I heard half a dozen," intimated Muse.

"Oh, I guess a fellow can kill a snake if he wants to, can't he?" retorted Dickey.

Pyles' Coast-To-Coast Marathoners In New York On Saturday

DAY'S LAPS BEING MADE MUCH SHORTER

By LELAND C. LEWIS
International News Service Special Correspondent

MIDDLETOWN, N. Y., May 24.—Broadway never saw as weird a caravan as C. C. "Cross Country" Pyle's carnival of callouses that was pressing onward to its borders today, ready to emerge from the sage brush circuit on which it has played for the past twelve weeks for a one-night stand at Madison Square Garden, New York, on Saturday.

Headlined by referee "Red" Grange, with his 55 blistered bunioneers, the Pyle troupe of carnival attractions pushed out of here this morning for Suffern, N. Y., the eighty-second day's stop since leaving Los Angeles.

The day's job of 37 miles will be followed by a trek of 20 miles tomorrow to Passaic, N. J., where John Salo, the Finnish-American Legionnaire and runner-up to Andy Payne, the Oklahoma farm boy who heads the pack, will be the object of acclaim, by the residents of his home city.

"No chance of overtaking Andy now," Salo said today.

Ed Gardner, Seattle negro, led the highway harriers in yesterday's run from Liberty to Middletown. He covered the thirty-eight miles in 6:02.59. Payne finished tenth and Salo eighteenth.

If the jungle had a system of laws, it isn't probable that the tiger ever would be found guilty.

Yet the man who thinks laws should be accepted without question will howl if the umpire's decision doesn't please him.

Bushy Graham Is Bantam Champion

Utica, New York, Battler Is Victor In Bout With Corporal Izzy Schwartz

(International News Service)

NEW YORK, May 24.—The bantamweight division today has a new and worthy champion in Bushy Graham, scrappy battler of Utica, N. Y., he easily won the decision over Corporal Izzy Schwartz, flyweight champion in New York State, in a fifteen round bout in Brooklyn last night.

Graham had difficulty in making the weight himself last night while Schwartz gave away nearly seven pounds and was at a disadvantage. He was badly battered, losing eleven rounds, and was thoroughly convinced today that he had better stock to his own division. Graham floored the Corporal for a count of nine in the fourteenth round.

Fighting for the right to meet Joe Dundee in a welterweight title go, Sergeant Sammy Baker came from behind to outpoint Neck Testo, of Troy, N. Y., after being floored twice in the third round, Baker came on to take six of the ten rounds.

PICK OLSEN TO DIRECT ATHLETICS

Will Go To New Wilmington High When He Leaves Illinois

Carl Olsen of Wildwood, N. J., who will graduate in June at the University of Illinois, has been named coach and director of athletics at New Wilmington high school. Olsen took a four-year course in athletic coaching and physical education. He won letters in Wildwood, N. J., in football, basketball, baseball and track. He was also captain of football and basketball teams.

Last Nights Fights

(International News Service)

AT NEW YORK—Bushy Graham, of Utica, N. Y., won bantamweight title by outpointing Corporal Izzy Schwartz, New York (15).

Sergeant Sammy Baker won decision over Nick Testo, Troy, N. Y., (10).

Frankie Garcia, of Utica, younger brother of Bushy Graham, outpointed Jackie Cohen, Brooklyn featherweight (4).

Andy Divodi, New York welterweight, won decision over Pal Silvers, Brooklyn (10).

Tri-State Colleges To Compete In Track Meet Memorial Day

BEAVER FALLS, May 24—With the Allegheny dual out of the way Geneva track men are pointing their efforts to defending their championship title of the annual conference meet at Beaver Falls on Memorial Day. This feat is going to be more difficult than in the past three years due to the exceptional strength of the whole Bethany team and strength in individual events of Westminster's squad. In any case the events will be more closely contested than in the past two years when Geneva won by large margins. The great Butler, Kenst and Hubbard are missing from Geneva's squad. These men accounted for 36 of Geneva's 100 points in the conference met last year and their places have not been acceptably filled.

Geneva is exceptionally weak in the dashes and pole vault but has a string squad of field men, hurdlers, javelin-throwers and high jumpers.

Two exceptional athletes have been developed this year in Friedman and Lathom. Friedman has thrown the javelin over 189 feet in the Grove City and Allegheny meets establishing the district records and Lathom ran the low hurdles in the remarkable time of 24 2-5 in the Grove City straightaway establishing another district mark.

These men confidently expect to set new conference records in these events. Baird is also expected to acquire a new high jump record for Geneva. Geneva men already hold 13 out of 16 conference records.

Geneva has made a wonderful record in track the past three years under the tutelage of "Bo" McMillin. Three Tri-State district records have been established by Geneva's men which are not apt to be equaled for some time. Geneva has won the conference championship since the inception of the organization by large margins with exceptionally good marks. No other smaller school has come close to the Covenanters in dual meets and the three defeats suffered in the three years have been from Pitt in 1926 and West Virginia in 1927 by 20 points and a set back this year from West Virginia by 90 points when Geneva men were unprepared due to lack of indoor facilities and discouraging weather. In the past three years Geneva scored over 100 points in dual meets on five occasions and over 90 points in six other duals. Geneva loses but one man, Captain Lloyd from this year's great team.

Pitt Track Stars Compete In East

(International News Service)

PITTSBURGH, May 24.—Five athletes of the University of Pittsburgh were scheduled to arrive this afternoon in Boston where they will compete in the National College Track and Field Meets Friday and Saturday. The meet will be held in Harvard Stadium by the Inter-Collegiate Amateur Athletic Association of America.

Pitt's entries in the I. C. C.-A meet are Captain Gibby Welch, Kenneth Wibecan, Ed Knobloch, Victor Pickard and Don Gwinn. Gwinn, the hammer-thrower, is the only Pitt man conceded a chance to score a first place in an event. Welch's best chance to score is in the discus throw, while Wibecan, negro sprinter, may place in the 220-yard dash.

Pickard, who probably will be on the Canadian Olympic team, may finish high in the pole-vault. He has lifted himself over the bar at 13 feet.

Final American Amateur Is Out Of Golf Tourney

(International News Service)

PRESTWICK, Scotland, May 24.—The only American born contender who had a chance of winning the British Amateur Golf championship was eliminated today. Douglas Grant was defeated by A. R. MacCullum, a Briton, two up. John McHugh, of California was the favorite among the Americans until he was eliminated by Sir Ernest Holderness. While Grant is an American he played as a representative of the Royal St. Georges Club, of Sandwich, of which he has been a member for years.

Tennis Alphabet—C

By Feg Murray

Copyright, 1928, by Metropolitan Newspaper Service

"C" who's here! There are "C's" aplenty for this alphabet of tennis stars from the veteran Mrs. Lambert Chambers of England down to 16-year old "Junior" Coen, of Kansas City, who is figuring in this year's Davis Cup play in the American zone. And before passing on let me say here that Mrs. Lambert Chambers has one of the most remarkable records of any woman in tennis. As Dorothea Douglas, she made her debut at Wimbledon, winning the championship the following year. In 1925, after winning the British title seven times (one more than Suzanne) she came to America as manager of the British Wightman cup team, still able to play good tournament tennis.

Henri Cochet of France is the most famous "C" player. As one of the "Four Musketeers" of France, he helped win the Davis Cup from the United States at Philadelphia last September, and at Wimbledon earlier in the year defeated Big Bill Tilden after the American had won the first two sets and had a commanding lead in the third. And it was this same Cochet who a year earlier at Forest Hills, prevented Tilden from winning his seventh National championship.

The Chapins are highest ranking married couple in tennis circles, both Al and his wife, the former Charlotte Hosmer of San Francisco, are veterans of many big tournaments and have won numerous championships separately and as mixed doubles team together. J. Crawford is the young Austrialian who defeated both Borotra and Brugnon when those famous Frenchmen were playing "down under" not so long ago. "Bud" Chandler twice won the Intercollegiate title while a student at the University of California. He is looked upon as a promising Davis Cup player of the future.

C. S. Campbell won the U. S. singles title in 1890, '91 and '92 and William J. Clothier in 1906, while Miss Mabel Cahill was women's champion in 1891 and '92.

"By the C by the C, by the beautiful C!"

It seems that the weather man has won a great many more ball games this season than the White Sox and Phillies.

Blood Is Life

Is your blood bad, have you pains in your bones and joints, swelling of the Glands, Boils, Pimples, Eczema, Old Sores that won't heal, rashes or breaking out of the skin? If so, see me at once. When your health has been undermined by worry or overwork, when your vitality is lowered, when you have that "don't care a rap" feeling, when your nerves are depressed, when your work appears too much for you, you are then in a run-down condition.

You may be an "old man" when actually young in years simply through neglect.

WHAT'S THE "WHY" OF OLD GOLD'S WINNING CHARM?

HERE is the answer, in three words . . . *heart-leaf tobacco.* No coarse, heavy top leaves of the tobacco plant . . . for they *sting the throat.* No withered ground leaves . . . for they *coarsen the taste.* Only the cool and fragrant *heart-leaves* . . . golden ripe . . . can give OLD GOLDS their *honey-like smoothness.* That's why you can tell them in the dark.

New Castle Defeats Washington In Dual Meet

Local High School Track Team Downs W.P.I.A.L. Champs

Final Score Is 60 1-2 To 56 1-2; Stiff Competition Marks Interesting Meet

Arthur Craft And Felix Miller High Individual Point Scorers In Meet On Wednesday

By "BUGS" WALTHER

New Castle High school track team pulled one of the biggest upsets of the year at Ben Franklin High stadium on Wednesday afternoon, when in a most interesting dual track and field meet they downed Washington High. The final score was 60 1-2 to 56 1-2.

The Washington High team only recently captured the honors in the W. P. I. A. L. meet at the Pitt stadium, and last Saturday they won the Washington county title in a fast meet. New Castle's victory here yesterday afternoon is all the more convincing because of the fact that the locals were also-rans at the W. P. I. A. L. carnival.

Win With Javelin

With a well balanced team, New Castle swept to victory by a remarkable showing in the field events. It was the javelin throw that gave New Castle the meet. Had Washington placed in this event, the meet would have had a different ending, but as it was Craft, Sillman and Alexander took all three places and the nine points gave New Castle the advantage. The New Castle team was stronger in the field events than Washington.

A summary of the meet shows that New Castle High won the meet through their ability to place second and third. Washington High came through with eight first places, five second places and two third places. New Castle had five first places, eight second places and 11 third places. The half points were gained in the 120 high hurdle event when Smith of New Castle and Craig of Washington tied for third place.

Craft-Miller Star

High individual point scoring honors were divided between Arthur Craft of New Castle and Felix Miller of Washington. Craft stood supreme in the shot-put with a shave of 40 feet three inches, in the javelin with a throw of 158 feet, nine inches, and in the discus with a toss of 112 feet, six inches, and garnered 15 points. Miller finished the 100, 220 and 440-yard dashes with plenty of yardage to spare and grabbed off 15 points.

Miller's time for the century dash was :10 1-5, and he was trailed by Hanna of Washington and Walter Smith of New Castle. In the 220-yard dash Miller turned in the fine time of :23 flat, with Paul Reider of New Castle finishing second and Walter Smith of New Castle in third place. In the 440-yard dash Miller ran the field to death and finished almost in a walk in the time of :51 1-2. With Reider and Campbell of New Castle second and third respectively. Miller is undoubtedly one of the finest schoolboy track artists to step upon the greensward of Ben Franklin High field, and his performance here yesterday was short of sensational. It is not often that a youngster can win all three dash events in one afternoon.

The Ramsay brothers of Washington, reputed as fine long distance runners, lived up to advance notices and had a walkaway with the mile run. Willis Ramsay ran this event in 4:46 3-5 and was several yards ahead of his brother, Wilbur, who finished second. Meek of New Castle was third. Tirney of Washington ran a fine race in the half mile, finishing a scant few yards ahead of Clements of New Castle.

Smith Wins Low Hurdles

Walter Smith ran the 120 low hurdles in the good time of :13 4-5 and was an easy winner. Hanna of Washington was second and Wilkinson of New Castle was third. Bruce Alexander was the winner of the 120-yard high hurdles with a time of :17.3. Walter Smith was second in this event and Herbert Smith, New Castle, and Craig of Washington were tied for third place, the men splitting the one point.

Shamitko of Washington pole vaulted 9 feet 6 inches to win the event, with Johnny Johnson of New Castle second and Haid of New Castle third. It was the first meet of the year that Shamitko won.

Jamison of Washington won the broad jump with a leap of 19 feet, 8 3-4 inches. Johnson and Uram of New Castle were second and third respectively. Redinger of Washington was the best high jumper with a leap of 5 feet 3 inches, and Earl Bauman and McClymonds of New Castle tied for second and third.

Meet Well Handled

Beautiful gold, silver and bronze medals were given the athletes for first, second and third places. The meet was staged with a precision that only a man of Ralph Gardner's ability could perform. The events got under way shortly after 2:30 o'clock, and the last event was staged about five o'clock.

The officials for the meet were: starter, Robert Long; judges, Eddie Connery, Edward Geasa, "Scoots" Nelson, Leroi Norton and Arthur Dean; timers, Clyde Smith, Dr. William Jones and George "Gig" Thomas; announcer, Sandifer; field worker, Ralph Bishton. The meet was very well handled in every detail by the officials.

Coach "Hank" Day, the veteran Washington mentor, was so well pleased with the manner in which the meet was staged that he has agreed to bring his team back next year for a dual meet or a triangular meet. Coach Philip H. Bridenbaugh was well pleased with the showing made by the red and black athletes.

Junior League

The Indians defeated the Vagabonds, 24 to 4, in a Junior Recreation League game played at the Lehigh field on Wednesday night. The pitching of Fulkerson was a feature. N. Uram and Fulkerson had home runs.

The C. C. Sluggers defeated the Ryantown team, 6 to 3, in a game played at the Sampson street field. The game was a pitchers' battle between Proctor and Kolcz.

The Keystones downed the Castle Cubs, 12 to 2, in a game played at the P. & L. E. field. Majocha, on the hill for the Keystones, pitched a no-hit game.

Geneva Wins Track Meet At Westminster

NEW WILMINGTON, May 23. — Making good their reputation in field events, the Geneva track team easily defeated the Westminster combine 94-41 in the dual meet held on the local athletic field yesterday afternoon.

The Beaver Valley team took 11 first places and a majority of the other point-yielding places to more than double the score on the hard fighting combine, which was hampered by the sickness of Mirtz, distance star.

Merriman of Geneva won the coveted high point scoring honors with a total of 11 points garnered from a first in the discus throw and a second in both the javelin and shot put events. Cullen and Latham of Geneva took the second highest point scoring laurels by each taking two blue ribbons.

Two of the events ended in a tie for the blue ribbon. Hutchison and Delahunty of Westminster tieing in the pole vault and four Covenanter field stars holding a quadrupled dispute over the high jump first place.

Delahunty, Hartwell, Myers and Crowell starred for the Blue and White team while the Geneva outfit showed up a well balanced combination with Merriman and Cullen standing out from the others.

Although the track was fast and the weather favorable no records were shattered by stars of either team.

The summary:

Track Events

100-yard dash—Won by Hartwell, Westminster; Ewing, Geneva, second; Lloyd, Geneva, third. Time 10.3 seconds.

Schoolboys Will Compete At Pitt In Track Meet

(International News Service)

PITTSBURGH, May 24. — Eight hundred schoolboy athletes, from 51 high schools in Eastern Ohio, Northern West Virginia and Western Pennsylvania, will compete in the 21st annual interscholastic track and field meet Saturday sponsored by the University of Pittsburgh, according to Pitt athletic officials today.

Judging by performances on other school meets this season, each of the tri-state sections will have a school in a three-cornered battle to capture the meet trophy. Pennsylvania will be represented by Washington; West Virginia, by Parkersburg; and Ohio, by Steubenville.

Three Games In Twilight League

Three games are on tap tonight in the National section of the Twilight League. The games will start at six o'clock.

The Troop B team will play at Edenburg, with Hudson and Emery assigned as the umpires. The Italian A. C. will travel to Ryantown, with McCann and Bryson as the officials. The Hillsville team will play the Colored Stars at the Radiator field, with Price and Nolte handling the game.

Penn State Team Goes To Cambridge

Trackmen Will Try To Score Win In Intercollegiate Meet

STATE COLLEGE, Pa., May 24.—Carrying the hopes of Penn State in the coming intercollegiate track and field championships at Harvard, 13 Nittany Lion runners and field men left here Wednesday evening for Cambridge, Mass.

At the championships in Philadelphia last year, the Lions finished in second place, scoring 27 points, and leading all other eastern colleges. With the loss of several point winners last June, the chances of the team to repeat are remote, although there are several individual stars in the ranks this year.

Captain Richard Bartholomew, Bill Cox and Al Bates this year are the chief mainstays of the Lion hopes. Bartholomew led the team in scoring last year with a second and a third place, while Cox and Bates each scored five points by winning individual championships. The rest of the Penn State team have scored consistently in dual competition, but they will have to extend themselves to the utmost for places in the coming meet.

It's astonishing that the same voice can sound so important over the telephone and so meek when it says "yes, sir" to the boss.

It's always that way, Mr. Walsh. The private mops up and the general gets the medal.

Mandell Shows Class In Beating McLarnin

By DAVIS J. WALSH
International News Service Sports Editor.

NEW YORK, May 23.—They say that nothing succeeds like success, but an epigram like that is good only as long as the inevitable exception and the old-oaken, moss-covered, the iron-bound minority report are out somewhere playing with their split infinitives.

Having eased that burden off my troubled conscience, we now will hasten to consider the sad story of Samuel Mandell, the lightweight champion. Samuel may be said to have been markedly successful in defending his championship title on Monday night. And does that mean he is to prosper in proportion to the success of his undertaking? Yes, indeed; it does not.

Mandell was so all-fired successful the other night that it looks as though he might have the rest of the summer quite to himself. He apparently fought himself right out of work.

Now, children, let us pass along to the next picture. What do you see? That's right, Constance; you see a man. Is the man big? No, the man is little. Was the little man successful on Monday night? No, the little man was very unsuccessful. Is the little man winking at you? No, the little man closed his eye by mistake on Monday night and now he can't open it. Would the little man wink if he could? Undoubtedly, Hassenpfeffer. If the little man doesn't feel like winking today, he ought to have the other eye closed for him.

Rickard Active.

But James McLarnin, the unsuccessful candidate at Monday's lightweight election, has a sense of humor and so he will wink almost involuntarily as he considers the fact that they are busy at this moment trying to match him into plenty of money. Our Mr. Rickard is not taking the winner of Monday's championship and sending him along after bigger and better purses. He is placing the loser in that spot, the idea being that Mandell simply was too successful to bother with from now on.

"I have nothing in mind for Mandell," said our Mr. Rickard today, "but I figure on dropping McLarnin in with a lightweight or two during the outdoor season. I'd like to bring him back with Sid Terris."

Although he didn't say as much, it is believed that our Mr. Rickard will wait to get the winner of the Terris-Bruce Flowers fight and then sign him to a McLarnin contract. Then, according to the tentative program outlined, McLarnin, provided he gets by the Terris-Flowers winner, will be dropped in with Billy Wallace for a late summer attraction.

Meanwhile, where does Mandell come in? It seems that he doesn't. He fought a perfect fight; in fact, he made only one mistake all night but that one settled it. He was so ill advised as to prove that he was too downright good.

N. Y. STOCKS

NEW YORK, May 24—Wednesday's vigorous closing of the motor and airplane stocks stimulated active buying demand in all sections of the market today, and another "strong opening" was successfully engineered by the bullish professionals in Wall Street. Curtiss, Wright, Studebaker, Chrysler, Consolidated Gas and other speculative favorites jumped from 2 to 10 points in the first period, with numerous 5,000 to 10,000-share blocks passing through. The copper stocks also gave another demonstration of strength.

Anticipated easier money market conditions and the restoration of the five hour day by the Board of Exchange Governors were the chief bullish weapons to be used against the Bears in this period. Copper stocks had the benefit of another fractional increase in the price of the red metal, and motor stocks in prospective higher cash and stock dividends in Studebaker, Chrysler and Generalal Motors.

Curtiss Aero jumped 10 points to 143 in the first period, but violent profit-taking was encountered at the peak, and the stock moved downward about 5 points. Wright sold up 7½ points at 123. Studebaker was the sensation of the popular motor shares, and sold in volume above 80 International Nickel led the metals stocks, with a new 3-point jump to above 95. Call money was unchanged at 6 per cent.

FATHER ACCUSED OF TEACHING HIS CHILD TO SMOKE

GETTYSBURG, Pa., May 24.—The Adams county court has been asked to intervene in behalf of a seven-year-old girl who is being taught to smoke by her father.

The petition was presented to the court by Sheriff G. D. Morrison, and names Mary Eleanor Lesser.

It is charged that in addition to teaching his daughter to smoke cigarets she is given cigars, the father, John Lesser, has prevented the child attending school because he refuses to have her vaccinated.

TO DIRECT HUGE FLOOD PROGRAM

Forty-five years of experience in river work, 14 of them on the Mississippi, incline Carleton W. Sturtevant, New York, to the belief that the Mississippi can be controlled, at least to a degree. Sturtevant is the civilian engineer appointed to the new Mississippi flood control board by President Coolidge. He will serve with Major General Edgar Jadwin, chief of army engineers, and Colonel Charles L. Potter, chairman of the Mississippi river commission. He returned from Mexico a short time ago, having finished a dam there. He is 64 and six feet tall.

Governor Fisher To Locate Position For New Meade Memorial

(International News Service)

HARRISBURG, May 24.—Accompanied by a party of Pennsylvania and Maryland officials, Governor John S. Fisher late today will select the location for a marker near Frederick, Md., where General George Gordon Meade took command of the army of the Potomac.

The governor will be accompanied on the trip from Harrisburg by Major Isaac R. Pennypacker, biographer of General Meade, who has been a guest at the executive mansion; Dr. John A. H. Keith, superintendent of public instruction; A. Boyd Hamilton, secretary to the governor; Captain Frederic A. Godcharles, state librarian, and Major Lynn G. Adams, superintendent of state police.

The party will return to Harrisburg late tonight.

Tomorrow Governor Fisher will celebrate his 61st birthday as the guest of Seth T. McCormick at a hunting camp in Lycoming county.

SECOND DIVORCE FROM SAME WIFE ASKED BY MAN

PILLSBURY, Pa., May 24.— Carl F. Workmaster, 1012 Tweed street, Sheraden, yesterday started proceedings in common pleas court for his second divorce from Gertrude M. Workmaster, now residing in East Fairview avenue, Connellsville, Pa.

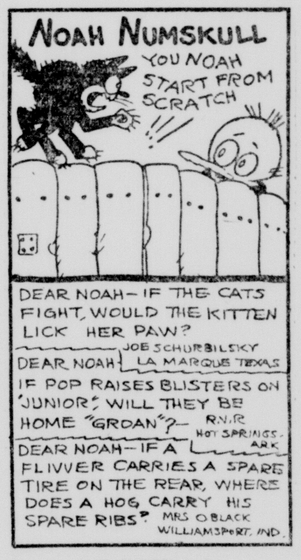

The couple were divorced in 1919, but remarried in December the same year. They separated again three years ago. Workmaster alleges his wife deserted him in July, 1925. They have one child. The divorce libel was filed through Attorney Charles P. Lang.

Will Enforce New Food Regulations

HARRISBURG, May 24—The restaurant hygiene section of the State Health Department has completed plans for a preliminary survey of stores, booths and markets for the purpose of enforcing the State Advisory Board's regulation, recently approved, which prohibits the exposing for sale in any public place in the Commonwealth, articles of food or food-stuffs which are eaten uncooked unless such articles are protected from dust, dirt, flies and vermin, Howard M. Haines, chief of this section, said that this regulation involves grocery, delicatessen, confectionery, department stores and markets.

As a preliminary procedure the department within the next few days will distribute more than 50,000 cards carrying the provisions of the regulations which in turn will be circulated by local health departments and health officers.

Important Bills May Block Date For Adjournment

Four Major Bills Before Congress As Adjournment Date Is Nearing

SEVERAL BILLS IN CONFERENCE

(International News Service)

WASHINGTON, May 24.—With adjournment tentatively set for May 29th, the seventieth congress was staggering around in circles today as four major bills vied with each other for the legislative right of way.

The tax reduction bill and the Muscle Shoals bill were in conference, due to reach the house and senate during the day as privileged business, while the Boulder dam bill was under debate in both branches and the vetoed McNary-Haugen bill awaited disposition at both ends of the capitol. Administration leaders were hopeful of enacting the tax and Muscle Shoals bill, while side-tracking the farm relief measure, and announced they would be satisfied if the Boulder dam bill was enacted by the house only at this session.

The second deficiency bill, annual harbinger of adjournment, pushed its way into senate debate and leaders hoped to enact it this afternoon. Its passage was said to insure adjournment next Tuesday. The bill carried a $15,000,000 appropriation to begin Mississippi flood relief work at once, which the senate inserted, so it too must go to conference before final enactment.

OLD STONE TELLS HOW LIFE EBBED

DOVER, May 24—A message of death which some pioneer scratched on a heart-shaped stone 110 years ago while his strength ebbed away was delivered to the world today.

The stone was found by Tony Nigro of Dover near a stream. On it were inscribed these words: "Let it be known, if found, I'm bleeding to death. May, 1818—F. B. W."

The stone is about eight inches long and the message covered the entire surface. Time had almost wiped away the crude etching.

It is believed the stone had been buried and that recent high waters cast it up.

ON THE CONTRARY

"Now, Johnny," said the mother of the young hostess to the little boy guest, "I want you to feel perfectly at home."

"H'm!" growled Johnny. "I don't want to feel at home. I want to have a good time."—Weekly-Scotsman.

HAPPY OVER VICTORIES IN CHINA

Coming from China to Washington for conferences with the state department in the interest of Chinese Nationalists, these three men, photographed at San Francisco, predict their party's military victories will bring reunification and prosperity to China. The visitors are, left to right: Shao Yin Teng, collector of maritime customs at Nanking; Ying Fan Koo, a commissioner of the government, and Sen Gunn Lee, former head of the revenue department of the Cantonese government.

Health Corps Will Survey Conditions In Rural Sections

HARRISBURG, Pa., May 24.—Dr. J. Bruce McCreary, chief of the bureau of child health, State Health Department, today announced that the two traveling motorized health units are now ready to begin their summer work. Each unit will include two physicians, two dental hygienists and two nurses.

This season the work will be conducted in the remote rural districts of Huntingdon, Butler, Indiana, Perry and Chester counties. Actual activities will start on June 4 and will continue during July and August.

Dr. McCreary said that more than 9,000 children in the more sparsely settled localities of the sections to be visited will be examined, referred to local physicians and followed up by the Department's nursing service so that their physical defects may be corrected before entrance to school. This work will be limited to the child of pre-school age. Local physicians will co-operate. Dr. Mary Riggs Noble, chief of the pre-school division will supervise the field activities.

PHILADELPHIA MAN IS REAPPOINTED AS DEMOCRAT SECRETARY

(International News Service)

HARRISBURG, May 24.—Reappointment of E. B. Zimmerman, Philadelphia, as secretary of the Democratic state committee, was announced here today. Headquarters will be reopened here. For several years there has been no Democratic state headquarters.

Drunken Drivers Are Given Terms To County Jail

Martin Carney Of Youngstown And Halleck Hasson Are Each Given Three Months

OTHER PRISONERS SENTENCED TODAY

Martin Carney of Youngstown entered a plea of nolle contendere before Judge Hildebrand in court this morning to charges of driving an automobile while intoxicated and possessing liquor. Carney was driving near New Bedford and had stopped to change a tire, when Constable McClenahan observed his condition and placed him under arrest. A bottle of liquor was found in the car. He was sentenced to three months to the county jail on the driving while intoxicated charge and one month for possessing liquor, the two sentences to run concurrently from May 5th the date of his arrest.

Halleck Hasson, for driving a motor vehicle while under the influence of liquor, was fined $200 and costs, and given three months to the county jail. Hasson was driving on West Washington street recently when his machine left the road and knocked a porch off a house.

Joe Bolish, for possessing liquor, was fined $100 and costs and given sixty days to the county jail.

Howard Truby and William Stock, for adultery, were fined $100 and costs and given three months to the county jail, when the understanding that if the fine and costs are paid, a motion for a parole will be entertained at the end of thirty days.

George Buckner, for possessing liquor, was fined $100 and costs and four months to the county jail, petition for parole to be entertained at the end of thirty days, provided fine and costs are paid.

Harry Barton, for operating a still, was fined $100 and costs and given sixty days to the county jail. Barton is in poor health. He claimed that the still did not belong to him, but that another man had set it up and hired him to run it for two dollars a day. He was out of work and accepted the job. He was arrested soon after the still was started. He gave the name of the owner of the still.

CLUB WOMEN AT WORK

Conducted By The Woman's Club Of New Castle

Club women all over the United States are packing their bags to be in San Antonio, Texas, May 28-June 7 at the biennial convention of the General Federation of Women's Clubs. Months of thought and effort have been expended by Mrs. Sherman, the president, Mrs. H. S. Godfrey, chairman of the program committee, the heads of the several departments and members of the Texas Local Biennial Board to make this convention a huge success. "The Fine Art of Living. Making the Federation Function in Daily Life is the keynote of the convention. Mrs. John D. Sherman will preside.

The convention will open in the evening with Mrs. Henry Drought, chairman of the Local Biennial Board calling the meeting to order. The singing of "America, the Beautiful" will be followed by the salute to the flag and the invocation by the Rt. Rev. W. G. Capers. A colorful feature will be a group of Texas cowboy songs arranged and composed by Oscar J. Fox of San Antonio and sung in traditional manner by Bill Irby, Texas cowboy tenor and a group of cowboys.

Addresses of welcome will be given by Mrs. Drought, Hon. C. M. Chambers, Mayor of San Antonio, Mr. Sidney King, Publicity Convention Director of the Chamber of Commerce, and Mrs. W. R. Potter, President of the Texas Federation of Women's Clubs. Mrs. Sherman will respond and the closing feature will be a group of Spanish-American compositions by violin, piano, voice and a danseuse. Immediately following the program, there will be an open air reception in honor of the General Federation in the Municipal Auditorium Plaza.

Wednesday morning, reports of all officers and committees will be given.

Mrs. Sherman's address on the Better Equipped Homes Campaign will feature the afternoon session. Greetings will be heard from the five living past presidents of the General Federation: Mrs. Dimies T. S. Denison, Mrs. Philip North Moore, Mrs. Percy V. Pennypacker, Mrs. Josiah Evans Cowles and Mrs. Thomas G. Winter.

Wednesday night will be State President's evening and each State President will speak briefly on "How the Club Movement has Enriched Daily Life in My State." Musical numbers by Henry Doughty Tovey, pianist of Fayetteville, Arkansas, will be a feature of the evening.

General Federation Headquarters' reports will be given Thursday morning for the first hour. The Dept. of Fine Arts will occupy the second hour. The Literature section will award the prizes in the Book Week contest. The Music and Literature Divisions offer fascinating programs for their conference luncheons which follow.

Thursday afternoon will be devoted to conferences by the eight departments with their chairmen presiding. Thursday evening will be given to delightful musical numbers and addresses by Mrs. L. A. Miller on "The Relation of Beauty to our Daily Living" and "Living Art" by Gutson Borglum, the sculptor.

Friday has been designated as "play day" and amusements and entertainment extraordinary are promised by the Texas women.

Saturday morning will be given over to the Department of Legislation and the Department of the American Home. There will be luncheon conferences each day.

The Department of Fine Arts has arranged an inspiring program on "Religion and Daily Life Service" for Sunday afternoon. Mrs. Sherman will speak on "The Supreme Adventure" and Mrs. Thos. G. Winter on "The Abiding Presence."

On Monday there will be addresses of various kinds on "Motion Pictures as an Educational Agency;" "Is Democratic Citizenship Possible" and "International Relations."

The Federation's conspicuous part in the illiteracy campaign will be stressed at the Tuesday morning session. The report of the nominating committee will be given at this session. The election of officers will take place on Wednesday, the polls being open from 8 a. m. to 4 p. m. The morning session will be given over to the Department of Public Welfare and Press and Publicity.

Wednesday evening Governor Dan Moody of Texas will discuss "Public Welfare in State Government" and Mrs. Minnie Fisher Cunningham of Texas will speak on "Public Welfare in the Federal Government." Frank Luther Mott, Director of the School of Journalism in the University of Iowa, will speak on "Women and Newspapers."

Thursday morning will be devoted entirely to reports and other business. Thursday evening will close the convention and Mrs. Sherman will present two brilliant and well known speakers.

Many social events will feature the convention, such as teas, luncheons, dinners and automobile trips.

The Woman's club of New Castle is being represented by Mrs. S. E. Crawford of Sheridan avenue.

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

There was a day when a trip to the dentist's was a trip to the chamber of horrors. One went there in fear and trembling and as he entered the den of the inquisitor he imagined that he could see a sign shining over the chair, "leave hope behind, all ye who enter here".

The old-time dentist never intended to hurt you, but somehow he started through your mouth with that instrument of torture he had, with all the gusto of a Spaniard applying the thumbscrew. An hour in the dentist's chair gave one as much gray hair as five years of married life, or whatever causes gray hair.

It's different these days. Oh, so much different. If modern dentistry keeps on taking the pain out of tooth plumbing, the dentists are going to develop into Pollyannas, spreading sweetness and light wherever they go.

For the past five years I've been going to step in to a dentist to get some overhauling done, but the fear of that grinding and poking and probing around nerves that are strictly private and resent it has stopped me.

And here I've been missing a good time for that long. They have gas now, nitrous oxide by name, and if the supply holds out prohibition is going to stay, for it certainly is intoxicating in its effect. Three whiffs of that and a fellow sits there and just dares the dentist to go ahead and do his durnedest. Imagine laughing in a dentist's face as he sinks the iron into a cavity about a foot and a half.

After roaming around for an hour and a half in a dentist's chair late Wednesday, all hopped up with that nitrous oxide, I wanted to step out and give the post office away.

The downtown streets looked like an Elks convention this morning. The class of 1298, New Castle Senior High school (rah, rah, rah) was out in force, dressed in purple and white, and, my dear, some of those gowns would slay you. It wasn't any too warm this morning, certainly not warm enough for sheer stuff, but did that stop them? You know it didn't. It was their day to wear 'em, and they certainly did.

This is getting to be a big league town. Time was, and not so long ago, when a gathering of any kind that attracted 200 people was considered something to write a letter about. Now folks just don't mention anything under a thousand. Since the Scottish Rite Cathedral has been built our ideas of crowds has enlarged and a party or a dinner or a meeting has to be in four figures to get a mention.

The Knights of the Green Fez were roaming around the Cathedral last night, or rather the Caliphs of Bagdad. The boys were in from Sharon and Butler and Grove City and Oil City, and it looked like a convention of western Pennsylvania cities. And some of the candidates may have to do a little polite lying to their wives today concerning that limp or that barked shin. They didn't stumble over the dresser or get it fixing a tire.

And as big as that Caliph meeting was, the Shrine meeting on June 14 will be four times as large. When the Shriners invade a city dull care and worry get thrown into the river. And on June 14, if you happen to have a grouch lying about handy, forget it, for the Shriners will be here.

Evening Appointments—

If you can not conveniently shop during the day, you are welcome to call 648 and make an EVENING APPOINTMENT. A courteous Salesman will gladly show you and your husband—or husband-to-be— through our store and help you make selections. Some folks like to select their furnishings THIS way.

BELLS TO TOLL ON MEMORIAL DAY

FRANKLIN, Pa., May 24.—Bells will toll for five minutes in Franklin at noon on Memorial Day. This custom is to be revived this year as a tribute to the fast-dwindling force of survivors of the Grand Army of the Republic, of whom less than a score reside in Franklin.

The past year has seen the death of General Charles Miller, commander of the local post more than 35 consecutive years. Phil Engelskirger, his adjutant, is the new commander.

The city is making preparations to have this coming Memorial Day more impressive than ever.

PLANS MADE FOR CORNER STONE LAYING

SALEM, O., May 24.—Plans for the laying of the cornerstone of the new Emmanuel Lutheran church on Sunday June 17 are being made. Many visitors from other cities will witness the ceremonies. The edifice will be one of the finest in this county.
